Reshaping  
your  
world

## Our Mission

We offer powerful, precise, user-friendly solutions, which enable our customers to cut, shape and finish all materials even in the most complex and challenging applications. By working closely with end-users and our grinding expert partners, we design and provide customized solutions to secure the best option for performance, cost and safety.

## Our Expertise

Norton is the leading brand of Saint-Gobain Abrasives, with more than 135 years of experience in manufacturing abrasives.

We are committed to providing access to our expert's knowledge whenever you need it. Whether it is through ongoing training programs, or through on-line expert articles and white papers you can stay up-to-date with Norton where and when you need it.

Bring us your grinding challenges, we have solutions!

## Our Commitment

You be the final judge in performance! We are so confident of the superior performance of our abrasive products, as recommended for specific applications, that we invite in-plant tests against any other brand of abrasive product on the market. Contact your Norton Representative to find out more about our No Risk test policy or visit [www.nortonabrasives.com](http://www.nortonabrasives.com)

## Go Further

For a more comprehensive outline of products, safety and application information, visit our website at [www.nortonabrasives.com](http://www.nortonabrasives.com)

We continually update it with our most current information.

# ProSand®

## OUR PRODUCT EVOLUTION IS YOUR CUSTOMER'S **EASIEST SANDING SOLUTION**

### GET IT. **FINISHED.**™

With Norton ProSand, we've packaged the best sanding sheets and sponges into a new look while raising the performance and durability level in order to deliver a new industry standard for sanding made easier.

# SIT, STAND, STACK OR HANG... THE OPTIONS ARE YOURS

SIT

STAND

STACK

HANG

The new retail friendly clamshell packaging for Norton ProSand Multi-Air Cyclonic and UVH discs provides a secure, rugged, durable, highly-visible package that allows customers to see, touch, and feel the disc. It also provides retailers a variety of display options including sitting, standing, stacking, or hanging the package of discs.

What material are you hand sanding?

## ProSand

Premium abrasive provides superior cut on all surfaces, lasts substantially longer and cuts faster than conventional abrasives and has been open abrasive grain coated to resist clogging and loading during sanding. Available in a wide range of grits to tackle any job, ProSand Sheets are perfect for sanding paint, drywall, and wood.

### Grit Guide

60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE	400 SUPER FINE
Heavy removal, stripping, shaping, and dimensioning	Moderate removal and stripping	Moderate to light removal and stripping	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding	Final finish

### Features & Benefits

- Premium heat-treated abrasive offers faster cut and longer sanding life than 3X technology. Heat treating toughens the grain allowing it to stay sharp and last longer under extreme pressure, making it the most durable abrasive on the market. Super sharp edges allow grain to remove material faster.
- Increased backing weight. Fiber reinforcement and latex saturation offer better grain retention with higher flexibility for easy folding and unfolding without tearing.
- Non-pigmented, waterbased stearate, anti-clog (No-Fil) open coat design. Anti-clog provides best resistance to premature loading during sanding.
- No color dye in coating process so there is no chance of color transfer to work piece.

“ I shall continue to only have Norton abrasives in my shop. I've only come across one other brand that could compete in the past, but your ProSand is like a quantum leap above the rest. ”  
- Jim Attwooll

### PERCENTAGE STOCK REMOVAL 80, 150, & 200 GRIT SEQUENCE

\* PERCENTAGE BASED ON TOTAL GRAMS CUT OVER 12 MINUTES OF SANDING ON RED OAK WITH VIBRATING SHEET SANDER

\* Results based on internal testing performed using a vibrating sheet sander. Performance data reflects cumulative stock removal of red oak panels over the course of an 80, 150, 220 grit sanding sequence.

## SandWet

For wet, oil or dry sanding primer, sealer, varnish, lacquer, enamel and other top coats.

- Flexible, fiber-reinforced backing
- Non-pigmented, water-based stearate (anti-clog) coating, open coat
- No color dye in coating process
- Superior sanding performance for a premium surface finish
- To increase sanding flexibility, soak in water for 15 minutes prior to use
- The wet dry sheets create an exceptionally smooth surface

## Bulk Full Sheets

### TIP

How to Cut a 9" x 11" Full Sheet to Fit Your Sander

1/2 sheet

1/4 sheet

1/3 sheet

Block

### ProSand No-Fil A259PS

Premium, P-graded aluminum oxide abrasive with fiber-reinforced backing. Specially coated to resist loading and tearing for three times the life over conventional aluminum oxide products. First choice when performance counts on sanding tough finishes or looking for exceptional finish. High flexibility.

### Premium No-Fil A275 (B-wt)

Premium, P-graded aluminum oxide abrasive resin bonded to a B-weight backing. Specially coated to resist loading and tearing over conventional aluminum oxide products.

### No-Fil PB273 (B-wt)

P-graded aluminum oxide abrasive for fast cutting action and extended life with consistent finish. Flexible latex B-wt backing with a full resin bond and open coat allows for improved resistance to delamination. The water-based steared, non-pigmented No-Fil coating provides improved load resistance and no color transfer to the work piece.

### Adalox A211 (D-wt), A212 (A-wt), A213 (C-wt)

For dry sanding hardwood, metal and composites by hand or machine. Long lasting, aluminum oxide abrasive is open coated on high tensile paper. A, C, D weight paper.

### E-Z Flex Metalite K225 (J-wt)

For deburring, cleaning and polishing of metal. Rugged aluminum oxide abrasive is electro-coated onto a flexible cloth backing. Outperforms natural grains, like emery.

### Emery K622

For scouring and polishing non-rated metals and utensils. Emery abrasive is durabonded onto a flexible cloth backing.

