POWER OF ONE

The Power of One

The Oatey Company is the number one source for purchasing the leading brands in the plumbing and waterworks industries. You can purchase any of our brands easily and efficiently – on one invoice, in one shipment, with one phone call. Only Oatey brings you the plumbing industry's best brands in one source. That's why we're the choice for plumbing professionals. **Due to the dynamic nature of our broad product offering, please consult your price file for items stocked and supported in Canada.**

For more information on Oatey or our product offerings, please visit Oatey.ca or contact our customer service group at **800-321-9532**.

TRUSTED

- Comprehensive technical support
- Reputable leadership in the plumbing industry
- Experienced customer service professionals

STRONG

- Central distribution center in Brampton, ON
- Multiple manufacturing locations: Ohio, Nebraska, Minnesota and China
- ISO 9001 Certified
- Twenty-two categories with a broad range of products

EFFICIENT

- EDI - Paperless ordering, invoices and ship notices
- Automatic acknowledgements and confirmations of shipments
- Economical minimum orders for prepaid freight
- Multi-branded Promotional Opportunities

SAFE

- Compliant to hazmat policies
- Sustainable practices
- C-TPAT participant

Oatey® is the leading manufacturer of solvent cements, roof flashings, washing machine outlet boxes, air admittance valves, plumbing chemicals, wax bowl rings, and hundreds of other plumbing specialty products. Found in many residential and commercial applications, Oatey products have earned the trust of both plumbing professionals and consumers since 1916. Oatey Co. operates a comprehensive global manufacturing and distribution network, backed by experienced and responsive technical service professionals.

MASTERS® is Canada's leading brand of pipe thread sealants, copper installation products, and consumable plumbing goods. Founded by G.F. Thompson in 1947, we have been providing quality products under the MASTERS® brand name for over 70 years. Serving the Plumbing, HVAC, Industrial and Retail trades, we offer unparalleled product quality, industry-leading customer service and top-line representation in the field.

Cherne® is the recognized world leader in pipe plug and testing equipment manufacturing. In 1998, Cherne demonstrated its commitment to quality and continuous improvement by achieving ISO 9001 registration. Cherne is the only domestic pipe plug manufacturer to achieve this certification. Serving the plumbing and underground industries for more than 60 years, Cherne is dedicated to providing customers with unparalleled product quality in addition to the highest level of customer service. From plumbing to underground—we have your products in stock.

Hercules® brand plumbing chemicals have been found in plumber's tool collections for nearly 100 years. The company makes more than 100 different products including chemicals, putty, drain cleaners, hand towels and Megaloc® thread sealant and PTFE tapes.

Dearborn Brass® is the leading manufacturer of Brass and Plastic Tubular products for the plumbing industry. Included in our product offering are Commercial Tubular, Bath Waste and Overflow, Basket Strainers and Plumbing Specialties. Dearborn Brass has been successful for more than 100 years because of the commitment of our associates to provide superior quality products at competitive prices. The Dearborn Brass name has grown to become the preferred choice of plumbing professionals, widely recognized by its distinctive checkerboard packaging. Find the checkerboard and you've found assured quality and peace of mind.

Keeney® is a leading manufacturer and distributor of tubular drainage products. Founded in 1923, the Keeney and PlumbPak by Keeney families include coin air valves, under-sink drainage, quarter-turn valves, bath drains, toilet repair parts, Bélanger faucets, and more.

QuickDrain™ products are designed for the Hospitality, Healthcare and Residential Markets. The QuickDrain system can adapt to almost any existing plumbing condition, slashes construction time, saves on cost and minimizes impact on customers.

Harvey™ began in 1944, when Master Plumber William H. Harvey Sr. came up with the idea of a pre-formed wax gasket for setting toilet bowls. Nearly 70 years later, more than 3500 Harvey-brand plumbing specialty products are sold throughout North and South America.

Category 1

Plastic Pipe Cements and Primers

Oatey sells only Lo-VOC solvent cements, which means they are compliant with the South Coast Air Quality Management District (SCAQMD) Rule 1168 and the Ozone Transport Commission (OTC) standards. Plus they meet ASTM, NSF and UPC standards for a wide variety of applications, including potable water, DWV, industrial, pool/spa, turf/irrigation, sewer and many more. With Oatey you get more than just the strongest solvent welded joint – you get the confidence of the top selling brands, backed by years of extensive research and leadership in the plumbing industry. That's why Oatey has been the choice of plumbing professionals for nearly 100 years.

ABS SOLVENT CEMENTS

MASTERS® ABS-PRO Medium ABS Solvent Cement

- Ideal for joining all schedules and classes of ABS pipe and fittings up to 6" in diameter with interference fit.
- Low VOC and meets South Coast Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40, as well as ASTM D2235.
- ABS-PRO is recommended for use on potable water or DWV.

Product No.	Size	Description	UPC	Ctn. Qty.
ABS250-1	237 ml	MASTERS® ABS-PRO Medium Yellow Cement	067001022400	24
ABS500-1	473 ml	MASTERS® ABS-PRO Medium Yellow Cement	067001022417	24
ABS1L-1	946 ml	MASTERS® ABS-PRO Medium Yellow Cement	067001022424	12
ABS4L-1	3.78 L	MASTERS® ABS-PRO Medium Yellow Cement	067001022431	6

MASTERS® ABS-PRO-X Fast-Setting ABS Solvent Cement

- Ideal for joining all schedules and classes of ABS pipe and fittings up to 6" in diameter with interference fit.
- Low VOC and meets South Coast Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40, as well as ASTM D2235.
- ABS-PRO is recommended for use on potable water or DWV.

PVC Heavy Duty Clear Cement

- Heavy Duty Clear cement for use on all schedules and classes PVC pipe and fitting up to 12" diameter with interference fit, up to 18" for non-pressure.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Thick formula fills gaps in large diameter pipe and loose fitting joints.
- Recommended for potable water, pressure pipe, conduit and DWV.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Meets ASTM D2564.

Product No.	Size	Description	UPC	Ctn. Qty.
31476	118 ml	PVC Heavy Duty Clear Cement	038753314761	24
31477	237 ml	PVC Heavy Duty Clear Cement	038753314778	24
31478	473 ml	PVC Heavy Duty Clear Cement	038753314785	24
31479	946 ml	PVC Heavy Duty Clear Cement	038753314792	12
31463	3.78 L	PVC Heavy Duty Clear Cement – Wide Mouth Can	038753310114	6

PVC SOLVENT CEMENTS

Oatey® EP13 Extra Heavy-Duty PVC Cement

- EP13 extra heavy-bodied, slow-setting, gray solvent cement for use on all classes and schedules of PVC pipe up to 30".
- Recommended for potable water, pressure pipe, drain, waste and vent systems.
- Builds up for large diameter installation to fill gaps.
- Ideal for fabrication.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Complies with various environmental requirements and SCAQMD Rule 1168/316A or BAAQMD Method 40 for VOC.
- Formulated for warm weather application.
- Three year shelf life.
- Meets and exceeds ASTM D2564.

Product No.	Size	Description	UPC	Ctn. Qty.
31779	946 ml	EP13 Extra Heavy Duty Gray PVC Cement	083675018365	12
31780	3.78 L	EP13 Extra Heavy Duty Gray PVC Cement	083675018242	6

Oatey® PVC Heavy Duty Gray Cement

- Heavy Duty Gray cement for use on all schedules and classes PVC pipe and fitting up to 12" diameter with interference fit, up to 18" for non-pressure.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Thick formula fills gaps in large diameter pipe and loose fitting joints.
- Recommended for potable water, pressure pipe, conduit and DWV.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Meets ASTM D2564.

SPECIALTY PVC SOLVENT CEMENTS

Oatey® PVC Blue Lava Hot Cement

- Medium-bodied blue cement for use on all schedules and classes of PVC pipe and fittings up to 6" diameter with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Very fast-setting "Hot" cement formulated for wet conditions and/or quick pressurization and fast installation.
- Recommended for potable water, sewer and DWV applications.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- No primer needed on non-pressure DWV, where local codes permit.
- Meets ASTM D2564.

Product No.	Size	Description	UPC	Ctn. Qty.
31788	473 ml	PVC Blue Lava Hot Cement	038753317885	24

Pool-Tite™ 2300 Series Medium Blue "Hot" PVC Cement

- Medium-bodied blue coloured cement for use on all schedules and classes of flexible and rigid PVC pipe and fittings up to 6" with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- No primer needed on non-pressure DWV, where local codes permit.
- Very fast setting cement formulated for wet conditions and/or quick pressurization and fast installation.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Recommended for potable water, pressure pipe and DWV.
- Meets ASTM D2564.

SPECIALTY PVC SOLVENT CEMENTS

Oatey® PVC All Weather Clear Cement

- Medium-Bodied Clear cement for use on all schedules and classes of PVC pipe and fittings up to 6" diameter with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Recommended application temperature -15°F to 110°F / -26°C to 43°C.
- Recommended for potable water, drain, waste and vent systems.
- No primer needed on non-pressure DWV, up through 4" diameter where local codes permit.
- Meets ASTM D2564.

Product No.	Size	Description	UPC	Ctn. Qty.
31473	473 ml	PVC All Weather Clear Cement	038753314730	24
31474	946 ml	PVC All Weather Clear Cement	038753314747	12
31469	3.78 L	PVC All Weather Clear – Wide Mouth Can	038753311357	6

Oatey® PVC Flexible Clear Cement

- Medium-Bodied Clear cement for use on flexible PVC pipe and rigid fittings up to 6" diameter with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Formulated to withstand pressures and vibrations commonly associated with spa and swimming pool installations.
- Meets manufacturer's rated line pressure for flexible PVC pipe.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Meets ASTM D2564.

CPVC SOLVENT CEMENTS

MASTERS® CPVC-PRO Medium Bodied Clear CPVC Solvent Cement

- Ideal for joining CPVC pipe and fittings up to 6" in diameter with interference fit.
- Low VOC and meets South Coast Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 requirements, as well as ASTM F493.
- Recommended for use on potable water, pressure pipe, conduit or DWV.

Product No.	Size	Description	UPC	Ctn. Qty.
CPVC500-C	473 ml	MASTERS® CPVC-PRO Clear Solvent Cement	067001022578	24

Oatey® All Weather CPVC FlowGuard Gold®* 1-Step Yellow Cement

- For copper tube size (CTS) CPVC hot and cold potable water pipe and fittings up to 2" diameter interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- For cold water systems and hot water systems up to 200°F / 93°C.
- May be used without primer where local coders permit.
- Recommended application temperature 0°F to 110°F / -18°C to 43°C.
- Meets ASTM F493.

Product No.	Size	Description	UPC	Ctn. Qty.
31448	237 ml	CPVC Flowguard Gold® 1-Step Yellow	038753314488	24
31547	473 ml	CPVC Flowguard Gold® 1-Step Yellow	038753315478	24

CPVC SOLVENT CEMENTS

Oatey® CPVC Heavy Duty Orange Solvent Cement

- Heavy-bodied orange cement for use on all schedules and classes of CPVC pipe and fittings up to 12" diameter with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- For Commercial hot and cold water systems up to 200°F / 93°C.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Approved for Corzan® CPVC Piping Systems.
- Meets ASTM F493 and ASTM D2846.

*Corzan is a registered trademark of The Lubrizol Corporation.

Product No.	Size	Description	UPC	Ctn. Qty.
31776	473 ml	CPVC Heavy Duty Orange	038753317762	24
31777	946 ml	CPVC Heavy Duty Orange	038753317779	12

Oatey® CPVC Medium Clear Cement

- Medium-bodied clear coloured cement for use on CPVC pipe and fittings. Up to 6" diameter.
- Lo-V.O.C. Solvent Cement meets SCAQMD 1168 / 316A or BAAQMD Method 40 and various environmental requirements.
- Recommended application temperature 40°F to 110°F / 4°C to 38°C.
- Meets ASTM F493.
- For C.T.S. (copper tube size) and Sch. 80, potable water pressure pipe.

Product No.	Size	Description	UPC	Ctn. Qty.
31515	118 ml	CPVC Medium Clear Cement	038753315157	24
31516	237 ml	CPVC Medium Clear Cement	038753315164	24
31517	473 ml	CPVC Medium Clear Cement	038753315171	24

Oatey® CPVC Heavy Duty Gray Cement

- Heavy-bodied gray cement for use on all schedules and classes of CPVC pipe and fittings up to 12" diameter with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- For Commercial hot and cold water systems up to 200°F / 93°C.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Approved for Corzan® CPVC Piping Systems.
- Meets ASTM F493 and ASTM D2846.

*Corzan is a registered trademark of The Lubrizol Corporation.

31775	473 ml	CPVC Heavy Duty Gray	038753317755	24
31466	946 ml	CPVC Heavy Duty Gray	038753314662	12

Oatey® EP42 CPVC HD Gray Industrial Cement

- Heavy-bodied industrial gray solvent cement specifically designed for use on PVC and CPVC piping systems requiring chemical resistance to caustics including hypochlorite, mineral acids and aqueous salt solutions.
- For Schedules 40 and 80 CPVC and PVC up to 12" diameter, as well as other classes and schedules with interference fit.
- Resistant to caustics and hypochlorites up to 15 percent solution. Refer to EP 42 Chemical Resistance Chart for compatibility prior to using with chemical solutions.
- For use with all CPVC materials including Corzan® Industrial Piping Systems.
- Ultra violet indicator allows for quick and easy inspection of dry fit joints with any UV light source.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Complies with various environmental requirements and SCAQMD Rule 1168/316A or BAAQMD Method 40 for VOC.
- Two year shelf life.
- Meets and exceeds ASTM F493.

Product No.	Size	Description	UPC	Ctn. Qty.
31781	473 ml	EP42 CPVC HD Gray Industrial Cement	038753317816	24

SPECIALTY SOLVENT CEMENTS

MASTERS® TRANSITION-PRO PVC to ABS White Transition Cement

- Ideal for joining PVC to ABS in non-pressure transition joints up to 6" in diameter.
- Low VOC and meets South Coast Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 requirements, as well as ASTM D-3138.

Product No.	Size	Description	UPC	Ctn. Qty.
TR500-W	473 ml	MASTERS® Transition-Pro PVC to ABS White Cement	067001022486	24

Oatey® ABS To PVC Transition White Cement

- Medium-Bodied white coloured cement for use in joining ABS to PVC in non-pressure transition joints up to 6" diameter.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Meets ASTM D3138.

Product No.	Size	Description	UPC	Ctn. Qty.
31532	118 ml	ABS To PVC Transition White Cement	038753315324	24
31531	237 ml	ABS To PVC Transition White Cement	038753315317	24
31530	473 ml	ABS To PVC Transition White Cement	038753315300	24

Oatey® All Purpose Cement

- Medium-bodied milky-clear cement for use on all schedules and classes of ABS, PVC and CPVC pipe and fittings up to 6" diameter with interference fit.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Recommended for potable water, pressure pipe, conduit and DWV.
- Recommended application temperature 40°F to 110°F / 4°C to 43°C.
- Meets performance requirements of ASTM D2564, D-2235, F-493.
- Always check local codes for acceptability of this product.

Product No.	Size	Description	UPC	Ctn. Qty.
31575	118 ml	All Purpose Cement	038753315751	24
31576	237 ml	All Purpose Cement	038753315768	24
31577	473 ml	All Purpose Cement	038753315775	24
31578	946 ml	All Purpose Cement	038753315782	12

MASTERS® PRIMER-PRO Purple Primer – NSF Listed

- Aggressive purple primer for use on PVC and CPVC pipe and fittings.
- Low VOC and meets South Coast Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40, as well as ASTM F656.
- Removes surface dirt, grease and grime as well as softens the pipe and fitting to allow a fast, secure solvent weld.
- For use in areas where plumbing code calls for verification that a primer has been used.
- NSF and IAPMO Listed.

Product No.	Size	Description	UPC	Ctn. Qty.
PR250-P	237 ml	MASTERS® Primer-Pro Purple Primer	067001022530	24

PR4L-C	3.78 L	MASTERS® Primer-Pro Clear Primer	067001022523	6

Oatey® Industrial Grade Purple Primer – NSF Listed

- Very Aggressive Purple-tinted primer for use on CPVC pipe and fittings.
- Lo-V.O.C. Solvent Cement meets California South Coast Air Quality Management District (SCAQMD) 1168/316A or BAAQMD Method 40 and various environmental requirements.
- Recommended for Commercial and Large diameter thermoplastic piping systems, specifically CPVC Sch. 40 / 80.
- Ideal for use in cold weather applications.
- Removes surface dirt, grease and grime as well as softens the pipe surface to allow a fast, secure solvent weld.
- For use in areas where plumbing code calls for verification that a primer has been used.
- NSF and IAPMO Listed.
- Meets ASTM F656.

Product No.	Size	Description	UPC	Ctn. Qty.
31764	473 ml	Purple Primer – Industrial Grade	038753317649	24

Oatey® Purple Primer/Cleaner

- Purple-tinted all purpose primer/cleaner for PVC and CPVC pipe and fittings.
- Meets California South Coast Air Quality Management District (SCAQMD) 1171/M24 or BAAQMD Method 40 and various environmental requirements.
- Less aggressive than clear primer and purple primer.
- Removes surface dirt, grease and grime for preparation before solvent cementing.
- Always check local codes for acceptability of this product.

Product No.	Size	Description	UPC	Ctn. Qty.
31585	118 ml	Purple Primer/Cleaner	038753315850	24
31586	237 ml	Purple Primer/Cleaner	038753315867	24

MASTERS® Brush-In-Can

- Reusable HDPE container with brush

Product No.	Size	Description	UPC	Ctn. Qty.
BIC500	500 mL	Empty 500 mL can with brush	067001022585	12
BIC1L	1 L	Empty 1L can with brush	067001022592	12

Oatey® Adjustable Daubers

- For applying solvent cement and primers.
- Fits can sizes 236 ml to 946 ml.
- Specially constructed easy open, easy close sealing controls evaporation of solvents and prevents spillage.
- Dauber is unbreakable.
- Designed to adjust to various can dimensions and allows application of the proper amount of cement to ensure a good solvent weld.

Product No.	Size	Description	UPC	Ctn. Qty.
31300	1/2"	Adjustable Plastic Dauber w/ 1/2" Ball	038753313009	100
31301	1"	Adjustable Plastic Dauber w/ 1" Ball	038753313016	100
31302	1"	Adjustable Plastic Dauber w/ 1" Ball	038753313023	50

Oatey® Cement Carrier

- Designed to make it easier to keep cement and cleaner ready for use on the job.
- Caddy holds two 946 ml cans.
- Patented.

Product No.	Size	Description	UPC	Ctn. Qty.

HOW TO SOLVENT WELD

Solvent Cements for any Application

If you need to solvent weld one pipe joint or one thousand, Oatey® is the solvent cement more professionals choose than any other brand. From hot to cold, wet to dry, Oatey has the solvent cement to meet your exact requirement for any plastic pipe installation.

Solvent Cement Cure Times

The cure time of solvent cements is dependent on several factors. The pipe size, socket fit, ambient temperature, relative humidity, solvent cements and the system operating pressure should all be considered when determining cure times.

Oatey continues to work hard to provide you peace of mind and confidence when using Oatey brand solvent cements and products.

Cure chart see page 18

Pipe Types

CPVC: Chlorinated Polyvinyl Chloride – Typically used for pressure piping applications, including hot and cold potable water distribution. Can also be used for corrosive fluid handling in industrial or chemical applications.

ABS: Acrylonitrile Butadiene Styrene – Typically used for non-pressure piping applications.

PVC: Polyvinyl Chloride – Typically used for pressure or non-pressure piping applications.

How To Solvent Weld

PRIOR TO USE: Read all product labels carefully.

Stir or shake cement before using. If jelly-like, do not use. Keep container closed when not in use. Avoid eye and skin contact. Wear safety glasses with side shields and wear rubber gloves.

1. Square pipe ends, chamfer and remove all dirt.
2. Check dry fit of pipe and fitting. Pipe should easily go 1/3 of the way into the fitting. If pipe bottoms, it should be snug.
3. Use a suitable applicator at least 1/2 the size of the pipe diameter. For larger size pipe systems use a natural bristle brush or roller.
4. Clean pipe and fitting with a listed primer. (Do not use primer on ABS pipe and fittings. Use Clear Cleaner only!)
5. Apply liberal coat of cement to pipe to the depth of the socket, leave no uncoated surface.
6. Apply a thin coat of cement to inside of fitting, avoid puddling of cement. Puddling can cause weakening and premature failure of pipe or fitting. Apply a second coat of cement to the pipe.
7. Assemble parts QUICKLY. Cement must be fluid. If cement surface has dried, recoat both parts.
8. Push pipe FULLY into fitting using a 1/4 turning motion until pipe bottoms.
9. Hold pipe and fitting together for 30 seconds to prevent pipe push-out – longer at low temperatures. Wipe off excess.
10. Allow 15 minutes for good handling strength and 2 hours cure time at temperatures above 60°F (15.5°C) before pressure testing up to 180 psi. Longer cure times may be required at temperatures below 60°F (15.5°C) or with pipe above 3". **Testing a plumbing system with air, regardless of the type of solvent cement used, is dangerous and not recommended.** For specialty cements and chemical applications, please see specific product label instructions.

