**Material Number NLR100E, PFD 2000 - Butterfly Valve - Ductile Iron, Press x Press Female Ends, 20 PSI, Handle**

The NIBCO® lug type butterfly valve is ideal for commercial and some light industrial process applications, including HVAC and vacuum services, in addition to hot and cold potable water. The ductile iron butterfly valve provides ease of operation with quarter-turn (90 degrees) open to close. With the internal stem/disc geometric drive design, there is no need for pins or bolts that may create leak paths or turbulence in the waterway. An extended neck allows for insulation up to 2 inches.