### Garnet A511 (A-wt), A513 (C-wt), A514 (D-wt)

For rough through finish hand sanding of softer woods and cabinet work. Use dry on bare wood prior to coating. Natural garnet abrasive is electro-coated on high tensile paper. A, C, D weight paper.

### Tufbak Durite Waterproof T461 (C-wt)

For sanding between coats of primers and other finishes on wood or metal with water or other lubricants. Diamond-like silicon carbide abrasive is electro-coated to a tough, waterproof paper backing.

### Tufbak Durite Waterproof T401 (A-wt), T414 (A-wt)

For generating the ultimate finish in wet sanding applications. The premium ultra fine silicon carbide abrasive combined with a unique A-weight paper and strong resin bond system provides ultimate flexibility, long life and wet curl resistance.

### Tufbak Waterproof T280 (A-wt)

For wet or dry sanding between coats as well as final sanding. The premium ultra fine P-graded aluminum oxide abrasive is coated on a durable waterproof paper providing an ultra fine finish with improved tear resistance.

### No-Fil Durite A475 (B-wt)

For sanding between coats of primers and other finishes. The combination of sharp silicon carbide abrasive, a strong resin bond and special anti-clog coating gives it increased sanding life in dry applications.

## ProSand

Our super-sharp abrasive and new coating method make these sponges resist clogging, cut faster and last longer than general sanding sponges and up to 5X longer than conventional sandpaper. The various sizes and grit combinations offer maximum versatility and flexibility for sanding curved, contoured or flat surfaces of wood, metal, paint, plastic, and drywall.

Medium grits prepare surfaces for finishing
<b>FINISHING</b>
Finer grits finish work prior to applying stain, sealer, varnish, or paint

### Features & Benefits

- Durable, abrasive-coated foam lasts up to 5X longer than sandpaper with resistance to tearing
- High-performance, open-coat aluminum oxide grain cuts faster, lasts longer and resists clogging
- Flexible and conformable to shapes and contours making sanding of various surfaces and hard-to-reach areas easier
- Washable for extended life; rinse and reuse

PART #	UPC-A	GRIT	GRADING	QTY/ PACK	PACKS/ CASE
<b>ProSand 5X Small Area – 2PK</b>					
Ideal for small area paint and drywall repair. Firm sponge material and new ultra sharp grain offers faster cut and longer life.

## Abrasive Rolls

Available in three different backings. Choose the one that's best for your application,

- **Screen** – For sanding where life and load resistance are most important. Coated on both sides with silicon carbide abrasive, the open mesh design also allows you to rinse and reuse.
- **Paper** – For fast, easy sanding when long life and consistent finish are most important. High strength latex backing offers superior strength and reduced edge wear. PSA backing for easy on/off.
- **Cloth** – For general-purpose sanding where flexibility and tear resistance are most important. Cloth backing provides increased strength and durability.

### Screen

- sanding plastic pipe prior to gluing
- preparing copper pipe and fittings prior to soldering
- sanding softer materials where loading is a major problem such as plaster, wood, drywall, brass, etc.

## Discs and Rolls

### Mesh Application

MeshPower features a full ceramic abrasive grain which offers a superior cut rate over traditional aluminum oxide. Norton No-Fill technology works to prevent clogging for a better finish and longer life, saving operators time and money. It also allows the grain to wear evenly resulting in finer scratch pattern, and faster, more consistent results throughout the product life. Open mesh construction of the backing allows dust particles to flow freely through thousands of tiny holes, creating a virtually dust-free sanding environment.

### Paper Disc Application

Aluminum Oxide abrasive for ultra smooth finish of drywall compound. Anti-clog coating on disc decreases loading and promotes optimal dust collection. The rugged hook and loop fastening system assures quick and easy disc change.

### Paper Roll Application

Paper rolls offer an economical choice over precut sheets and screens. Generally preferred for larger jobs. Cut to desired length.

	PART #	UPC-A	QTY/ PACK	PACKS/ CASE
	07660702411	07660702411 4	1	6**
Easy snug clips tighten for secure fit. Firm handle provides solid grip. For use with die-cut drywall and plaster sanding sheets or screens on pages 15-16.				
<b>Hand Sander</b>				
	07660702412	07660702412 1	1	8**
Use with threaded handle for sanding high walls and ceilings. For use with die cut drywall and plaster sanding sheets and screens on pages 15-16.				
<b>Pole Sander</b>				
	07660768104	07660768104 1	1	6**
Ideal for sanding larger surface areas. The light-weight, circular design virtually eliminates flipping and allows change of direction up/down and left/right without lifting off the wall. Works with a 9" hook and loop sanding disc.				
<b>9" 360 Disc Sander</b>				
	07660768241	07660768241 3	1	6**
9" 360 Disc Sander conveniently comes with a pole adaptor making this product ideal for sanding larger surface areas and increases the versatility to reach taller walls and ceilings. Works with 9" a hook and loop sanding disc.				
<b>9" 360 Disc Sander with Pole Adaptor</b>				

	PART #	UPC-A	QTY/ PACK	PACKS/ CASE
	07660768105	07660768105 8	1	6**
Simultaneously sands both inside seams of a drywall corner. The light-weight, 90° design provides a smooth edge with less risk of wall damage commonly caused by sanding each side separately. Works with 8" x 7" hook and loop sanding sheet.				
<b>Inside Corner Sander</b>				
	07660768106	07660768106 5	1	6**
Ideal for sanding hard to reach areas. The light-weight, 1/3 sheet hook and loop design eliminates fumbling with wing nuts and clamps. Works with 3-2/3" x 9" hook and loop sanding sheet.				
<b>1/3 Sheet Sander</b>				
	07660768107	07660768107 2	1	6**
Easily converts Norton hand sanders to pole sanders for extra flexibility in stairwells, on ceilings and hard-to-reach areas.				
<b>Pole Handle Adaptor</b>				

I am in the remodeling business, and I end up doing a lot of drywall finishing and wall repair. I really like the 9" round disc sander for big open areas and valley and butt joints on drywall.

