Epsom Salt Poultice

Profile:

Kaeco Epsom Salt Poultice is a topical gel designed for external applications. It is effective for drawing abscesses, helps reduce swelling and soothes pain caused from bruises, sprains and strains. **Kaeco Epsom Salt Poultice Flowable Formula** may also be used as a liniment or brace for temporary relief of muscle soreness, swelling, stiffness, sprains and strains. This gel can be easily dispensed and applied to the affected area. Use before or after workouts or competitions and recovery. **Kaeco Epsom Salt Poultice Flowable Formula** draws out soreness and swelling in joints and muscles caused by overexertion.

Advantages:

- Provides the benefits of Epsom Salt in a gel form and our New flowable formulation
- Can be used as a liniment or brace
- Draws out hoof abscesses and infections
- Soothes sole bruising
- Helps reduce swelling
- Relieves soreness in joints and muscles

"A great choice for insect bites and drawing abscess collections from the feet. We'd keep a jar around just for that..." (Horse Journal - August 2004)

Ingredients:

Epsom Salt Poultice contains Epsom Salt and Methyl Salicylate in a Water Soluble Base.

Directions for Use:

For muscles and joints: Apply to painful or swollen joints and muscles as a liniment or brace for temporary relief of muscle soreness, swelling, stiffness, sprains and strains. Use before or after workouts or competition and during recovery. **Kaeco's Epsom Salt Poultice** can be covered with cotton and or wrapped. Will not burn or blister skin. Let draw and soothe for 36 to 48 hours. Repeat as needed for relief of soreness and swelling. Washes off easily with warm water.

For hooves: Pack the entire sole and frog to draw abscesses or address sole bruising. Cover with a wrap or boot and let draw for 36 to 48 hours.

Available In:
