**Rough-in valve required.*

A modern kitchen interior with dark wood cabinetry, a white countertop, and a large window with a dark frame. Two large, spherical, ribbed pendant lights hang over the counter. A Moen faucet is visible on the counter. The scene is bright and airy, with a view of a green landscape and pink flowers outside.

Wave goodbye to chores and hello to hands-free convenience.

motionsense®

Imagine the convenience of having a kitchen faucet that can sense what you're trying to accomplish and respond to what you need, the moment you need it. MotionSense™ does. With MotionSense, you can use simple hand movements to turn the water on and off. This hands-free convenience lets you speed through everyday tasks with greater ease and efficiency. Plus, being able to use the faucet without having to touch it helps you control the spread of dirt and germs—reducing the chances of cross-contamination and minimizing the need to repeatedly clean your faucet.

Three ways MotionSense™ responds to you.

1. Pass your hand over the **Wave Sensor** at the top of the faucet spout. MotionSense will turn your faucet on and run water until you turn it off. Great for filling large pots and washing dishes.
2. The **Ready Sensor** detects when you place your hands or an object below the spout and supplies water only until you exit the sensor zone. That means you'll use water more wisely when you need to wash your hands or rinse a plate.
3. Use the familiar **handle** at any time to turn the faucet on or off, or to adjust the water flow and temperature.

Watch MotionSense deliver convenience on command. Scan here for a video demo.

Kitchen Compliments

Exceptional faucets are only the beginning

Kitchen Compliments is about creating a kitchen without compromise. Moen offers exceptional products that deliver all the style and functionality you want in a dream kitchen—now with the convenience of getting it all from one, trusted brand. That means guaranteed style compatibility, guaranteed quality and guaranteed satisfaction.

Plus, you'll save time not having to shop around, and you may even qualify for bundled pricing discounts from your showroom supplier.

Create the perfect kitchen that earns compliments. Exclusively from Moen.

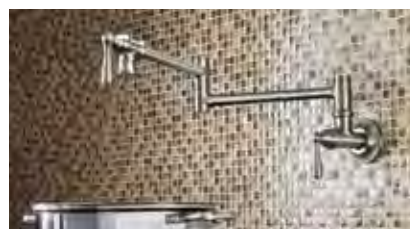

Choose from an expanded line of more than 100 stainless steel sinks. Take advantage of added utility with rinse baskets, cutting boards and other sink accessories, each custom-fit for any 1600™ Professional Series and 1800™ Series model.

New soap dispenser designs offer traditional, transitional and modern style options to better coordinate with your décor.

Enjoy the convenience of having clean, filtered water at your kitchen sink, or a separate beverage sink, without sacrificing style. Sip™ faucets hide the filter under the cabinet. A deftly integrated LED on the faucet indicates when you need to change.

Moen bar faucets, pot fillers and filtering faucets are guaranteed to match to your kitchen faucet in finish, performance and quality.

Consider a towel bar or towel ring beside the kitchen sink or on a kitchen island. Use a hook to hang potholders. Install a decorative shelf to house spices. And don't forget matching cabinet knobs and pulls; they help you carry the style throughout your kitchen.

reflex Effortless redefined.

Designed so your faucet acts as an extension of your body, Reflex® is an innovative system of features and enhancements that improve overall hose and sprayer operation for an exceptionally convenient experience.

Less effort. Less resistance. More control.

Reflex responds to you.

Self-retracts and securely docks.

Inspired by real users, Moen faucets with Reflex self-retract and securely dock, AND provide smooth operation and easy movement, offering a more convenient kitchen experience every day.

Retracts automatically

With Reflex, you just release the sprayer head and it will self-retract—saving you time and effort.

Self-docks securely

Reflex keeps your sprayer head in the fully docked position when not in use so your kitchen always looks neat.

Responds effortlessly

Easily unlatch and extend the sprayer head with minimal resistance.

Operates smoothly

Thanks to an ultra-flexible hose and hose joint that swivels to provide a wide range of motion, Reflex goes where you go.

Watch Reflex in action.

The easy indulgence: ioDIGITAL® technology

Featuring intuitive controls and simple operation, ioDIGITAL brings the benefits of technology to the bathroom with a design that is as easy to use as it is innovative.