- Jack Faville

### Grit Guide

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE
Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

### Features & Benefits

- Precision laser-cut, spiral-hole hook and loop vacuum design removes material consistently throughout the life of the disc while maximizing dust extraction for a cleaner work environment
- Specialized multi-hole pattern allows for use on any random orbital sander regardless of hole pattern - including unique Festool®\* sander models
- Premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer and removes material faster than conventional abrasives and uses a No-Fil coating to resist clogging/loading during sanding
- Unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant

## ProSand UVH (Universal Vacuum Hole)

The patented Norton Hook & Sand Universal Vacuum Hole Discs offer superior results when used on high-speed power tools and can fit on both 5 and 8 hole random orbital sanders. The premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer, and removes material faster than conventional abrasives. Our unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant.

### Grit Guide

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE
Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

### Features & Benefits

- Universal vacuum holes allow the discs to be used on 5 or 8 hole vacuum sanders
- Designed to increase dust extraction for a cleaner work environment
- Hook and loop fastener is easy to use and makes disc changes fast
- Premium ceramic abrasive provides a consistent finish and superior cut rate over traditional aluminum oxide discs
- Unique fiber-reinforced latex/paper backing is flexible, strong and tear resistant

## MeshPower

Powerful dust extraction for a breath of fresh air!

Sanding often times can be dusty and messy. With Norton MeshPower sanding discs we have created a product that provides virtually dust-free sanding; meaning a cleaner and healthier working environment, a better finish and a much more comfortable sanding experience.

### Grit Guide

<b>80 COARSE</b> For moderate removal and leveling surface imperfections	<b>100, 120, 150 MEDIUM</b> For light removal and smoothing of bare surfaces	<b>180 FINE</b> For finish sanding and cleaning of bare surfaces	<b>220 VERY FINE</b> For very fine sanding of bare surfaces, primer and sealer sanding	<b>320 EXTRA FINE</b> For primer, sealer, and between coats sanding
-----------------------------------------------------------------------------	---------------------------------------------------------------------------------	---------------------------------------------------------------------	-------------------------------------------------------------------------------------------	------------------------------------------------------------------------

### Features & Benefits

- MeshPower discs are a multi-functional abrasive, designed with thousands of holes, created by the unique open mesh backing
- This mesh structure allows for powerful and effective dust extraction in any application.
- Patented Norton No-Fil technology works to prevent clogging for a better finish and longer life, saving operators time and money.
- It also allows the grain to wear evenly resulting in a finer scratch pattern, and faster, more consistent results throughout the product life.

### Competitive Benchmarking

\*Results are based on 12 minutes of sanding on maple panel (80, 120, 220 grit).

## MultiSand – Hook & Sand – Paper

Norton MultiSand Hook & Sand Discs offer a superior cut rate and consistent finish. The unique fiber-reinforced backing is edge tear-resistant and features a hook and loop backing that makes for quick and easy disc changes. Water-based zinc stearate coating reduces loading and prevents finish contamination.

### MultiSand – Stick & Sand – Paper

Norton MultiSand Stick & Sand PSA Discs and Rolls feature a durable, sharp aluminum oxide grain for aggressive and cool cutting.

The non-pigmented, water-based anti-clog coating resists loading and won't contaminate the finish. Pressure sensitive adhesive allows for quick and easy disc changes.

## MultiSand – Stick & Sand – Cloth

Norton MultiSand Cloth Stick & Sand PSA Discs are used for a variety of applications including rough sanding of primed and painted surfaces, stripping paint and primers, and heavy stock removal of wood, metal, plastic, and fiberglass.

### Applications:

#### Electric Random Orbital Sanders

For use on contours or flat surfaces for light- to medium-pressure grinding, blending, leveling, and finishing applications.

#### Stationary Disc Sanders

Used in woodworking and metalworking for stock removal, sanding/grinding flat surfaces, dimensioning and finishing.

## Flap Disc

Our Norton flap disc portfolio offers right angle grinding versatility with a product that can grind and finish in a single operation. The abrasive flaps are adhered to a rigid backing plate. It is the back plate that provides stability during operation with cooler cut, less vibration and smoother finish without gouging.

Applications: Grinding, stock removal, edge chamfering/beveling, weld blending, deburring/deflashing, rust removal, blending, cleaning and finishing

**NOTE: Use at 15°-25° angle. More severe angles will weaken edges.**

### Grit Guide

24 GRIT	36 GRIT	40 GRIT	60 GRIT	80 GRIT
Heavy Removal	Heavy Removal	Moderate Removal	Moderate Removal	Final Surface Smoothing

### Flap Disc Shapes

GRIND AT FLATTER ANGLES: 0° - 15°

#### Type 27 Flat - The Best Choice for Finishing

- Used primarily on flat surfaces
- The best choice for blending and smooth finishing

GRIND AT STEEPER ANGLES: 15° - 25°

#### Type 29 Conical - The Best Choice for Aggressive Stock Removal

- Conical flap discs have angled flaps and may be used on both contoured and edge work
- The angle provides greater surface contact for stock removal on flat surfaces
- The best choice when speed and stock removal are primary considerations

### Abrasive Flap Density

#### Standard Density

- Excellent for heavy-duty applications and rapid stock removal

## Rapid Strip

Non-woven depressed center discs have three components: strong synthetic fiber mesh and quality abrasives, bonded together by a smear-resistant adhesive.

Rapid Strip discs have an open web construction that enables aggressive cutting action while maintaining a cool, non-loading surface.

### Quick-Change Disc

The tool-free, twist-on and off fastening systems of Norton quick-change discs make fast work of disc changes and maximize productivity by minimizing downtime.