SET UP/CURING TIMES

The set up/cure time is dependent on several factors. The pipe size, socket fit, ambient temperature, relative humidity, solvent cement used and the system operating pressure should all be considered when determining set up/cure times.

Pipe Diameter	Temperature during assembly and cure period			
	60°-100°F 16°-38°C	40°-60°F 4°-16°C	20°-40°F -7°-4°C	0°-20°F -18°-7°C
1/2" to 1-1/4" 13 to 32mm	2 min	5 min	8 min	10 min
1-1/2" to 3" 40 to 80mm	5 min	10 min	12 min	15 min
4" to 5" 100 to 125mm	15 min	30 min	60 min	2 hrs
6" to 8" 150 to 200mm	30 min	90 min	3 hrs	6 hrs

Average Handling/Set Up Times for PVC/CPVC Solvent Cements

Handling/Set Up Time is the time required prior to handling the joint. In damp or humid weather, allow 50% additional time.

These figures should only be used as a general guide. Conditions in the field may vary.

Contact Oatey Technical Services for set up times for pipe larger than 8" diameter.

Pipe Diameter	1/2"	3/4"	1"	1-1/4"	1-1/2"	2"	3"	4"	6"	8"
Number Of Joints	325	250	150	125	90	70	50	30	10	8

Average Number of Joints Per Quart of Solvent Cement

These figures are estimates based on laboratory testing. Conditions in the field may vary.

Pipe Diameter	Temperature during assembly and cure period	Temperature during assembly and cure period			
		60°-100°F 16°-38°C	40°-60°F 4°-16°C	20°-40°F -7°-4°C	0°-20°F -18°-7°C
1/2" to 1-1/4" 13 to 32mm	Up to 180 psi	15 min	20 min	30 min	Please contact Oatey Technical Services for cure time information
	180 psi +	4 hrs	8 hrs	36 hrs	
1-1/2" to 3" 40 to 80mm	Up to 180 psi	30 min	45 min	60 min	
	180 psi +	8 hrs	16 hrs	72 hrs	
4" to 5" 100 to 125mm	Up to 180 psi	2 hrs	4 hrs	36 hrs	
	180 psi +	12 hrs	24 hrs	4 days	
6" to 8" 150 to 200mm	Up to 180 psi	8 hrs	16 hrs	3 days	
	180 psi +	24 hrs	48 hrs	9 days	

Average Joint Cure Times for PVC/CPVC Solvent Cements

Joint cure time is the time required before pressure testing the system. In damp or humid weather allow 50% additional cure time.

Contact Oatey Technical Services for cure times for pipe larger than 8" diameter.

This data is applicable only for new piping installations and not recommended for repair or cut-ins on hot and cold water distribution systems. Please contact Oatey Technical Service for recommendations on Cure Times for such applications.

DO NOT test PVC and CPVC piping systems with compressed air or gas.

Notes: Cure schedule is the time required before pressure testing the system

- This chart can be used as a guideline to determine joint cure
- Cure times stated are for conditions with relative humidity of 60% or less
- + In damp or humid weather allow 50% additional cure time

Pipe Diameter	Temperature during assembly and cure period	Temperature during assembly and cure period			
		60°-100°F 16°-38°C	40°-60°F 4°-16°C	20°-40°F -7°-4°C	0°-20°F -18°-7°C
1/2" to 1-1/4" 13 to 32mm	Up to 180 psi	1 hr	2 hrs	Please contact Oatey Technical Services for cure time information	
	180 psi +	6 hrs	12 hrs		
1-1/2" to 3" 40 to 80mm	Up to 180 psi	2 hrs	4 hrs		
	180 psi +	12 hrs	24 hrs		
4" to 5" 100 to 125mm	Up to 180 psi	6 hrs	12 hrs		
	180 psi +	18 hrs	36 hrs		
6" to 8" 150 to 200mm	Up to 180 psi	8 hrs	16 hrs		
	180 psi +	24 hrs	48 hrs		

Category 2

Thread Sealants and Leak Detectors

When it comes to Thread Sealants, nobody does it better than Masters®, Oatey® and Hercules®. Together we have formulated and manufactured thread sealants for more than 150 years. We continuously respond to professional plumbers' changing needs with new technology, new ideas, and new products. From low-pressure to high-pressure piping demands, from plastics to metals, as well as the market's need for PTFE – we lead the industry with Thread Sealants and Pipe Joint Compounds that provide solutions.

THREAD SEALANTS AND LEAK DETECTORS

MASTERS® Pro-Dope Pipe Thread Sealant

- PTFE pipe thread sealant
- Effectively seals both metal and plastic threaded connections against leaks of most liquids and gases* up to 10,000 psi
- Will not dry out, stain, harden or separate
- Lubricates during assembly and disassembles easily even after years of service
- ULC Listed for Natural Gas (CAN/ULC - S642) and NSF/ANSI 61G/372 listed for potable water
- MAS Green Certified
- Low VOC
- CFIA Letter of No Objection Available

Product No.	Size	Description	UPC	Ctn. Qty.
PD250BT	250 ml	Pro-Dope Pipe Thread Sealant Brush Top Can	067001000071	25

MASTERS® Pro-Blue Pipe Thread Sealant

- PTFE pipe thread sealant
- Effectively seals both metal and plastic threaded connections against leaks of most liquids and gases* up to 10,000 psi
- Will not dry out, stain, harden or separate
- Lubricates during assembly and disassembles easily even after years of service
- ULC Listed for Natural Gas (CAN/ULC - S642) and NSF/ANSI 61G/372 listed for potable water
- MAS Green certified
- Low VOC

NM20L	20 L	MASTERS Non-Metallic Pipe Thread Sealant Pail	067001000392	1

MASTERS® Non-Metallic Pipe Thread Sealant

- General purpose pipe thread sealant
- Effectively seals both metal and plastic threaded connections against leaks of most liquids and gases* at commonly used temperatures and pressures
- All weather, non-corrosive product contains no metal so it is not a conductor of electricity
- Lubricates during assembly, will not harden or separate and disassembles easily even after years of service
- ULC Listed for Natural Gas (CAN/ULC - S642)
- Low VOC
- CFIA Letter of No Objection available

Product No.	Size	Description	UPC	Ctn. Qty.

MASTERS® Metallic Pipe Thread Sealant

- Heavy-duty pipe thread sealant
- Effectively seals both metal and plastic threaded connections against leaks of most liquids and gases* up to 6,000 psi
- Will not dry out, harden or separate
- Lubricates during assembly and disassembles easily even after years of service
- ULC Listed for Natural Gas (CAN/ULC-S642)
- Low VOC

THREAD SEALANTS AND LEAK DETECTORS

Hercules™ Megaloc®

- Made with DuPont™ Kevlar®.
- Wipes easily from hands and tools with dry rag; grit-free.
- No odor - Soft setting - Non Flammable.
- High performing thread sealant for use on metal or plastic pipe - including ABS.
- Safe for potable water lines, approved for use with natural gas and LP gases.
- Withstands hydraulic pressure to 12,000 psi and gas pressure to 2600 psi at temperatures from -50° to +400°F (-46 to 204°C) (on steel pipe).

Product No.	Size	Description	UPC	Ctn. Qty.
15820	29 ml	Megaloc Thread Sealant – Squeeze Tube	032628158207	24

Oatey® Great White™ Pipe Joint Compound with PTFE

- Lubricates and seals all threaded joints
- White, non-hardening, non-separating, non-toxic paste
- Withstands up to 3,000 psi on gases from -50° to +400°F (-46 to 204°C), and 10,000 psi on liquids from -50° to +500°F (-46 to 260°C).
- For use with water, steam, caustics or dilute acid lines of PVC, CPVC, ABS, cyclocac, polypropylene, iron, steel, or copper
- Can be used on plastic or metal threads

Product No.	Size	Description	UPC	Ctn. Qty.
48007	29 ml	Great White Pipe Joint Compound w/PTFE	038753480077	12

MASTERS® A-PLUS Anaerobic Pipe Thread Sealant

- General purpose anaerobic pipe thread sealant for sealing metal threads
- Superior sealing and locking properties especially effective where vibrations are prevalent, making it suitable for production lines
- Lubricates during assembly and hardens in threads, with excellent performance on stainless steel
- Seals moderate pressure almost instantly and up to 250 psi steam pressure in approximately 24 hours
- ULC Listed for Natural Gas (CAN/ULC-S642)
- CFIA letter of No Objection available
- Low VOC

Product No.	Size	Description	UPC	Ctn. Qty.

THREAD SEALANTS AND LEAK DETECTORS

MASTERS® Orange T-Tape

- Non-corrosive, non-flammable, clean, easy to use premium quality thread sealing tape
- Because it is chemically inert, it seals all metal and plastic threaded connections against leakage of virtually everything at temperatures between -400°F & +600°F (-240°C & +316°C)
- Allows for easy disassembly of joints, even after years of service
- Meets MIL SPEC A-A-58092 (superseding T-27730A)
- For use on potable water systems
- ULC Listed for Natural Gas (CAN/ULC-S642)

Product No.	Size	Description	UPC	Ctn. Qty.
ULC260	0.50" x 260"	MASTERS T-Tape Orange ULC Listed Roll	067001000828	12

THREAD SEALANTS AND LEAK DETECTORS

Hercules™ Megatape

- Use on any threaded pipe carrying dilute acids, compressed air, aliphatic solvents, dilute caustics, cutting oils, diesel fuel oil, hydraulic fluids, L.P. Gas, natural gas, petroleum solvents, steam, vegetable oils, water and more.
- High density gray tape, 3.5 mils thick.
- Recommended by professionals.
- Safe for use on stainless steel, cast iron, brass and chrome.
- ULC Listed for Natural Gas (CAN/ULC-S642)

Product No.	Size	Description	UPC	Ctn. Qty.
15050D	1/2" x 260"	Megatape – Gray PTFE Tape, display box	032628151901	120

Oatey® Pink Water Line Thread Seal Tape With PTFE

- Provides fast positive seal for water lines, sewage lines and sprinkler systems.
- Effective on metal or plastic threads.
- High density, multi-purpose pink tape.
- Packaged on spools in a display carton.
- ULC Listed

Product No.	Size	Description	UPC	Ctn. Qty.
31402D	1/2" x 260"	PTFE Pink Thread Seal Tape – Display Box	038753314020	50

MASTERS® White Tape

- Non-corrosive, non-flammable, clean, easy to use thread sealing tape
- Because it is chemically inert, it seals all metal and plastic threaded connections against leakage of virtually everything at temperatures between -400°F & +600°F (-240°C & +316°C)
- Allows for easy disassembly of joints, even after years of service

THREAD SEALANTS AND LEAK DETECTORS

MASTERS® Leak Detector

- Bubble type non-freezing (to -35°F/-37°C) liquid quickly locates pin hole leaks even at low pressures
- Will detect leaks of various gases in appliances, air & gas lines, cylinders, pipe & fittings, pressure vessels, tanks, tubing and valves
- Not for use on oxygen systems
- Available in clear or pink liquid
- Non-corrosive

Category 3

Copper Installation

The best soldered joints come from the best cleaning and fluxing tools, as well as a careful and professional technique. Our solder, flux and cleaning tools are designed for the professional who takes pride in knowing just how to do the job right and chooses the highest quality products.