The ioDIGITAL controller lets you key in and maintain both temperature and flow with electronic precision. Once you have achieved your perfect combination of temperature and flow, ioDIGITAL can recall that exact experience at the touch of a button.

ioDIGITAL proves that advancements in technology don't have to be intimidating or overly complicated. Luxury is literally at your fingertips.

Learn how Moen made technology simple. Scan here for an ioDIGITAL video feature.

Download app at getscanlife.com.

ioDIGITAL Controller / TS3405 8" Flat Rainshower / S6360 Flushmount Square Body Sprays / (4) TS1320

VERTICAL SPA
Command multiple spray outlets with one-touch activation. Create shower, body spray, hand shower and rainshower combinations.

Or choose them all for the ultimate blend of technology and luxury.

SHOWER

Get a great shower even before you get wet. LED indicators tell you when the water matches your settings, so you know it's just right. No scrambling to adjust handles the instant you step in.

ROMAN TUB

Let ioDIGITAL draw you the perfect bath—set to your preferred temperature and water level. A handy top-off feature even warms your bath with the touch of a button.

IMMERSION®
rainshower technology

Until now, rainshowers have been plagued by drooping spray and poor performance due to lack of water pressure across the entire spray face. Exclusive Immersion® Rainshower Technology channels water through a spoke design in the showerhead cavity. This concentrates and magnifies the natural force of water to dramatically enhance your showering experience. Immersion is featured on every Moen® rainshower showerhead.

Vertical Spa Options

Our vertical spa system delivers the premium experience you demand: maximum force, flow and coverage. And let's not forget pure design freedom. They're all critical to your enjoyment of a relaxing shower. And they're all front and center in the Moen vertical spa experience. Create nearly any vertical spa imaginable with high-quality Moen components. Place your desired components on a single wall or surround yourself in blissful exhilaration. And don't forget the ceiling—a perfect spot to mount a rainshower.

Custom Online Shower Selector

Moen® components are designed to work together so you can create a complete customized showering system using several options. Need help getting started with your design?

Visit www.moen.com/#shower-planner.

The M•PACT® Common Valve System is available in the following applications:

- Widespread lav faucets
- Roman tub faucets
- Wallmount lav faucets
- Tub/shower trim

Changing the look of your bathroom has never been faster or easier. The M•PACT Common Valve System allows you to upgrade the trim style or swap out finishes on your fixtures without replacing the valves. So once the system is in place, you can change your décor as often as you want and at any point in time—during the construction process or years down the road. All it takes is a few minutes. Best of all, the M•PACT Common Valve System is as easy to install as a standard valve.

The M•PACT Common Valve System is compatible with Moen bath and shower faucets featuring this logo.

SPOT RESIST™ Spot Resist™ Finish

At Moen, we know that keeping your kitchen faucet free of fingerprints and water spots is an ongoing battle. It's not surprising, because the kitchen is the most used room in your home.

That's why we developed the Spot Resist Stainless finish. Spot Resist does just what it says—resists fingerprints and water spots—so you'll have one less thing you need to clean every day. This attractive finish maintains the brilliance of your faucet so you can spend more time enjoying your home ... and less time cleaning it. And when it is time for periodic cleaning, Spot Resist easily wipes clean.

Traditional Pot Filler with dual shutoffs / S664
Faucet shown in Chrome finish.

Pot Filler

Ready to inspire the master chef in you? The Pot Filler is the ultimate epicurean luxury with all the details needed to ensure convenient flow control over a cooktop. Dual joints allow for maximum reach, and dual shutoff valves mean never reaching over a hot surface to turn it off. Choose from two distinct styles—Traditional or Modern—to coordinate with any décor preference.

Spa and Showering

Make it your own with these options.

A shower can set the tone for your day. It can relax your muscles or invigorate your spirit. It can literally transform the way you feel.

A shower that's uniquely you—one with the ideal combination of beautifully styled trim in just the right finish with features that are customized to your every need and desire—becomes an experience that is not just personalized, but perfected.

As the leader in the industry, Moen offers you the ultimate flexibility to create just about any showering experience you can imagine. You'll even find innovations that use water more efficiently without sacrificing performance. All in the look you love. Which means it's easy for you to turn your dream design into a showcase shower.