**Fiber**

- Weld grinding
- Metal removal

**Non-Woven**

- Removing surface defects
- Blending mill marks, tool marks and uneven finishes

**Type TR (Type III)**

- Features a roll-on/roll-off style plastic fastener

## Red Heat

Norton Red Heat belts utilize a premium ceramic alumina grain delivering a superior cut rate to anything on the market. This ceramic grain “micro-fractures” during the sanding process, leaving a razor sharp edge throughout the life of the belt. It’s symmetrically-shaped design leaves a much finer scratch pattern compared to other abrasives, allowing for an aggressive cut without deep scratches that might be seen after staining or finishing. Combine all of this with a heavy cotton backing and you have ultimate durability and longevity.

<b>36 GRIT</b>	<b>50 GRIT</b>	<b>60 GRIT</b>	<b>120 GRIT</b>
Heavy Removal	Heavy Removal	Moderate Removal	Light Removal

### Features & Benefits

- Utilizes ceramic alumina abrasive for five times the product life over conventional abrasives on the hardest woods and finishes
- Symmetrical shape of the ceramic alumina grain allows the belt to cut aggressively while leaving a finer scratch on the surface which results in a superior finish and less time sanding
- The super-sharp micro-fracturing ceramic grain cuts cooler and resists loading which minimizes belt changes
- Heavy cotton backing is durable and tear resistant

## MultiSand – Aluminum Oxide Portable / Benchstand Belts

MultiSand Aluminum Oxide Portable and Benchstand Belts are ideal for all your metal and woodworking applications. Found in a wide variety of grits and sizes they can be used for tackling the following projects:

- Heavy stock removal
- Finish sanding
- Deburring of steel
- Polishing
- Dimensioning and shaping
- Removing saw marks

## Blades/Cups/Specialty

Norton Clipper Diamond Blades are the choice of professionals because of their faster cut rate, constant depth of cut and less downtime versus standard abrasives blades. Choose Norton Clipper Charger for maximum productivity, longest life and lowest total cost. Choose Norton Clipper Classic for high productivity. Choose Norton Clipper ValuPlus for quality and value.

Photo not intended for instruction. Always comply with OSHA and ANSI B7.1. For more info visit our website.

### Segmented Rim

- Most aggressive cutting action for use on the widest variety of materials.
- Typically used on high speed, walk-behind and masonry saw blades.

### Turbo Rim

- Aggressive cutting action with a smoother quality cut.
- For use on harder materials such as granite, marble and stone, to reduce chipping.

### Continuous Rim

- Provides the smoothest cut.
- For use on porcelain, ceramic tile, marble and other hard materials requiring a high quality cut.

### Tuck Pointing

- Economical for small to medium tuck pointing jobs. High quality performance for heavy grout removal or mortar jointing.
- Heavy duty wide segment reduces wear in abrasive materials.

## Right Angle Grinder Cut-Off

The Norton offering of thin, unique cut-off blades delivers a full range of sizes and thicknesses for high-demand applications like cutting and cleaning metal studs, masonry stainless steel, tubing and sheet metal.

### Features & Benefits

- Fastest cutting wheels in the market
- Will deliver a fast cut with longer life without added operator pressure
- Reinforced to tackle tough portable and fixed-base cut-off applications

### SPEC CHECK

#### Metal

Steel, Stainless, Iron, Sheet metal

#### Masonry

Concrete, Brick, Cinder block, Patio stones

#### Aluminum

Aluminum, Bronze, Copper

MTO - Make to Order

## Depressed Center Wheels

The depressed center design allows the flange/lock nut to recess within the wheel so that it can be used for various grinding and cutting applications. Depressed center wheels are designed to handle the most severe right angle grinding applications, from heavy stock removal to rough blending. Depressed center wheels may also be referred to as raised hub wheels or by their shape designation of "Type," with Type 27 being the most popular.

### 1/4" are designed for grinding:

- offhand stock removal of all types of metal and masonry
- smoothing welds
- pipe beveling

### 1/8" are designed to be used for both light grinding or cutting:

- offhand cut-off of all metal and masonry materials
- notching or cleaning pipes and weld beads

### .125" are designed to be used at a 90° angle for cutting only

### Professionals Want Choices

Norton NorZon Plus is the highest performance line in the industry. Invented and made in America, now improved and expanded.

### Performance on Fire

Engineered with a proprietary NorZon grain upgrade, the Norton BlueFire design offers faster removal rate, longer product life and increased productivity for better performance value.

### The Right Choice Every Time

The re-engineered Norton Gemini RightCut 100% aluminum oxide wheels provide thinner, faster cutting with a burr-free, precision cut and improved operator comfort.

## High-Speed Reinforced Cut-off Blades

For deburring, cleaning, slotting and cutting of all types of metal and masonry.

### Universal Arbor Blades

Two blade sizes in one. A 20mm bushing is included in the 1" molded arbor hole. The wheel with bushing can be mounted directly on a 20mm arbor. Or, the bushing can be removed exposing a 1" arbor hole which can be mounted to any 1" saw arbor. Once the 20mm bushing is removed, it cannot be replaced.

### Road Construction Blade

Used on walk-behind machine for sawing green concrete, cured concrete and asphalt.

## Chop Saw Reinforced Cut-off Blades

For use on low horsepower cut-off machines. These machines can be easily moved, but the workpiece is carried to the machine. Especially popular in the construction industry because of its portability and ability to provide a straight, clean cut.