CLEANING TOOLS

Application:

1. Assemble all material you will need.
2. Cut the copper pipe squarely using a tubing cutter or hacksaw.
3. Ream the pipe ends.
4. Clean copper fitting with manual or power fitting brush or sand grit cloth.
 - 4.a) Avoid touching cleaned surface or leaving it exposed to air for a prolonged period of time.
5. Clean copper pipe/tubing with sand or grit cloth.
 - 5.a) Avoid touching cleaned surface or leaving it exposed to air for a prolonged period of time.
6. Apply tinning or paste flux to the inside of the copper fitting and outside of the copper pipe.
7. Assemble the joint.
8. Heat the joint evenly, tapping wire solder against joint to check if it's hot enough to melt the solder. This indicates proper temperature has been reached.
9. Build up joint around perimeter of pipe/fitting. Remove heat and solder wire once a bead has formed around the fitting.
10. Allow the solder to cool before wiping away excess with a damp cloth.
 - 10.a) It is a known practice to apply the flux to the last joint to help remove scorching marks. Be sure to wipe thoroughly afterwards to prevent future corrosion.

PLUMBING WIRE SOLDER

Oatey® 95/5 Lead Free Plumbing Wire Solder

- Lead Free Alloy of 95% Tin and 5% Antimony.
- 232°C - 240°C melting range.
- Meets the requirements of the U.S. Safe Drinking Water Act.
- Most commonly used where frequent and extreme temperature changes and vibrations occur.

Product No.	Size	Description	Gauge	UPC	Ctn. Qty.
22004	1/2 lb / 226 g	95/5 Wire Solder - Bulk	.117"	038753220048	10
22017	1 lb / 453 g	95/5 Wire Solder - Bulk	.117"	038753220178	25

Oatey® Safe Flo® Lead Free Plumbing Wire Solder

- Copper, bismuth, tin and silver alloy.
- 215°C - 237°C melting range.
- Meets ASTM Standard B-32 and the requirements of the Safe Water Drinking Act.
- Formulated for plumbing/potable water line applications.

Product No.	Size	Description	Gauge	UPC	Ctn. Qty.
23000	1/2 lb / 226 g	Silver Lead Free Wire Solder	.117"	038753230009	10
23001	1 lb / 453 g	Silver Lead Free Wire Solder	.117"	038753230016	25
23002	5 lb / 2.267 kg	Silver Lead Free Wire Solder	.117"	038753230023	10

Oatey® 97/3 Lead Free Plumbing Wire Solder

- Lead free alloy of 97% tin and 3% copper.
- 440°F - 572°F melting range.
- Meets the requirements of the Safe Drinking Water Act.
- Formulated for plumbing/potable water line applications.

Product No.	Size	Description	Gauge	UPC	Ctn. Qty.
20973	1 lb / 453 g	Copper/Tin Wire Solder	.117"	038753209739	25

SPECIALTY WIRE SOLDER

Oatey® Wire Solder

- 50/50 Alloy of 50% Tin and 50% Lead.
- 182°C - 216°C melting range for 50/50 Alloy.
- Commonly used for tin plating, seaming joints, copper DWV systems and sheet metal repair.
- Contains lead. Not for use on drinking water lines.

Product No.	Size	Description	Gauge	UPC	Ctn. Qty.
20019	1 lb / 453 g	50/50 Wire Solder - Bulk	.125"	038753200194	50
50192	1/2 lb / 226 g	50/50 Wire Solder - Bulk	.125"	038753501925	10

Oatey® Acid Core Wire Solder

- 40/60 Alloy of 40% Tin and 60% Lead.
- 50/50 Alloy of 50% Tin and 50% Lead.
- 182°C - 216°C melting range for 50/50 Alloy.
- 182°C - 237°C melting range for 40/60 Alloy.
- General purpose solder for repairing galvanized gutters, filling metal seams and other general repairs.
- Contains lead. Not for use on drinking water lines.

Product No.	Size	Description	Gauge	UPC	Ctn. Qty.
21115	1 lb / 453 g	40/60 Acid Core Wire Solder - Bulk	.125"	038753211152	10
50193	1/2 lb / 226 g	40/60 Acid Core Wire Solder - Bulk	.081"	038753501932	10

SPECIALTY WIRE SOLDER

Oatey® Rosin Core Wire Solder

- 40/60 Alloy of 40% Tin and 60% Lead.
- 182°C - 237°C melting range for 40/60 Alloy.
- Can be used for electrical applications including wiring and other fine electronic work.
- Contains lead. Not for use on drinking water lines.

Product No.	Size	Description	Gauge	UPC	Ctn. Qty.
21212	1 lb / 453 g	40/60 Rosin Core - Bulk	.125"	038753212128	10

Oatey® Bar Solder

- 50/50 Alloy of 50% Tin and 50% Lead.
- 182°C - 237°C melting range.
- Contains lead. Not for use on drinking water lines.
- For use with copper drain piping, tin plating, seaming joints and sheet metal.

Product No.	Size	Description	UPC	Ctn. Qty.
20307	1-1/4 lb / 566 g	50% Tin / 50% Lead Bar	038753203072	50
21305	1-1/4 lb / 566 g	50% Tin / 50% Lead Bar	038753213057	10

FLUX

MASTERS® All Condition Soldering Paste

- Petrolatum based paste for typical sweat soldering with excellent wetting properties that allow for smooth flow and reduced voiding
- Paste is lead-free and NSF61G listed for use on potable water systems
- Works well on frozen, cold and wet pipe

Product No.	Size	Description	UPC	Ctn. Qty.
SP057	57 g	MASTERS Soldering Paste, Jar	067001000088	12
SP227	227 g	MASTERS Soldering Paste, Brush Top Jar	067001006211	24
SP454	454 g	MASTERS Soldering Paste, Tub	067001000118	12
SP20L	20 L	MASTERS Soldering Paste, Pail	067001000156	1
SP450	450 lbs	MASTERS Soldering Paste, Drum	067001022271	1

MASTERS® Tinning Flux

- Specially formulated for use on lead-free valves and fittings
- Petrolatum based paste for typical sweat soldering with excellent wetting properties that allow for smooth flow and lead-free tin powder to draw solder in for reduced voiding
- Paste is lead-free and NSF61G listed for use on potable water systems
- Works well on frozen, cold and wet pipe

Product No.	Size	Description	UPC	Ctn. Qty.
TF227	227 g	MASTERS Tinning Flux, Brush Top Jar	067001000103	24
TF454	454 g	MASTERS Tinning Flux, Tub	067001006202	12

FLUX

Oatey H-20^{®5} Water Soluble Paste Flux

- Effective on most metals, excluding aluminum and stainless steel
- Compatible with all common plumbing solder alloys
- Helps prevent copper pipe corrosion related to flux contamination
- Good for large diameter copper piping
- 100% lead-free paste cleans and fluxes copper piping to provide uniform solder flow
- Meets ASTM Standard B-813
- NSF Standard 14 (Performance) and Standard 61 (Health Effects) certified
- Safe for use in potable water applications

Product No.	Size	Description	UPC	Ctn. Qty.
48362	454 g	H-20 ^{®5} Water Soluble Paste Flux	038753483627	12

CLEANING TOOLS

Oatey[®] Acid Brushes

- Perfect brush for applying liquid or paste fluxes.
- Approximately 3" long, 1/2" wide.

Product No.	Size	Description	UPC	Ctn. Qty.
30710	1/2"	Acid Brush – Carded	038753307107	12
30712	1/2"	Acid Brush – with Barcode	038753307121	144

MASTERS[®] Heavy Duty Fitting Brushes

- High quality, heavy-duty brush for cleaning copper fittings
- Heavy gauge galvanized double-wound stem wire with double-spiral construction
- High carbon level fill wire

Product No.	Size	Description	UPC	Ctn. Qty.
FB50HD	0.50"	MASTERS Heavy Duty Fitting Brush	067001000644	10
FB75HD	0.75"	MASTERS Heavy Duty Fitting Brush	067001000651	10
FB100HD	1.00"	MASTERS Heavy Duty Fitting Brush	067001000668	10
FB125HD	1.25"	MASTERS Heavy Duty Fitting Brush	067001000736	1

B6001	0.5" to 2.5"	MASTERS Pipe Plug (Plumbers Bread) Complete Kit	067001003027	1

Category 4

Putty, Caulks and Water Barriers

Whether installing a faucet or strainer, resetting tile, sealing roof flashing, or repairing a pipe, professional plumbers can't afford a leak. They demand a watertight seal and they know that MASTERS®, Oatey® and Hercules® products are formulated to do the job right every time. Oatey caulks and putties are trusted and synonymous with high quality and top performance.

PUTTY, CAULKS AND WATER BARRIERS

MASTERS® Silicone Sealant

- Rated for interior and exterior use from -50°F to +450°F (-45°C to +232°C)
- Creates a mildew resistant and watertight seal when fully cured
- Ideal for tub/shower surrounds, sinks, siding, window frames, tiling and countertops
- Comes with a re-sealable cap to keep product from drying out
- NSF-51 listed for food preparation surfaces

Product No.	Size	Description	UPC	Ctn. Qty.
SS300-C	300 ml	MASTERS Silicone Sealant Cartridge CLEAR	067001003119	12
SS300-T	300 ml	MASTERS Silicone Sealant Cartridge TRANSLUCENT	067001003133	12

Drain and Waste System Cleaners

When plumbing professionals need to use drain and waste system cleaners, they turn to Hercules for the best quality and highest performing products available. Two trusted brands, Hercules® and Cherne®, offer a variety of solutions for the toughest of drain cleaning challenges. These include emergency drain openers, drain system maintenance including unique clog-specific formulations, septic system care and repair, root controls, and unique grease management products.

The Right Drainage Product for the Right Job!

