# SATISFACTION GUARANTEED

Every JT Eaton® product is warranted to provide complete satisfaction when used according to the product's label directions. If, within a period of one (1) year of the date of purchase, you are not completely satisfied with the product JT Eaton® will replace it, substitute another JT Eaton® product of comparable value, or refund your purchase price - whichever makes you happy. It's your total assurance of quality and satisfaction.

1 Gallon Container with Sprayer  
6 Containers per Stackable Case

- Sold by the single layer
- All shown in stacks of 3 layers
- Can be stacked up to 5 layers high

# BRAND INDEX

## BRAND INDEX

---

Founded in 1932 by Jasper T. Eaton, the company started as a mail order house for pest control products for professional use.

Stanley Z. Baker purchased the company in 1949. Never satisfied, Stanley developed new and innovative products for professional pest control operators.

In 1962, Stanley invented the paraffin bait block which is the industry standard today. Again in 1979, Stanley developed the first glue board as we know them today. Before that, some professionals used the radiators of their cars to melt industrial glue and spread the glue across wood planks or tar paper.

Since then, JT Eaton® has gone on to create innovative products for the pest control industry as well as the retail industry. Most recently JT Eaton® launched an extremely successful Kills Bed Bugs program, Top Loader® bait stations, green light flying insect catchers and EPA Compliant Bait Options.

JT Eaton® is a family-run business that offers a complete line of products designed to help pest management professionals provide quality service to their customers. All JT Eaton® products are available in a variety of sizes, when applicable, to fit the needs of any firm. JT Eaton® also commits to quality products with the integrated pest management (IPM) strategy in mind.

# INDEX

---

20

The ecologically friendly way to rid buildings of pest birds without harming them. 4 the Birds® comes in a spray-able liquid or as a gel in caulking tubes. The tacky material is uncomfortable to the feet of birds which discourages them from staying. Easily applied with a standard caulking gun or with a brush or sprayer to almost any structure where pest birds rest, roost, or nest.

12, 18, 19, 26

Answer® is the solution to many of your pest problems. With a full range of wildlife traps for small through large wildlife, Answer® provides quality metal traps you can trust. Answer® also offers bait, traps, and insecticidal dust for pests both inside and outside.

13, 14

JT Eaton® Bait Block® rodenticides are the original pioneers of the Bait Block® style. Designed to work as clean-out baits and ongoing control when rotated, all Bait Block® come with center holes for securing with bait rods and are packed in tamper-evident resealable plastic pails.

13

Bait Block® 2G is a second-generation bait that kills in a single feed to quickly control warfarin-resistant rats and mice. Highly resistant to extreme weather and humidity, Bait Block® 2G has multiple edges and ridges to encourage feeding. Contains bittering agent to discourage children and pets from consuming. 2G baits for professional use only.

7

Big Pete™ is a dual entrance trap for rats, chipmunks, shrews, and other rodents. No bait required as rodents enter looking for harborage. Easy to set gravity doors that trap the animal in. High quality, durable galvanized steel.

5, 6

Widely known and used for years, the traditional snap trap has a continuing place in rodent control. Bigfoot® snap traps provide the solid construction, reliability, quality, and low-price JT Eaton® is famous for.

22

ClimbUp® is the original pitfall trap. Use underneath furniture legs and even a very low-level infestation will be visible. ClimbUp® can be used to verify whether bedbugs have been eliminated from a room.

# INDEX

---

4, 6, 7, 12

JAWZ™ quality products offer effective pest control for those looking for economical options. JAWZ™ snap traps provide effective rodent control and easy disposal without the need to touch trapped animals.

22, 23, 33

Kills Bedbugs can be used as a surface spray, crack and crevice treatment, and space spray. Treat mattresses, box springs, upholstered furniture, carpet, and luggage. Kills Bedbugs has powder, oil, and water-based options available depending on the treatment type needed.

7, 8, 9

Professional pest control operators asked for a multiple catch mouse trap that would fit in tight areas and could be placed out of the view of customers. This is how Little Pete® was created. Little Pete® mouse traps use the same quality galvanized steel construction as the Repeater™ but are 55% narrower.

24

Lock-Up® mattress and box spring encasements prevent bedbugs and dust mites from invading your mattress. Trapped bedbugs are locked-up while invading bugs are locked-out. Breathable, soft fabric with double zipper feature.

13

Nectus™ is a second-generation rodenticide that is fast and effective at controlling rat and mice infestations indoors and outdoors. Nectus™ is especially palatable, making it suitable for places where there are plenty of alternative foodstuffs available for the animals.

6, 26, 33

Pest Catchers® offers high quality glue traps for insects and smaller pests such as scorpions, spiders, cockroaches, and more. Pest Catchers® stands as the trusted choice for effective pest control in homes, ensuring a reliable and high-quality solution for safeguarding your space.

7, 8, 12

The Repeater™ is a multiple catch station that holds up to 30 mice. Use it as a live catch-and-release trap or with glue traps for easy disposal. Heavy duty, durable galvanized steel construction with additional powder coating available.