### Primary uses include:

- Cutting metal studs, rebar, angle iron, and tubing

## Stationary Saw Reinforced Cut-off Blades

For use on a range of fixed base, higher horsepower cut-off machines where the workpiece is carried to the machine. Designed for higher cut-off production of all types of metal and masonry:

- Heavy bar stock, rebar, thick wall tubing and pipe

## Mounted Points – Handy Packs

For removing burrs and flash finishing any kind of metal surface in a confined area. Fast stock removal and free cutting action. Use "A" or "B" shapes for medium to heavy duty blending. Use "W" shapes for offhand and precision grinding of medium to heavy stock.

### TECH TIP

Use "A" or "B" shapes for medium to heavy duty blending. Use "W" shapes for offhand and precision grinding of medium to heavy stock.

PART #	UPC-A	SIZE	SHAPE	MAX RPM	WHLs/ CASE
<b>Mounted Points – Handy Packs</b>					
<b>1/4" Shank</b>					
07660724376	076607 <b>24376</b>	8 1" x 1-1/4" 1/4" shank	A2	34240	1/25

07660724564	076607 <b>24564</b>	9 1" x 1/2" 1/4" shank	W218	37890	1/25

Max. RPM valid to 1/2" overhang. See package insert for other overhangs.

### Bench & Pedestal Wheels

Bring back your high-speed dry grinders! The fastest cutting wheels on the market are also the coolest. A constant supply of sharp cutting points with the Norton patented SG (ceramic alumina) grain gives the Premium Norton Bench & Pedestal wheels an incredible burn-free cut with controlled micro fracturing of the grain. Great for all bench and pedestal operations, especially hollow grinding of plane blades and chisels.

### Arbor Adapter Bushings

DIAMETER.	CENTER HOLE	1/2"	5/8"	3/4"	7/8"	1"	1-1/4"
5", 6", 7"	1"	•	•	•	•		
8"	1"		•	•	•		
10"	1-1/4"			•	•	•	
12"	1-1/2"					•	•

NOTE: Each 5", 6", 7", 8", 10" and 12" wheel is supplied with additional arbor bushings, so one specification can meet the needs of several machines with different arbor sizes.

## Wire Brushes

The Norton Metal line of wire wheels and brushes provides excellent performance for deburring and removing rust, corrosion and dirt from various surfaces, including steel, ferrous metals, and stainless steel. The bright, clean, easy-to-read, packaging in English and French makes for easy and simple product-to-application selection.

### Features & Benefits:

- For use with angle grinders, bench grinders, or drills depending on your application/requirements
- Perfect for removing rust, scale, paint, and dirt from metal and other surfaces
- Ideal for preparing metal or rubber for gluing
- For stripping paint from wood surfaces or for roughening surfaces

## Norton Painter's Plastic

Our multi-purpose plastic sheeting protects virtually any area from sanding dust and paint overspray with ease – even after repositioning. Mono films and linear low density plastics (LLDPE) don't compare.

### Features & Benefits

- Resists tearing and solvent bleed-through with lightweight .31 mil High-Density Polyethylene (HDPE) plastic
- Holds in place as it clings to horizontal or vertical surfaces during taping with its natural electrostatic properties
- Attracts and holds sanding debris for a dust free finish
- Drapes easily over furniture

## Norton Hand Masking Film

Norton Hand Masking Film is specially designed to resist paint flaking during multiple-coat paint applications. Paint overspray adheres to the outside layer of plastic, preventing flaking into the base coat and resulting in a cleaner overall work space. Offered in four different sizes with a .375 mil thickness, this clear film will allow you to achieve a high quality job in less time and protect from overspray.

### Norton Steel Wool

The perfect all-purpose choice for professional contractors and do-it yourselfers. Made of thin bundled fibers, the soft abrasive can be used for cleaning, smoothing and polishing with grades varying from extra coarse #4 for heavy stripping to super fine #0000 for finishing. Color-coded packaging and grade indicator make it easy to choose the right coarseness for the job at hand, whether it's removing rust, dirt, varnish, or stripping paint from exterior woodwork. This product has been designed get into those hard-to-reach areas and compress to any shape for endless uses.

#### Application/Grit Recommendation Guide

#### Features & Benefits

- Ideal for most household projects, including removing rust, dirt, varnish, or stripping paint from exterior woodwork
- Thin metal fibers bundled together easily compress to any shape so pads can be used in hard-to-reach areas and contoured surfaces
- Available in grades ranging from extra course #4 for heavy stripping to super fine #0000 for finishing and polishing
- Color coded packaging and grade indicator chart make finding the right grit easy

#### Features & Benefits

- Synthetic non-woven hand pads made of a nylon web with abrasive grain and resin bond
- They are designed for applications ranging from heavy-duty cleaning to polishing
- Compatible with both solvent-based and water-based stains and finishes

### Non-Woven Pads and Rolls

Non-woven pads are an ideal replacement for steel wool for heavy-duty cleaning and stripping through finishing to light-duty polishing.

- Flexible - can be cut or folded
- Won't rust, shred or splinter
- Washable and reusable
- Use with/without chemicals

## Micro-Fiber

Micro-Fiber Cloths have edges that collect debris as opposed to pushing it away. The particles are trapped in between the fibers and can be rinsed or machine washed to release heavily embedded particles. Micro-fiber products can be washed up to 300+ times without losing cleaning and trapping abilities, which will save you labor time and additional costs of multiple cleaning products and chemicals.

- Cleaning Cloth (Blue) is used for general wet or dry cleaning applications
- Dry Tack Cloth (Red) has a low profile to resist snagging and pick up embedded debris
- Polishing Cloth (Yellow) is ideal for streak-free cleaning of mirrors and optical lenses

### TECH TIP

Micro-fiber is virtually scratch resistant but may pick up debris that can scratch. Clean micro-fiber products often for best results.

### Multi-Air Cyclonic

Revolutionary Norton Multi-Air Cyclonic hook and loop vacuum discs raise the bar in power sanding with a precision laser-cut, spiral-hole design that provides maximum dust extraction for a cleaner work environment with fewer disc changes and greater productivity.