Identifying your drainage trouble is the first step towards correcting it.

Once you have selected the right drain opener to unclog your system, the next step is to decide on a preventative maintenance product to assure that blockages do not occur again.

Use these charts to select the correct products for your system.

Heating Chemicals and Anti-Freeze

A well-maintained hydronic heating system provides reliable performance even during the harshest winters. Heating maintenance professionals know that top quality materials are critical to achieve superior performance. That's why contractors depend on Hercules™ and MASTERS®. They are formulated for high performance and developed with both the user and the environment in mind.

How to Maintain a Boiler System

Prior to Use: Read all product labels carefully.

Keep container closed when not in use. Avoid eye and skin contact. Wear safety glasses with side shields and wear rubber gloves.

1. Turn off the gas and autofeeder and disconnect the electrical supply.
2. Bleed a small amount of fluid from hydronic loop to inspect for rust, sediment or mucus-like sludge to determine if system restorer is required.
3. If sludge and sediment are present, drain system completely until water runs clear.
4. Flush system with Sludgehammer System Restorer by mixing 1 quart System Restorer with 1 gallon of water in a bucket and pumping into the system.
5. Without breaking suction, add enough water to completely fill the system. Close valve. Remove pump. Reconnect the power and circulate for 4 hours.
6. Completely drain and flush the system.
7. Recharge system with Sludgehammer Corrosion Inhibitor and Cryo-Tek.
8. Reconnect power supply and circulate for two hours.
9. Recheck inhibitor and propylene glycol (PG) levels using Cryo-Tek test strips, pH meter, or refractometer.

For Regular Maintenance

- a. Open drain valve and remove a small amount of liquid (close valve).
- b. Use Cryo-Tek Test Strips to check the corrosion inhibitor and PG levels.
- c. Add Sludgehammer Corrosion Inhibitor if system is low.
 - i. To add Inhibitor: open drain valve and remove 2 gallons of water. Mix one quart of Sludgehammer and two gallons of water.
 - ii. Attach pump hose to drain valve, prime the pump, and turn it on.
 - iii. Without breaking suction, pump one gallon of water to ensure all Inhibitor gets into the system.
 - iv. Close drain valve, and turn pump off.
 - v. Reconnect the power supply and circulate for two hours before rechecking the Inhibitor and anti-freeze levels.
10. Add PG if the system is low.
 - a. Properly dilute Anti-Freeze in water.
 - b. Attach pump hose to drain valve, prime the pump, and turn it on.
 - c. Close drain valve, and turn pump off.
 - d. Reconnect the power supply, and circulate for two hours before rechecking the inhibitor and anti-freeze levels.

Cryo-Tek™ Products Keep Systems Clean and Operating Efficiently.

Improves heat transfer and minimizes wear to moving parts.

GLYCOL AND ANTI-FREEZE

Hercules™ Universal Cryo-Tek™

Our triple-protection inhibitor package stabilizes pH to prevent corrosion, chelates, hard water minerals, and inhibits the formation of scale and sediment.

- Concentrated universal solution with 97% virgin propylene glycol.
- Triple Protection Inhibitor stabilizes pH to prevent corrosion, chelates, hard water minerals, and inhibits scale and sediment formation.
- Approved for use with **all metals, PEX and elastomeric tubing** (not for use with CPVC)
- Meets and exceeds the corrosion protection requirements of ASTM D1384.

Product No.	Size	Description	Ctn. Qty.
35330	3.78 L / Gallon	Universal Cryo-Tek	6
353319	18.9 L / 5 gal.	Universal Cryo-Tek	1
353327	208 L / 55 gal.	Universal Cryo-Tek	1

For application, freeze protection and specific dilutions, view submittal sheet at herchem.com

#353319

Hercules™ Cryo-Tek™ AG

- Concentrated Arctic Grade solution with **95% Virgin Propylene Glycol**.
- Triple Protection Inhibitor stabilizes pH to prevent corrosion, chelates, hard water minerals, and inhibits scale and sediment formation.
- Approved for use with **copper, steel, iron, brass, PEX and elastomeric tubing** (not for use with galvanized, CPVC and aluminum).

SYSTEM TESTING

Hercules™ Cryo-Tek™ Test Strips

- Contains 10 color-coded disposable test strips.
- Each checks levels of propylene glycol and corrosion protection.
- Check glycol and inhibitor levels annually; add Hercules Sludgehammer Universal Corrosion Inhibitor if level is low.

Product No.	Size	Description	UPC	Ctn. Qty.
35271		Test Kit, 6 - 10 Packs		6

Hercules™ pH Test Meter

- Ideal for checking acidity or alkalinity of heating or potable water systems.

Product No.	Size	Description	UPC	Ctn. Qty.
35272		pH Test Meter	032628352728	1

Hercules™ Refractometer

- Fastest and easiest method for ensuring accurate ethylene and propylene glycol levels.

Product No.	Size	Description	UPC	Ctn. Qty.
35290		Refractometer	032628352902	1

MAINTENANCE PRODUCTS

Hercules™ Sludgehammer™ Universal Corrosion Inhibitor

- Multi-purpose formula controls scale, corrosion, boiler noise and hydrogen gassing.
- Helps restore efficiency to hydronic heating systems.
- Safe for all metals including aluminum and stainless steel.
- Compatible and for use with all Cryo-Tek antifreezes.

Product No.	Size	Description	UPC	Ctn. Qty.
35297	946 ml / 32 oz.	Universal Corrosion Inhibitor	032628352674	6

MASTERS® Pro-Tek 922

- Oxygen inhibiting boiler treatment to protect aluminum, brass, copper, iron and steel equipment from corrosion and scale build up
- Recommended by major boiler manufacturers for system use
- Environmentally friendly and non-hazardous
- Concentrated formula (mix 1 part chemical to 50 parts water)

Product No.	Size	Description	UPC	Ctn. Qty.
MPT1L-C	1 L	MASTERS Pro-Tek 922 Concentrated Inhibitor, Bottle	067001001641	12
MPT4L-C	4 L	MASTERS Pro-Tek 922 Concentrated Inhibitor, Jug	067001002037	4

SYSTEM REPAIR PRODUCTS

Hercules™ Base Hit™ II Sealant & Lubricant

- Seals and prevents leaks.
- Remedies most squeaking pumps.
- Will not form sludge or precipitates or impede normal operation.

Product No.	Size	Description	UPC	Ctn. Qty.
30213	354 ml / 12 oz.	Base Hit II	032628302013	12

Hercules™ Boiler Liquid

- Seals and repairs cracks or leaks in hot water or steam boilers.*
- Makes a strong lasting repair on difficult leaks.
- Resists pressure and is not affected by boiler cleaners.
- Prevents surging and will not clog or coat heating coils controls, vents or valves.

Product No.	Size	Description	UPC	Ctn. Qty.
30115	946 ml / 32 oz.	Boiler Liquid	032628301153	12

*Hot water portion of steam boiler

SYSTEM CLEANING PRODUCTS

Hercules™ Sludgehammer™ System Restorer & Noise Reducer

- Combination formula removes sludge and corrosion while reducing boiler noise.
- Helps restore efficiency to hydronic heating systems.
- Compatible with aluminum and stainless steel heat exchangers.
- Flush from system after use.

Product No.	Size	Description	UPC	Ctn. Qty.
35298	946 ml / 32 oz.	System Restorer & Noise Reducer	032628352988	6

Hercules™ Boiler and Heating System Cleaner

- Formulated to clean and condition steam and hot water systems.
- Protects pumps by lubricating seals and zone valves.
- Prevents clogging of valves and prevents corrosion.
- Safe and easy to use.

Product No.	Size	Description	UPC	Ctn. Qty.
35206	946 ml / 32 oz	Boiler and Heating System Cleaner	032628352063	12
35211	3.78 L / Gallon	Boiler and Heating System Cleaner	032628352117	6

#35211 shown

MASTERS® Hydro-Solv 9100

- Safely and effectively cleans aluminum, brass, copper, iron and steel boiler components in new and used systems
- Environmentally friendly, non-hazardous and contains no acid or TSP
- Helps recover lost efficiency and removes scale, corrosion, bacteria, solder/flux, cutting oil, dirt and rust
- Concentrated formula (mix 1 part chemical to 50 parts water)

Product No.	Size	Description	UPC	Ctn. Qty.
MHS1L-C	1 L	MASTERS Hydro-Solv 9100 Concentrated Cleaner, Bottle	067001001719	12

SYSTEM CLEANING PRODUCTS

#35245

Haymaker™ Tankless Water Heater Descaler

- Non-corrosive, effectively removes scale - Professional grade formula
- Clear liquid allows you to see the results of the descaling - Clear, citric acid-based formula
- Safe for potable water. NSF 60 listed
- Will not harm the environment. VOC free, biodegradable
- *Users have everything they need to descale a tankless water heater. Available in a kit with everything needed to descale a system - 946 ml Haymaker solution, 13 L pail, two hoses, electric pump with 3m cord.

Product No.	Size	Description	UPC	Ctn. Qty.
35240	946 ml / 32 oz.	Descaler	032628352407	6
35231	3.78 L / Gallon	Descaler	032628352315	6
35245		Descaler Kit*		1

The Haymaker solution dissolves 3 times the amount of scale as a gallon of white vinegar, without the foul odor! The concentration of acetic acid in vinegar is relatively low (5%), whereas Haymaker is 50% by weight concentrate that is mixed with water before use.

MASTERS® HVAC Cleaner

- Heavy-duty, multi-purpose liquid cleaner
- Removes grease, inorganic soils, smoke deposits, etc

Product No.	Size	Description	UPC	Ctn. Qty.

Bowl Setting Wax Gaskets and Bolts

For generations of professional plumbers, Oatey® has set the standard for the highest quality and best performing toilet-setting products.

BOWL SETTING WAX GASKETS AND BOLTS

Oatey® Heavy Duty Wax Bowl Ring

- 100% pure petroleum wax gasket for setting any floor type closet bowl.
- Fits 3" or 4" waste lines and meets Military Spec. TT-P-1536A.
- Provides a permanent seal impervious to vermin, odors, gases and acids.

Product No.	Size	Description	UPC	Ctn. Qty.
31190	3" or 4"	Heavy Duty Wax Bowl Ring	038753311906	48

Oatey® Heavy Duty Wax Bowl Ring w/ Sleeve

- 100% pure petroleum wax gasket for setting any floor type closet bowl.
- Provides a permanent seal impervious to vermin, odors, gases and acids.
- Fits 3" or 4" waste lines and meets Military Spec. TT-P-1536A.
- Polyethylene sleeve extends discharge opening for a more positive seal assuring proper bowl alignment.

