

Material Number NJ0J0XA, S-113-LF - Gate Valve - Lead-Free*, Non-Rising Stem, Solder

The solid wedge, integral seats and bi-directional service make the gate valve a good choice for a broad range of services. Non-rising stem gate valves are used when positive shutoff is required and a space saving is necessary. Please refer to NIBCO technical data sheets, chemical resistance guides and catalogs for engineering and installation information. Choose NIBCO® valves for the most specified, versatile and economical valve option in commercial and residential applications. NIBCO® valves
