

16G SERIES - 1 HP

APPLICATIONS

Offered in 115V and 230V options, the 16G Series is designed as a new or replacement grinder pump for the toughest residential and light commercial wastewater applications. Ideal for use as a drop-in replacement for any effluent or sewage pump struggling with clogs and binding.

FEATURES

1. Heavy-duty 1 hp Class F motor provides optimal power to prevent flushables and other debris from causing clogs and downtime.
2. Superior grinding capability with proven results based on the patented cutting mechanism renowned in Franklin Electric's 2 hp grinder pump. 27 stationary blades and eight rotating blades produce 3450 rpm and 745,200 cuts per minute.
3. 1-1/4" discharge and 2" NPT adapter discharge preassembled onto the pump.
4. Silicon carbide mechanical seal provides up to six times longer seal life with lower thermal expansion and higher abrasion resistance when compared to carbon ceramic seals.
5. Easily replaceable, 20' power cord is sealed at the connection point for unit protection against water.
6. Non-skid adjustable legs for stability.
7. Vertical and tethered float switch available on 115V and 230V models.

SERIES SPECIFICATIONS

Gallons per minute (Liters per minute) @ Height					Shut-Off	PSI
10'	20'	30'	40'	50'		
49 (185)	44 (167)	38 (144)	29 (110)	15 (57)	53' (16.15 m)	22.9

CONSTRUCTION

Cover, Housing, Volute, Impeller	Cast Iron
O-rings	NBR
Motor Design	Capacitor start, capacitor run
Power Cord	SJOOW
Insulation Class	F
Overload Protection	Internal, on-winding
Motor Shaft	420 stainless steel
Hardware	Stainless steel
Mechanical Seal	Silicon carbide and silicon carbide
Cutting Mechanism	440 stainless steel (56-60 Rockwell)
