TRANSITIONING TO THE NEXT LEVEL

Integrity offers a full line of HDPE transition fittings to meet your needs; whether for water, oil, or any other transition application.

We offer a full line of Standard transition fittings in Male and Female NPT Threads in epoxy coated carbon steel, 304SS, and 316SS. We also offer standard cut groove transitions in epoxy coated carbon steel.

In addition, Integrity Fusion offers an impressive line of Heavy Duty transitions which are more durable for heavier duty applications. Threaded, Grooved, and Weld End are all available.

IntegriFuse fittings are manufactured for use in, but not limited to, potable water, oilfield, industrial, landfill, and mining applications.

All IntegriFuse Fittings meet ASTM-D3261 Requirements and are manufactured with domestic pipe having a material designation code of PE 3408, PE 3608, PE 4710, and PE 100.

Integrity Fusion Standard Threaded Transitions meet AWWA C-901/C-906, NSF-61, and NSF-372 Requirements.

SDR 17 (Standard Dimension Ratio) 125 PSI (Working Pressure at 73.4° F)

Male (MIPT) NPT Transitions