# INDEX

---

## **REPEATER<sup>™</sup> ROCK** ..... 12

Repeater<sup>™</sup> Rock stations are tamper-resistant and contain a Repeater<sup>™</sup> multiple catch mouse trap for use in sensitive areas. No bait is needed as mice enter looking for harborage. The multiple catch trap can also be used outside of the rock station if needed.

## **REPETE<sup>™</sup>** ..... 7

The Repete<sup>™</sup> is a reusable single catch live trap that can be used to catch and release mice, rats, and even chipmunks. Each trap is clear for easy inspection and has no potentially pinching springs or snaps.

## **RODENT ROCK 2G** TAMPER-RESISTANT BAIT STATION ..... 12, 15

Rodent Rock<sup>™</sup> 2G bait stations are tamper-resistant and can be secured to the ground with JT Eaton<sup>®</sup> bait station securing stakes. These stations can hold any rodenticide and can be used with JAWZ<sup>™</sup> snap traps or Stick-Em<sup>®</sup> glue traps. Rodent Rock<sup>™</sup> works for mice and rats.

## **Speedy Clean<sup>®</sup>** Multiple Catch Mouse Trap ..... 9, 14

Speedy Clean<sup>®</sup> removable ramps are available in Repeater<sup>™</sup> and Little Pete<sup>™</sup> multiple catch traps. Speedy Clean<sup>®</sup> ramps pull out of the unit cleanly, allowing for easy cleaning in and around the ramps themselves. No tools needed.

## **STICK-A-FLY<sup>®</sup>** ..... 26

Stick-A-Fly<sup>®</sup> products are glue-based traps that offer superior fly catching power. Stick-A-Fly<sup>®</sup> products come in different shapes and sizes to work effectively indoors and outdoors.

## **STICK-EM<sup>®</sup>** ..... 4, 5, 6, 26, 32

The strongest and most effective glue for catching big and small pests. Ready to use Stick-Em<sup>®</sup> glue boards and traps are solvent free without noxious odors and ecologically friendly. Stick-Em<sup>®</sup> non-drying, non-flowing glue retains its superior holding power indefinitely and works in all temperature ranges. For added benefit, Stick-Em<sup>®</sup> glue traps feature thermo-formed plastic trays to help prevent glue seepage problems.

# INDEX

---

**STRONGBOX™**  
GALVANIZED STEEL BAIT STATIONS ..... 11

The Strongbox™ is a quality, durable, tamper-resistant bait station. Strongbox™ is the original galvanized steel bait station – made for use indoors or outdoors. Easy to service and replace liner. Fits bait rods to keep bait moisture-free.

**SUPER STRONGBOX™**  
GALVANIZED STEEL BAIT STATIONS ..... 11, 12

The Super Strongbox™ features a hinged, domed lid that sheds water, a rubber insert to protect the lock mechanism and an inner liner to provide use options. Use with a Helland™ liquid bait bottle, JAWZ™ or Bigfoot® snap trap. Super Strongbox™ can be used for restaurants, offices, warehouses, hospitals, or other buildings where security is paramount.

 ..... 13

Top Gun™ rodenticide offers fast acting, 48-hour quick kill. Rodents only consume one lethal dose and stop feeding, using up to 1/8th the amount of some traditional bait. This makes Top Gun™ highly economical and effective, ideal for both clean out and maintenance baiting. Offered in both Bait Block® and Pellet forms.

**TOP LOADER** ..... 10, 15

The JT Eaton® Top Loader® is a gravity fed bait station that is ideal for small and narrow placements. Its shape allows it to be tethered to narrow rests such as fence boards and tree limbs. Works well for large infestations of rodents and holds 12 ounces of Bait Block® on a vertical bait rod or 902WB or 902GBD. Made of strong, durable plastic.

 ..... 9

Wind-Up™ is a multiple catch mouse trap made of galvanized steel that does not use bait. Mice enter looking for harborage and trip the trigger. The Wind-Up™ trap is a live catch-and-release trap.

**ZENDOZONES®** ..... 27, 28, 29, 32

ZendoZones® are aesthetically designed, back to the basics brand created by the Big Kahuna – Dale Baker. ZendoZones® are designed to bring Zen to your indoor and outdoor zones everywhere. With natural ingredients, your oasis won't be spoiled by anything less than the best.

# A COMMITMENT TO SAFE PEST CONTROL FOR A SAFER WORLD

---

From the invention of the parafin bait block in 1962 to the creation of the modern-day glue board in 1979, JT Eaton® remains steadfast in its commitment to pioneering products and resources that support and push safe and responsible pest management practices forward.

The majority of spreadable diseases are transmitted to humans by insects and other wildlife. On top of that, indoor household pests can not only spread these diseases, but can also cause issues for your family and home.

JT Eaton® is a family-run business that offers a complete line of products designed to help mitigate the issues caused by pests through trapping, treatment and prevention. The removal of pests from urban areas and homes can not only help to reduce disease transmission, but can create a cleaner, healthier living environment. JT Eaton® remains committed to safe and responsible pest control practices for a safer world.