Product No.	Size	Description	UPC	Ctn. Qty.
31193	3" or 4"	Wax Bowl Ring With Plastic Sleeve with Hardware	038753311937	24
31194	3" or 4"	Wax Bowl Ring With Plastic Sleeve	038753311944	24

Oatey® MaxWax® Wax Bowl Ring

- 40% thicker wax ring with a polyethylene sleeve to assure a tight seal.
- 100% pure petroleum wax gasket for setting any floor type closet bowl.
- Fits 3" to 4" waste lines and meets Military Spec. TT-P-1536A.
- Polyethylene sleeve extends discharge opening for a more positive seal assuring proper bowl alignment.
- Provides a permanent seal impervious to vermin, odors, gases and acids.

Product No.	Size	Description	UPC	Ctn. Qty.
31188	3" or 4"	MaxWax Bowl Ring with Sleeve	038753311883	12

Harvey® No-Seep® 3 in. or 4 in. No 2 Reinforced Wall Mount Gasket

- Maximum seal on wall hung toilets
- Fits 3" and 4" waste lines.
- Reinforced with urethane ring and fibers embedded into wax

Product No.	Size	Description	UPC	Ctn. Qty.
004005	3" or 4"	Specialty reinforced wax gasket	078864040050	24

Oatey® Wax Free Gasket

- For repairs and new installations.
- 3" diameter hole.
- No wax needed.

Product No.	Size	Description	UPC	Ctn. Qty.
42759	3"	Wax Free Gasket	038753427591	12

Oatey® Urinal Wax Ring

- Urinal wax ring has a urethane sponge to provide resiliency.

Product No.	Size	Description	UPC	Ctn. Qty.
31187	1-1/2" or 2"	Urinal Wax Ring	038753311876	12

BOWL SETTING WAX GASKETS AND BOLTS

Hercules™ Johni Quick Bolts

- Unique new bolting system for mounting toilets.
- Fast and easy; just push down and twist to tighten in one quick motion.
- Eliminates "fall-through" and wobble.

Product No.	Size	Description	UPC	Ctn. Qty.
90905	5/16" x 2-1/4"	Johni Quick Bolts Pair	032628909052	100

Harvey™ Nylon Bol-Bolts

- Universal application fits all flanges and material types.
- Increased head size so bolts won't fall through the drain pipe.
- More threads and specified design create a secure fit so the nut will stay in place and reduce backing out.

Product No.	Size	Description	UPC	Ctn. Qty.
051158	2-1/2" x 5/16"	Nylon Bolt Bulk Pack (2 bolts and 2 nuts per bag)	078864511581	50
051158-D	2-1/2" x 5/16"	Nylon Bolt Display Bucket of Bolts (2 bolts and 2 nuts per bag)	078864511581	50
051159	3-1/2" x 5/16"	Nylon Bolt Bulk Pack (2 bolts and 2 nuts per bag)	078864511598	50

Oatey® Liquilock™

- Solidifies water for easy toilet removal.
- Prevents water spills.
- Gel forms in 4 minutes. Simply flush gel away once toilet is re-set.
- Non-toxic, Lo-V.O.C.

Product No.	Size	Description	UPC	Ctn. Qty.
31418		0.6 oz. Liquilock Single Pack	038753314181	50
31420		16 oz. Liquilock Bulk Pack	038753314204	6

Drains and Closet Flanges

Oatey drains and closet flanges come in the widest variety of sizes, materials and configurations. PVC, cast iron, ABS, no matter what your shower drain or closet flange need, Oatey has the part you need to do the job right.

CLOSET FLANGES

Oatey® Level-Fit Closet Flange With Plastic Ring

- 3" or 4" all plastic flange solvent welds inside of 4" or over 3" Schedule 40 DWV pipe.
- 3" inside fit flange fits inside 3" Schedule 40 DWV pipe.
- Four mounting slots.
- Four countersunk holes for secure attachment to the floor.

Product No.	Size	Description	UPC	Ctn. Qty.
43502	3" or 4"	ABS closet flange w/ plastic ring	038753435022	12
43503	3" or 4"	PVC closet flange w/ plastic ring	038753435039	12

Inside Fit Closet Flange With Plastic Ring

43506	3"	ABS closet flange w/ plastic ring and w/ test cap	038753435060	12
43508	3"	ABS closet flange w/ plastic ring and w/o test cap	038753435084	12

Oatey® Level-Fit Closet Flange With Stainless Steel Ring

- Corrosion resistant stainless steel ring.
- 3" x 4" flange fits inside of 4" or over 3" Sch. 40 DWV pipe.
- 4" flange fits over 4" Sch. 40 DWV pipe.
- Meets ASTM D2661 and D2665.
- Adjustable ring for alignment of bolts and screws, sits flush on floor.

Product No.	Size	Description	UPC	Ctn. Qty.
43494	3" or 4"	ABS closet flange w/SS ring w/o test cap	038753434940	12
43495	3" or 4"	PVC closet flange w/SS ring w/o test cap	038753434957	12

Over 4" Fit Flange

43498	4"	ABS closet flange w/SS ring w/o test cap	038753434988	12
43499	4"	PVC closet flange w/SS ring w/o test cap	038753434995	12

Oatey® Level Fit 45° Closet Flange With Plastic Ring

- 45° bend, 360° rotation allows wide range of plumbing connections in tight spaces.
- Design allows flange to set flush.
- Fits over 3" or inside 4" pipe.

Product No.	Size	Description	UPC	Ctn. Qty.
43815	3" or 4"	ABS 45° Closet Flange w/plastic ring w/o test cap	038753438153	6
43816	3" or 4"	PVC 45° Closet Flange w/plastic ring w/o test cap	038753438160	6

Oatey® Level Fit 45° Closet Flange With Stainless Steel Ring

- Solvent weld connection for Sch. 40, 3" outside or 4" inside fit
- Durable and corrosion resistant 430 stainless steel ring
- Ring provides adjustability with 360° swivel
- No restriction throat complies with IAPMO IGC 67-2014el flow requirements

Product No.	Size	Description	UPC	Ctn. Qty.
43607	3" or 4"	PVC 45° Bend Closet Flange w/ SS Ring	038753436074	12
43608	3" or 4"	ABS 45° Bend Closet Flange w/ SS Ring	038753436081	12

Oatey® Over 4" Level-Fit Closet Flange

- Fits over 4" Schedule 40 DWV pipe.
- With plastic ring.

Product No.	Size	Description	UPC	Ctn. Qty.
43548	4"	ABS Over Pipe w/o Test Cap	038753007267	12

Oatey® Level Fit Closet Flange With Plastic Ring, Long Mounting Slots

- All plastic flange solvent welds inside of 4" or over 3" Schedule 40 DWV pipe.
- Four countersunk holes for secure attachment to the floor.
- Radial slots extend 130° to allow exact alignment of the water closet.

Product No.	Size	Description	UPC	Ctn. Qty.
43510	3"-4"	ABS closet flange w/plastic ring, long mounting slots – w/o test cap	038753435107	12
43511	3"-4"	PVC closet flange w/plastic ring, long mounting slots – w/o test cap	038753435114	12

CLOSET FLANGES

Oatey® Fast Set® Closet Flange With Plastic Ring or Stainless Steel Ring

- Patent-pending Bolt Shelf designed to keep bolts in track that is molded into the flange-eliminates bolt fall-through
- 3 strike points make test cap knockout effortless.

Product No.	Size	Description	UPC	Ctn. Qty.
48470	3" hub	Fast Set® Testable ABS Closet Flange w/plastic ring	038753484709	12
48471	3" hub	Fast Set® Testable ABS Closet Flange w/SS ring	038753484716	12

Oatey® Level Fit Offset Closet Flange With Stainless Steel/Metal Ring

- The metal ring provides added strength and cracking resistance to the flange and can be rotated to allow precise alignment of bolts and screws.
- Solvent welds inside of 4" or over 3" Schedule 40 DWV pipe.
- 2" offset allows a margin of error for drain pipe/flange alignment.

Product No.	Size	Description	UPC	Ctn. Qty.
43500	3"-4"	Offset Metal Ring - ABS w/Metal Ring	038753435008	12
43501	3"-4"	Offset Metal Ring - PVC w/Metal Ring	038753435015	12
43605	3"-4"	PVC Offset Closet Flange w/ SS Ring	038753436050	12
43606	3"-4"	ABS Offset Closet Flange w/ SS Ring	038753436067	12

Oatey® Spigot Fit Closet Flange

- For use in hub-end of fitting.
- Fits on inside of fitting.
- Eight countersunk holes and two closet bolt slots for secure attachment to the floor.

Product No.	Size	Description	UPC	Ctn. Qty.
43584	3"	Spigot Fit Closet Flange, ABS, w/plastic ring	038753435848	12
43585	3"	Spigot Fit Closet Flange, PVC, w/plastic ring	038753435855	12
43586	4"	Spigot Fit Closet Flange, ABS, w/plastic ring	038753435862	12
43587	4"	Spigot Fit Closet Flange, PVC, w/plastic ring	038753435879	12

Oatey® Cast Iron Closet Flange

- Cast iron closet flange, no caulking.
- Complete with body, brass ring, bolts and gasket.
- To be used on plastic or heavy weight, no hub or service weight soil pipe.

Product No.	Size	Description	UPC	Ctn. Qty.
42253	3"	Cast iron flange w/o test cap	038753422534	6
42255	4"	Cast iron flange w/o test cap	038753422558	6
42256	4"	Cast iron flange w/ test cap	038753422565	6

Oatey® Replacement Closet Flange

- Slides inside of 4" cast iron or Sch. 40 DWV plastic pipe.
- 3" stainless steel bolts are tightened from the finished floor.
- No caulking required.
- Compression joint allows up to 6.2 cm of adjustment to the riser.

Product No.	Size	Description	UPC	Ctn. Qty.
43538	4"	ABS Closet Flange Replacement	038753435381	2
43539	4"	PVC Closet Flange Replacement	038753435398	2

CLOSET FLANGE REPAIR

Oatey® Twist-N-Set® Replacement Closet Flange

- Replaces broken cast iron closet flanges.
- Installs easily without tools.
- Smooth unrestricted flow design.
- Gasket expands to fit inside service weight, heavy weight and no hub pipe.

Product No.	Size	Description	UPC	Ctn. Qty.
43650	4"	ABS Twist-N-Set closet flange	038753436500	2
43651	4"	PVC Twist-N-Set closet flange	038753436517	2
43653	4"	Cast Iron Twist-N-Set closet flange	038753436531	2
43654	3"	PVC Twist-N-Set closet flange	038753436548	2
43655	3"	ABS Twist-N-Set closet flange	038753436555	2

Oatey® Horizontal Adjustable Urinal Flange Kit

- Horizontal mounting slots accommodate urinals with 3-1/2" to 7" mount centers.
- Kit includes all bolts, nuts, washers and gaskets.
- The flange fits over 2" Sch. 40 DWV pipe (Prod No. 43540 and 43541).