#### Features & Benefits

- Precision laser-cut, spiral-hole hook and loop vacuum design removes material consistently throughout the life of the disc while maximizing dust extraction for a cleaner work environment
- Specialized multi-hole pattern allows for use on any random orbital sander regardless of hole pattern - including unique Festool® sander models
- Premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer and removes material faster than conventional abrasives and uses a No-Fil coating to resist clogging/loading during sanding
- Unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant

#### Improved Dust Extraction / Increased Productivity

The upgrade to precise, flat, laser-cut holes instead of die-punched holes, dramatically increases surface area contact allowing Multi-Air Cyclonic discs to improve productivity by 32% versus conventional multi-hole sanding and by 60% versus non-vacuum sanding. The end result is more holes for dust extraction, more abrasive coverage for a better cut and no deformation - for full surface contact utilizing all the cutting power of the premium ceramic grain.

## Heavy-Weight Paper Discs

Heavy E- or F-weight paper backing discs for more demanding paper disc applications. Choose between Stick & Sand PSA backing or Hook & Sand hook and loop backing

Available packaged as individual standard or vacuum discs, or as a linked disc roll format which allows for easy application, removal, and dispensing.

Roughing to intermediate sanding	Roughing to intermediate sanding	Roughing to intermediate sanding	Roughing to intermediate sanding	Intermediate to finish sanding	Intermediate to finish sanding

#### Norton SG H920 Ceramic Alumina

- Best choice for more demanding stock removal applications
- Durable and friable Norton seeded gel ceramic alumina abrasive ensures fast, aggressive, yet cool cutting action and maximum life
- Strong F-weight paper, synthetically-coated, provides maximum durability and resistance to edge chipping and shedding
- Closed coat and sharp grain make this a premiere product for soldered and welded areas

#### Norton BlueFire H822 Zirconia Alumina

- Better choice for aggressive metalworking applications
- Patented zirconia alumina abrasive provides 2X-3X life over aluminum oxide products
- Strong F-weight paper, synthetically-coated for excellent durability and chip resistance
- Non-stearated (no anti-loading agents) for non-contaminating

## Heavy-Weight Paper Discs

### Norton BlueFire H875P Zirconia Alumina

- Better choice for soft material applications
- Next-generation, self-sharpening zirconia alumina abrasive provides 2-3 times the life of aluminum oxide discs, longer life versus original zirconia alumina discs, improved cut rate, and minimal heat
- Strong E-weight latex/paper backing resists tearing while staying conformable and flexible
- Open coat contributes to minimized loading

### Norton Drylce A975 Ceramic Alumina

- Best choice for the most demanding sanding applications
- P-graded seeded-gel ceramic alumina abrasive for fastest cut rate and longest life of any paper disc
- Unique fiber reinforced, flexible B or C-weight latex saturated backing delivers 50% - 60% improvement in tear strength while retaining flexibility
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work

Light-Weight Paper Discs *continued*

Norton A275OP Aluminum Oxide

- Better choice for high-performance dry finishing on all materials
- Premium P-graded, heat treated, toughened aluminum oxide abrasive delivers superior life, fast cut rate, consistent finish
- Unique fiber reinforced, flexible B-weight latex saturated backing provides 50% - 60% improvement in tear strength while retaining flexibility
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work
- 5" and 6" individual PSA discs in fine grits have a tabbed, white translucent liner to protect the PSA adhesive from airborne contaminants; the tab allows easier removal of the paper liner

Norton Durite A475  
Silicon Carbide

- Better choice for hard-to-sand surfaces and wood applications
- Sharp and hard, P-graded, silicon carbide abrasive easily penetrates the hardest material and veneers to create finer finishes where finish is critical
- Flexible, B-weight fiber reinforced, latex paper backing provides flexibility and resistance to tearing
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work

Norton Gold A290  
Aluminum Oxide

- Good choice for sanding a broad range of substrates including primed or painted surfaces, wood, composites, aluminum, and ferrous metals
- P-graded premium aluminum oxide abrasive produces a quick, cool cut and a more consistent surface finish
- Strong B-weight latex/paper backing resists tearing while staying conformable and flexible
- Water-based, non-loading (No-Fil) stearate coating minimizes clogging and increases disc life

### PSA Disc Roll Dispenser

- Norton Disc Roll Dispensers feature heavy-duty construction and a rubberized finish to protect your product, as well as the finish on your workpiece
- These versatile dispensers are designed to accommodate any 5" or 6" disc roll or sheet roll
- Can be attached to a wall or stacked for multi-grit or multi-diameter operations
- Discs are individually dispensed and removed from the roll by a cutter bar

PART #	UPC-A	DESCRIPTION	STD. PKG.
<b>PSA Disc Roll Dispenser</b>			
63642542772	636425 <b>42772</b> 8	Single Disc Roll Dispenser	1
63642502981	636425 <b>02981</b> 6	Double Disc Roll Dispenser (shown)	1

### Multi-Air Foam Interface Pads

- Designed for use with fine grit Multi-Air Cyclonic hook and loop sanding discs to improve both surface finish and cut rate
- Use with Multi-Air disc back-up pads
- Align the interface pad with the Multi-Air back-up pad then simply attach the disc to the interface pad because the holes do not have to be lined up

PART #	UPC-A	DESCRIPTION	STD. PKG.
<b>Multi-Air Foam Interface Pads</b>			
63642585864	636425 <b>85864</b> 5	5" Diameter x 1/2" Thick Pad	8
07660719359	076607 <b>19359</b> 9	6" Diameter x 1/2" Thick Pad	12

