

Maestro LED+ Dimmer for Dimmable LED Bulbs

Maestro LED+ dimmer

Works with:

Dimmable
LEDs

Incandescent/
halogen bulbs

Benefits

- Offers more reliable dimming performance over incandescent dimmers when controlling LEDs
- Compatible with the broadest range of dimmable LEDs
- Multi-location dimming from up to 10 total locations with Maestro companion dimmers
- Also works with a traditional 3-way switch
- Delayed fade-to-off allows time to exit a room before lights turn off
- Matches the Maestro family of controls, including dimmers, switches, occupancy sensors, and more

Features

Cutting Edge Technology

- Advanced dimming circuitry designed for compatibility with most high-efficacy light bulbs
- Allows different bulb types to be dimmed together effectively (ex: LED and halogen)

Easy Adjustment

- Dimmable bulb performance varies from bulb to bulb and among manufacturers
- Allows you to adjust the low-end of the dimming range based on the capability of your bulbs

Advanced Programming

- Preset lights to automatically turn on to a pre-determined level every time
- Adjust fade time for lights turning on and off—allows lights to come on and/or turn off gradually

Maestro LED+ Dimmer for Dimmable LED Bulbs