Product No.	Size	Description	UPC	Ctn. Qty.
43540	2"	ABS Horizontal Adjustable Urinal Flange Kit	038753435404	10
43541	2"	PVC Horizontal Adjustable Urinal Flange Kit	038753435411	10
43542	2"	ABS Horizontal Spigot Urinal Flange Kit	038753435428	10
43543	2"	PVC Horizontal Spigot Urinal Flange Kit	038753435435	10

Oatey® Set-Rite® Toilet Flange Extension System

Stop double stacking wax rings! Double stacking may lead to uneven compression, which could cause potential leak paths. Long term undetected leak paths would require costly water damage restoration.

Use the Set-Rite® System instead for an air tight and leak free seal, every time!

- The only patented and UPC listed flange extension product acceptable for repair and remodels.
- Set-Rite eliminates improper double stacking of wax with spacers to raise the height and a gasket to seal the system.
- Set-Rite can be used on existing PVC, ABS, Cast Iron and Stainless Steel ringed flanges.

Product No.	Size	Description	UPC	Ctn. Qty.
43440C	1/8"-2-1/4"	Toilet Flange Extension Kit - Extender, 1/8", 1/4", 1/2", 3/4" Spacers, Gasket, 3-1/2" Self-Tapping Screws	038753434407	5

Oatey® Fix-It™ Repair Ring

- Securely repairs broken, cracked or worn out mounting flanges without replacing the current toilet flange.
- 10 mounting holes for wide range of installation options on all flooring types.
- 4 slotted mounting tabs fit under all toilets. The elongated slots allow for angled screws to grab flooring.
- Perfect length bolt slot prevents bending during installation for secure, level and leak-free repairs.

SHOWER DRAINS FOR PREFORMED BASES

Oatey® No-Calk Shower Base Drain

- Made of Cast Brass or Plastic.
- Designed for use with all preformed shower stall bases.
- Mechanically attaches over 2" Schedule 40 DWV pipe. The drain is fixed to the drain pipe from above the shower base, ideal for slab construction.
- Can be used with 1-1/2" Schedule 40 DWV pipe and 1-1/2" or 2" Copper DWV pipe when caulking gasket is replaced.
- Fiber and rubber gasket provide a tight seal to the base.
- Available with 4-1/4" Stainless Steel Snap-Tite Strainer.

Product No.	Size	Description	UPC	Ctn. Qty.

designline™

Designline by Oatey offers rugged dependability under the seamless sophistication of the latest, tasteful, graceful flair in plumbing.

Category 10

Shower Systems

MASTERS® and Oatey® Shower systems and accessories are designed as an economical, flexible pan liner for use in tile shower and other concealed water-proofing applications. Shower systems are available in 30 mil or 40 mil thickness, and widths of 4' (1.2 m), 5' (1.5 m) or 6' (1.8 m). Liner is marked every 6" (15.2 cm) to allow for easy measuring of material.

SHOWER SYSTEMS

MASTERS® Aquaproof

- 30 mil thick grey PVC shower pan liner marked every 6" for easy cutting
- Creates permanent waterproofing under tile, concrete, etc.
- Meets ASTM D 4551, cUPC listed, IPC & IRC Compliant

Product No.	Size	Description	UPC	Roll
AQ430	30 mil 4' x 50' Roll	MASTERS Aquaproof Shower Pan Liner	067001000194	1

SHOWER PAN LINER – APPLICATION INSTRUCTIONS

Oatey® provides several products needed for tile shower installations. Choose from the list below before you start your project:

PVC or CPE Pan Liner – referred to as pan liner or membrane in our instructions.

Tile Shower Drain – PVC for PVC drain pipe or ABS for ABS drain pipe. Each is available with stainless steel, polished brass or white plastic strainer.

X-15 or CPE (Oateyweld) bonding adhesive – For use on dam corners or seaming use X-15 for PVC and Oateyweld for CPE.

PVC or ABS solvent cement – PVC solvent cement and primer for PVC drainage systems or ABS solvent cement for ABS drainage systems. Use the appropriate cement (and primer for PVC) to solvent weld tile shower drain to the drain pipe.

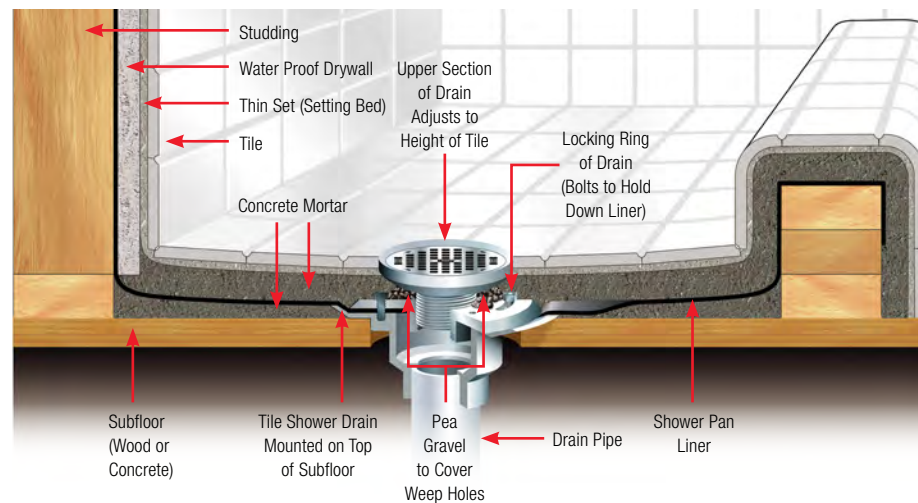

Dam Corners – For outside corners and over the curb preformed dam corners are available, which can be used for PVC or CPE pan liner applications.

NOTE: Oatey pan liner instructions assume the shower framing has been constructed and the flooring is plywood. Generally the same principles apply to concrete flooring where the sloped mortar bed is applied beneath the pan liner. Also the instructions apply to either PVC pan liner or CPE pan liner which are installed the same with the exception of the bonding adhesive used for seaming and dam corner applications. If you have questions regarding pan liner installation that are not covered in these instructions, contact Oatey customer service at 800-321-9532 and you will be referred to someone who can assist you.

Shower Pan Installation

1. For typical wood subfloor cut a 11.4 cm diameter hole in the center of the shower floor where the tile shower drain would normally be positioned. Disassemble the tile shower drain. Lay the tile shower drain base in the opening so the flange of the drain base rests on top of the subfloor. Solvent weld the drain base to the drain pipe using the appropriate solvent cement. See Figure A.
2. Cover the drain base opening with duct tape to keep debris from entering the drain. Begin by applying Portland Sand/Cement mixture mortar bed over the subfloor at 1/4" per foot slope from the wall framing to the top of, but not over, the drain base. After this step the sloped mortar bed should be flush with the top surface of the drain base.

Figure A

3. After the sloped mortar bed has cured, the pan liner dimensions need to be determined. Pan liner dimensions should be sufficient to completely cover the floor, turn up all sidewalls at least 5 cm above the finished curb height, and adequately cover the curb. Lay the pan liner on a clean floor surface, measure, and cut to the appropriate dimensions. **NOTE: Seaming may be required in larger showers. See Figure B. Follow instructions on bonding adhesive.**

Figure B

4. Before installing the pan liner remove the tape from the drain base and apply a .63-.95 cm bead of 100% silicone caulk around the upper surface of the drain base approximately 2.54 cm in from the outside edge. This will provide a seal between the underside of the pan liner and the drain base surface. Screw the clamping ring bolts into the drain base to 2-3 thread depth. Before the caulk dries lay the premeasured pan liner on the floor and over the drain body. At the top of each bolt slit an "X" so the pan liner slides over the bolts and down to the drain base surface. Press pan liner firmly into place to ensure a seal between the drain base and the bottom surface of the pan liner.

SHOWER PAN LINER – APPLICATION INSTRUCTIONS

5. Work the pan material from the drain body to the sidewall framing and curb threshold so it lays flat on the floor surface. If desired an adhesive can be used to bond pan liner to the floor and curb. Prior to use of adhesive, confirm compatibility of adhesive to the pan liner. Fold corners and nail or staple pan liner to the sidewall framing or wall studs 1.27 cm below the upper edge of the material to hold it in place. Nail or staple the remainder of the pan liner to the sidewall framing or wall studs 1.27 cm below the upper edge of the material. See Figure C.

Figure C

6. For outside corners or curbs where it's necessary to cut the pan liner use a dam corner to cover the cut area. To bond dam corners in the cut area use **Oatey brand X-15 for PVC liner installations or Oateyweld for CPE liner installations. See Figure D.**

Figure D

7. Locate where the drain hole is on the drain base and cut out the pan liner material to the dimension of the drain hole on the drain base. Place clamping ring over the bolts and slide the ring counter clockwise so it's locked in place. Tighten the bolts so they're snug. Make sure the weep holes are clear of any residual pan liner material or silicone. **NOTE: The clamping ring can increase the height of the finished shower floor by approximately 1.9 cm. You will see the extension if you turn the ring upside down. Simply tighten it to the drain base the way you normally would, only inverted.**

8. Water test the installation by closing off the drain pipe opening with a pneumatic or mechanical Cherne® test plug. Fill the shower floor with water just below the top of the curb and let it sit for four (4) hours. Observe for leaks and repair if necessary. Retest the installation. Repeat until the installation is leak free. Completely drain the water before proceeding to Step 9.

Figure E

9. A reinforcement bed of mortar needs to be applied over the membrane (see step 11) but before doing so nail water impervious drywall to the wall studs to approximately 1" above the pan liner surface. **NOTE: The use of mortar vs. drywall for the curb should be considered because you can avoid the use of nails as you construct this part of your installation.**

10. The clamping ring has an inner thread pattern that will accept the drain barrel and strainer assembly. Once you determine the finished height of the shower thread the drain barrel into the inside clamping ring thread so the finished floor will be flush with the top of the drain barrel. As mentioned in step 7 you can increase the shower drain height by inverting the clamping ring.

11. Before the final mortar application place some pea gravel over the weep holes so the mortar doesn't completely cover them. Now lay the minimum 3.8 cm reinforcement mortar bed of concrete over the pan liner from the wall to the drain barrel, leaving enough room for the final thinset and tile application. See Figure E.