### Multi-Air Hook and Loop Back-up Pads with Vacuum Holes

- Innovative design optimized for maximum air flow and powerful dust extraction
- Pads are engineered with a durable urethane foam, heat-resistant plastic, a molded-in 5/16"-24 spindle, and hooked face
- Holes in the disc do not have to be matched up with the holes in the pad, so changeover is fast and easy

PART #	UPC-A	DESCRIPTION	MAX. RPM	STD. PKG.
<b>Multi-Air Hook &amp; Loop Back-Up Pads with Vacuum Holes</b>				
66623376000	666233 <b>76000</b> 7	5" (125mm) with 5/16"-24 Shank, Medium-Density Urethane Pad	15,000	5
63642506160	636425 <b>06160</b> 1	6" (150mm) with 5/16"-24 Shank, Medium-Density Urethane Pad	15,000	5

### Low-Profile Pads for Dual Action / Random Orbital Sanders

- Soft density low-profile pads utilize 1/2" thick foam for fine finish sanding and offer moderate conformability
- Medium low-profile pads have 1/2" thick urethane foam for intermediate and finish sanding
- Available with PSA or hook and loop faces; both designs are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for added strength and increased heat resistance
- Available with standard hole patterns for vacuum-assist sanding

PART #	UPC-A	DESCRIPTION	MAX. RPM	STD. PKG.

\* Packed in individual clamshell

### Tapered Pads for Dual Action / Random Orbital Sanders

- Designed with medium density polyurethane foam and a tapered edge for conformability, these pads are firm enough for flat surfaces, yet soft enough for severe curves and contours
- Available with either PSA (vinyl) or hook and loop faces in vacuum or non-vacuum
- The 5" and 6" pads are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for use on random orbital or dual action sanders
- The 8" pads have a 5/8"-11 threaded female hub

PART #	UPC-A	DESCRIPTION	MAX. RPM	STD. PKG.

63642502162	63642502162 9	6" Diameter, 3/4" Thick Interface	20

### Half Moon Hand Pad

- The unique half moon pad uses a standard 5" hook and loop disc folded in half, which adheres to the hooks on the pad face
- The straight edge of the pad allows the operator to sand corners, contours, narrow crevices and minute imperfections without over-sanding

PART #	UPC-A	DESCRIPTION	STD. PKG.
<b>Half Moon Hand Pad</b>			
63642502768	63642502768 3	5" Hook and Loop Hand Pad	10

### Polishing Adapter Pad

- Converts your standard hook and loop pad into a soft polishing pad
- The foam adapter is 3/8" thick and is excellent for fine grits where minimal removal is required
- It is ideal for either flat or contour surfaces

PART #	UPC-A	DESCRIPTION	MAX. RPM	STD. PKG.
<b>Polishing Adapter Pad</b>				
63642503121	63642503121 5	5" Hook and Loop Adapter Pad	3,786	10

### Disc Hand Pads

- Hand pads eliminate finger sanding
- The ultra-thin 3/16" thick pad is composed of a single layer of neoprene foam and is designed for maximum flexibility - producing excellent finishes
- The 1" thick pad is composed of two layers, neoprene and polyester foam, for excellent conformability and softness, resulting in fine finishes
- Each pad has an elastic hand strap to hold it firmly in place
- Available with either PSA (vinyl) faces or hook and loop face

PART #	UPC-A	DESCRIPTION	STD. PKG.
<b>Disc Hand Pads</b>			
63642503111	636425 <b>03111</b> 6	5" x 3/16" Thick Soft Foam PSA	10
63642502842	636425 <b>02842</b> 0	5" x 1" Thick Soft Foam PSA	10
63642503117	636425 <b>03117</b> 8	5" x 1" Thick Soft Foam Hook and Loop	10

### Ergonomic Hand Sanders

- The ergonomic palm sander is uniquely designed to be user-friendly, with finger indentations for the operator
- It quickly converts standard 5" and 6" hook and loop discs into hand sanders for finishing flat surfaces

PART #	UPC-A	DESCRIPTION	STD. PKG.
<b>Ergonomic Hand Sander</b>			
63642503147	636425 <b>03147</b> 5	5" Hook and Loop Hand Sander	5
63642503726	636425 <b>03726</b> 2	6" Hook and Loop Hand Sander	5

### Panel and Adhesive Cleaner

- Removes adhesives, tar, grease, wax, body sealers, undercoating sprays, and silicone from most surfaces
- Aggressive cleaner is safe to use on most paint applications
- Packaged with squirt dispenser
- Use as directed

PART #	UPC-A	DESCRIPTION	STD. PKG.
<b>Panel and Adhesive Cleaner</b>			
07660782780	076607 <b>82780</b> 7	Panel and Adhesive Cleaner	12

## Wide Belts – Cloth

Cloth woodworking wide belts are used for rough stock removal and dimensioning.

Our FastTrack express belt service has an extensive range of sizes and specifications with exceptional leadtimes.

## Racking

Modular designs for mix and match display needs

## Racking

### Short Peg Rack

Part number **07660702270**

- UPC-A number 07660702270 7
- holds 4", 4-1/2", 5" bulk depressed center wheels, cut-off blades or fibre discs
- over tag area for price label
- empty wire displayer
- 6 units/box

### Record Slot Wheel Rack

Part number **07660702269**

- UPC-A number 07660702269 1
- holds 12", 14" or 16" bulk cut-off blades, chop saw blades or diamond blades
- can fit 2 SKUs per rack or 1 SKU, doubled up
- display at base due to product weight
- wire displayer (product not included)
- 2 units/box

### Single Stack Blade Rack

Part number **07660702273**

- UPC-A number 07660702273 8
- holds 6-1/2", 7", 8", 10" bulk cut-off blades
- holds 7" bulk diamond blades
- holds 5", 7", 9" bulk fibre discs
- display on pegboard or shelf
- front plate for pricing and store info
- empty wire displayer
- 2 units/box