Ask your showroom representative to help you assemble the right products to match your idea of extraordinary. Or use our custom shower planner at www.moen.com/#shower-planner.

With a Moen® multi-function showerhead, you can go from a relaxing rainshower to a concentrated rinse at the flip of a lever. Immersion® Rainshower Technology creates three times more spray power than traditional rainshowers for better performance.

Use body sprays to direct a vigorous flow of water at any, or every, inch of your body. Moen flushmount models feature a wider angle of pivot for more precise aim and more complete coverage.

For added indulgence, install a ceiling-mounted showerhead to replicate the tranquil, water-drenching sensation of being in a soothing rain shower.

Go beyond the standard showerhead. Install a handshower to get a wide range of motion and spray water only where you want it. Ideal for bathing kids and pets, and a safe option for those who need to sit while in the shower.

ioDigital® Showering

Get in touch with ioDIGITAL®

FLOW INTO THE DIGITAL AGE.

From DVRs to dashboard navigation systems, you're surrounded by technology that's designed to make life easy. With the introduction of the ioDIGITAL shower system, Moen brings the benefits of technology to your bathroom.

The innovative ioDIGITAL controller lets you dial in and maintain both temperature and flow with electronic precision. Plus, sleek LED indicators visually display your settings. No longer will you have to guess about temperature or constantly adjust handles to stay comfortable. ioDIGITAL puts you in complete control.

FOR YOU. FOR YOUR FAMILY.

Maybe you need a quick, cool rinse to wake up and a long, steamy shower to relax after work. Maybe you soak in a tub full of bubbles, but want a shallow pool of lukewarm water to bathe the kids. Maybe you share a bathroom with someone who wants a completely different experience than you.

ioDIGITAL makes creating a truly personalized shower or bath simple. Once you achieve your preferred combination of temperature and water delivery, you can recreate that exact experience any time you desire with the touch of one button. Multiple users can do the same. Luxury is literally at your fingertips.

What makes ioDIGITAL smart?

THAT'S EASY.

ioDIGITAL is proof that advancements in technology don't have to be intimidating or overly complicated. With intuitive controls and simple operation, Moen made ioDIGITAL as easy as it is innovative.

INTELLIGENT

ioDIGITAL will tell you everything you need to know—before you get in and get wet. The intelligent controller provides quick, visual feedback—LED indicators flash until your requested settings are achieved. The LEDs will even alert you if your hot water supply happens to run low. All it takes is a glance. Think of it as love at first sight.

PRECISE

With each LED on the temperature indicator representing a narrow 3°F range, ioDIGITAL allows you to dial in the precise temperature you desire. Plus, the system locks in your settings electronically. Even if water is turned on in other parts of your house, ioDIGITAL will virtually eliminate any noticeable fluctuation in water delivery.

CONSISTENT

One of the greatest advantages of ioDIGITAL technology is the ability to program your preferred settings into memory. With flexibility to store up to four different presets, you can get the exact bath or shower experience you want again and again, with the touch of just one button. Nothing could be easier.

Choose ioDIGITAL Vertical Spa and choose up to four spray outlets: rainshowers, handshowers or body sprays, in any combination you desire.

Valve Choices

Every shower has a valve that acts like an engine—shifting flow, regulating temperature and driving performance. Like engines, not all valves are created equal. There are many options of design, functionality and operation. Each valve is designed to meet applicable pressure-balancing or thermostatic safety codes, so there's never a worry about hot or cold water surges. You can count on quality construction and dependable operation because each valve is backed by a Limited Lifetime Warranty. For more information on warranty details, visit moen.com/consumer-support/warranty.

ioDIGITAL® Vertical Spa Valve

Digital Thermostatic—computer-controlled temperature and flow

ExactTemp® 3/4" Thermostatic Valve

Thermostatic—automatically adjusts to fluctuations in the supply to maintain precise temperatures

Two- or Three-Function Moentrol® Valve

Volume and temperature control—handle pulls out to adjust flow and rotates from hot to cold

Moentrol® Valve

Pressure-balancing volume control valve

Posi-Temp® Valve

Pressure-balancing cycling valve

Two- or Three-Function Transfer Valve

Directs water flow to spray outlets

MOENTROL® MULTI-FUNCTION TWO-HANDLE VALVE TRIM

Use with built-in two- or three-function transfer valve.