### Pocket Wheel Rack

Part number **07660705347**

- UPC-A number 07660705347 3
- holds 12" blades in bottom pocket and 12" or 14" in top pocket
- fits 2 SKUs per rack or 1 SKU, double faced
- design more evenly distributes product weight and provides enhanced visibility of item(s)
- wire displayer (product not included)
- 1 unit/box

### Long Peg Rack

Part number **07660702271**

- UPC-A number 07660702271 4
- holds 7" hubbed depressed center wheels
- holds other mid-size diameter discs requiring better dispersement of product weight
- over tag area for price label
- empty wire displayer
- 2 units/box

### Basket Bench Wheel Rack

Part number **07660702272**

- UPC-A number 07660702272 1
- holds 6" - 8" bench & pedestal wheel boxes
- can also hold 7" job pack circular saw cut-off blade boxes
- front plate for pricing and store info
- wire displayer (product not included)
- 2 units/box

## Racking

### 3-Way 9" x 11" Handy Pack Sheet Rack

Part number **07660702296**

- UPC-A number 07660702296 7
- vertical, space saving 3-pocket rack for 9" x 11" handy packs
- sits on counter/shelf, mounts to an upright beam using washers on back to bolt through or hangs on pegboard
- price tag area per grit
- each pocket fits 15 packs
- 1 unit/box

### Wire Tray For Bulk Portable Belts

Part number **07660702266**

- UPC-A number 07660702266 0 (2 trays/box)
- modular unit for displaying portable belts on pegboard
- set belt boxes on wire tray to hold belts and identify size and grit
- can also be used for other products as a shelf unit
- multiple racks can be positioned vertically and/or side by side for maximum impact

### 9" x 11" Handy Pack Spacesaver Merchandiser

Part number **07660748932**

- UPC-A number 07660748932 6
- space saving 3-pocket rack hangs on pegboard to display 9" x 11" Handy Pack sheets
- can be used horizontal (as shown) or vertical
- each pocket fits 15-20 packs
- 1 unit/box

### Flap Disc Rack

Part number **07660704157**

- UPC-A number 07660704157 9
- holds 4" or 4-1/2" flap discs (handy packs or bulk)
- merchandises 3 ways: hangs on pegboard, mounts to an upright beam, or sits on a shelf/counter
- wire rack comes with header (product not included)
- 2/pack

## Racking

### 9" x 11" Sheet Merchandiser

Part number **07660701113**

- UPC-A number 07660701113 8
- displays 9" x 11" bulk sheets, job packs, and handy packs
- individual, stackable trays from bottom to top for sturdy, free-standing counter display or pegboard/wall mounting without front to back movement
- durable wire gauge to withstand wear; won't bend or sag
- full width, front plate for quick product identification
- 4 trays/box

### Product Identification Strips

Part number **07660703963**

- UPC-A number 07660703963 7
- must order with 9" x 11" Sheet Merchandiser (#01113)
- adhesive backed label for quick attachment
- color coded to match product category, bilingual
- individual grit labels provided to customize at retail
- 1 set/envelope

### Grit Guide Header

Part number **07660701967**

- UPC-A number 07660701967 7
- use with 9" x 11" Sheet Merchandiser (#01113) or any hand sanding set
- 11"w x 12"h header for selecting the right 9" x 11" sheet by application
- color coded to packaging, bilingual
- 1 unit/box

## Off-Shelf Display

Unique solutions for effectively and prominently showcasing products in high-traffic areas.

### MultiSand Bonus Pack Display

Part number **07660702670**

- UPC-A number 07660702670 5
- 75 Fine/Medium Sponges of 02081
- Dimensions -  
(assembled): 42"H x 17"W x 17"D  
(shippable): 21"H x 17"W x 17"D
- Weight - 25 lbs.
- Cube - 3.5 cu. ft.

**NORTON** MESH-POWER™  
SAINT-GOBAIN

# POWERFUL DUST EXTRACTION

FOR A BREATH OF FRESH AIR

Designed for virtually dust-free sanding, Norton MeshPower ceramic discs provide for a cleaner and healthier working environment, a better finish, and a much more comfortable sanding experience.

NORTON MESHPOWER ADVANTAGE

- Mesh backing for optimum dust extraction
- Full ceramic grain for excellent cut rates and superior scratch pattern
- Norton No-Fil technology prevents clogging and creates a consistent cut throughout the product life
- Hook and loop design with no designated hole pattern is quick and easy to align to any backing pad – just apply and go!

# NORTON DO-IT-YOURSELF AND CONTRACTOR MARKET

Flexibility and Conformability in the Palm of Your Hand.

Norton ProSand has every angle covered with various shapes, sizes and grit combinations of sanding sponges. Last longer than sandpaper.

For a Breath of Fresh Air.

With Norton MeshPower sanding discs feature powerful dust extraction for a virtually dust-free sanding; meaning a cleaner and healthier working environment, a better finish and a much more comfortable sanding experience.

It's Time to Clean the Air.

Norton ProSand Multi-Air Cyclonic Discs feature a multi-hole design pattern that maximizes dust extraction for all 5" & 6" random orbital sanders. For all surfaces and coatings.

Fast and Tough for the Most Demanding Jobs.

Norton Diamond Blades are the choice of professionals vs. abrasive blades with faster cut rate, constant depth of cut and less downtime.

Bulk Up Fast with Norton WallSand.

Packaged in bulk, Norton WallSand bulk drywall sanding sheets meet the unique needs of drywall contractors and deliver flawless walls and ceilings with fewer trips to the store to stock up.

Norton Has You Covered.

Norton Painter's Plastic protects virtually any area from sanding dust and paint overspray with ease - even after repositioning. Mono films and linear low-density plastics (LLDPE) don't compare.