Category 11

Supply Boxes

Oatey® supply boxes can be used in commercial or residential applications that require supply valves and waste drains recessed into the wall. Available water hammer arrestor option provides water pressure shock arrestors required for installation on supply lines to quick closing valves. Available in fire-rated and other configurations.

SUPPLY BOXES

Oatey® MODA™ Washing Machine Outlet Boxes

- One universal faceplate is compatible with all box types.
- All boxes can snap to one another, and common brackets can be used on any MODA supply box.
- Unique interlocking wing flanges accommodate on-stud, straddle-stud and three-box installations.
- Two piece valve design makes valve replacement easy to repair, without damaging drywall.

FEATURED PRODUCT

SECONDARY DRAIN BOX

Old Method

New Method

FEATURES AND BENEFITS

- Seamless connection from inlet pipe to drain (including air gap)
- Rated for high-flow applications, i.e. water softener (10GPM)
- No additional bracing or supports required for inlet supply
- No need to transition pipe type
- Available in F1807 PEX and F1960 PEX

Accessory Components Included:

Category 12

Flashings

Oatey® created the plumbing vent flashing industry nearly 100 years ago. Today Oatey flashings are used in commercial and residential applications where a water-tight seal around plumbing vent pipe or outside wall penetrations is required. Flashings are available in a variety of thermoplastic, aluminum, galvanized and copper materials. All Oatey flashings are rated for a minimum of 82°C continuous heat and approved for Type B Installations.

FLASHINGS

Thermoplastic No-Calk® Colour Roof Flashings

- Non-fading, non-cracking, thermoplastic base.
- Self-sealing collar slides over pipe and requires no caulking.
- Do not use petroleum based products or paint on flashing collar or plastic base.
- Not for hot-mopped or built-up roofs.
- Plastic base for pitch from 0-45 degrees or up to 12/12 roof.
- Rated 82°C continuous heat and approved for Type B installations.
- Colours come in Black, Brown, Gray, and Weatherwood.

Galvanized No-Calk® Roof Flashings

- Galvanized Base.
- Self-sealing collar slides over pipe and requires no caulking.
- Metal base for pitch from 0-40° or up to 10/12 roof.
- Do not use petroleum based products or paint on flashing collar. Not for hot-mopped or built-up roofs.
- Rated 82°C continuous heat and approved for Type B installations.

High-Rise® Thermoplastic All-Flash® No-Calk® Roof Flashings

- Roof Flashing slides over DWV pipe for pitch to 60°.
- Patented All-Flash collar has tear-away ring allowing flashing to seal various pipe diameters.
- Non-fading, non-cracking rigid black thermoplastic base.
- Non-fading sealing collar.
- Rated 82°C continuous heat and approved for type B installations.
- Not for hot-mopped or built-up roofs.
- Do not use paint or petroleum based products on plastic bases or rubber collars.

Product No.	Size	Description	UPC	Ctn. Qty.

FLASHINGS

Master Flash® Roof Flashings

- Slides over pipe - for pitch to 45 degrees.
- Use silicone sealant between base and surface, and secure with sheet metal screws.
- Multi-size pipe sealing range.
- Molds to metal, plastic, etc.
- Non-fading EPDM collar.
- Rated 100°C continuous heat and approved for Type B installations.

Category 13

Air Admittance Valves (AAV)

Sensitivity to pressure changes, combined with its ability to consistently open and close, is what distinguishes the Oatey® Sure-Vent® AAV from all others. Superior engineering along with stringent quality standards ensure a lifetime of unmatched performance. Available in multiple DFU capacities to meet various applications (8, 24, 72 and 500 DFU).

Traditional Vented House

AAV Vented House

Plumbing Drain, Waste and Vent systems, known as DWV, consist of the DRAIN pipes that provide a network for the removal of WASTE and the VENT pipes that prevent traps from siphoning and maintain an equalized pressure. The DWV system uses gravity and air displacement throughout the piping network to function and breathe. In a simplified example, water in an inverted bottle without an air hole will glug and gasp when emptied. Adding an opening to the bottom of the bottle will turn the process into an efficient, steady flow because the bottle “breathes.”

Every Drain Needs a Trap. Every Trap Needs a Vent.

To prevent sewer gases from being released into the structure, plumbing code requires a trap to be installed at every fixture. A trap is a U-shaped bend of pipe filled with water that acts as a barrier between the structure and the sewer system. Trap seals can only be compromised under two conditions – high sewer pressures and water siphons, in both cases vents prevent this from happening.

Under high sewer pressures without a vent, trap seals will allow sewer gases to escape and enter the structure. This happens when the sewer pressure is greater than the pressure from the column of water in the trap. A vent will keep the sewer and atmospheric pressures equalized to maintain the trap seal.

Water moving through pipes can create a negative pressure or a siphon. The siphon will pull the water from a trap, leaving a clear path for sewer gases to enter the structure. A vent will prohibit siphoning, maintaining the trap seal.

Why Use a Sure-Vent® Air Admittance Valve?

Air Admittance Valves (AAVs) open and close in conjunction with normal DWV system operation, effectively eliminating the need for secondary vent pipes. An AAV provides an alternative to secondary venting when utilized within the scope of model plumbing codes, referenced standards and Oatey® installation instructions.

AAVs provide the ideal venting solution for island sinks, remote bathroom groups and remodeling jobs by eliminating the need to tie into a stack vent.

AAVs are often more economical than running vent pipe in new construction because they reduce the added need for supplies and labor.

The Oatey Sure-Vent offers UNMATCHED PERFORMANCE by opening and closing under the smallest pressures, multiple sizes for OPTIMIZED DFUs and SUPERIOR SEALING technology, providing a lifetime of reliability.

Oatey® Sure-Vent® Air Admittance Valve – 20 Branch, 8 Stack DFU Capacity

- Complies to ASSE Standard 1050 and 1051.
- For use as a secondary vent.
- One size approved to handle up to 2" vent pipe.
- Opens/closes as needed by building's plumbing system.

Product No.	Adapter Size	Description	UPC	Ctn. Qty.
39225	1.5"	20 Branch, 8 Stack DFU Sure-Vent AAV 1-1/2" Tubular adapter (white)	038753392257	6

AIR ADMITTANCE VALVES (AAV)

Oatey® Sure-Vent® Air Admittance Valve – 160 Branch, 500 Stack DFU Capacity

- Complies to ASSE Standard 1050 and 1051.
- For use as a secondary vent.
- One size approved to handle up to 4" vent pipe.
- Opens/closes as needed by building's plumbing system.

Product No.	Adapter Size	Description	UPC	Ctn. Qty.
39223	3" – 4"	160 Branch, 500 Stack DFU Sure-Vent AAV 3" x 4" Sch. 40 PVC adapter	038753392233	6
39224	3" – 4"	160 Branch, 500 Stack DFU Sure-Vent AAV 3" x 4" Sch. 40 ABS adapter	038753392240	6

Oatey® MODA™ Sure-Vent® Air Admittance Valve Box

- Includes 160 branch, 24 stack DFU AAV with louvered faceplate
- Louvered, solid and semi-cover faceplate inserts available. See MODA Accessories

Product No.	Description	UPC	Ctn. Qty.
37981	MODA, Sure-Vent AAV Standard Drain – Standard Pack	038753379814	12

Oatey® Sure-Vent® Access Panel

- Allows access to Sure-Vent air admittance valve.
- Meets code requirements for recessing an air admittance valve in a wall.

Product No.	Size	Description	UPC	Ctn. Qty.
34247	6" x 9"	Louvered Design Access Panel	038753342474	6

Oatey® Sure-Vent® Wall Box

- New, smaller size: 4-1/2" x 5-3/4".
- High-impact polystyrene construction.
- Accommodates 20 branch/8 stack, 160 branch/24 stack DFU AAVs with 1-1/2" or 2" adapters.

Product No.	Size	Description	UPC	Ctn. Qty.
39260		Box Kit	038753392608	6
39261		Louvered Faceplate	038753392615	6

39263		Box Kit with ABS Adapter and 24 DFU AAV	038753392639	6

Oatey® In-Line Vent

- Mechanical vent installs on the drain line and vents the line without allowing sewer gas to enter the home.
- Available in either chrome or ABS & packaged in polybag.
- For venting sinks, tubs, showers, washing machines, etc.
- Eliminates the need for secondary stacks.

Product No.	Size	Description	UPC	Ctn. Qty.
39000		Chrome In-Line Vent	038753390000	6
39012		ABS In-Line Vent	038753390123	6

Category 14

Pipe Support

Oatey® and MASTERS® offer a complete range of pipe support products for all of your application needs. Whether it's securing supply lines, DWV pipe or supporting your work with brackets and bars, you can count on Oatey for quality, performance and innovation.

Oatey® Full Clamp

Easy installation.
Easy removal when you need it.

FEATURES AND BENEFITS

- Push on installation — lead in edge automatically opens up clamp
- Patented removal wedge and notch allows for clamp removal
- Complete stand-off from surface
- 360° pipe protection — allows tube to expand and contract

Clamps by the Bucket

No need to break the bank when buying a bucket of clamps from Oatey®. You can now get your favorite clamps, including the new Duo-Fit and Stand-Off, in a handy 2.1 gallon Oatey bucket. The bucket holds 300-900 clamps depending on the size and type. And each bucket features a unique reclosable lid. No need to cut a hole in the lid like other buckets force you to do, tearing your hand up in the process of grabbing a handful of clamps. Better yet, when the bucket is empty, it makes a great storage container, or is useful when working on plumbing under sinks and tight areas where bigger buckets just can't fit.

- **Smaller size bucket saves you money, more versatile.**
- **Reclosable lid is easy on the hands.**

Oatey® DuoFit™ Pipe Clamps

- One clamp fits both 1/2" and 3/4" size pipe.
- Use on copper, CPVC and PEX.
- Move pre-loaded nail to keep pipe off of stud.
- Temperature range: -17°C – 110°C.
- Constructed of black polypropylene.
- UPC listed.
- Available in 2 gallon buckets.

Strainers

Dearborn® Brass offers the widest variety of Basket and Sink Strainers in the industry. These include Standard and Economy; Locking Cup; Easy Mount; Threaded Body and Bar Sink Strainers. Available in chrome plated brass, stainless steel and decorative plastic materials.

STRAINERS

Dearborn® Rubber Neck Escutcheon

- Fits comfortably 1/2" and 3/4" pipe.
- Durable material that is non-corrosive and mold resistant.
- Hide blemishes from your customer and add a layer of protection against critters from entering the structure.

Product No.	Size	Description	UPC	Ctn. Qty.

Pneumatic Pipe Plugs

Cherne® pneumatic Test-Ball® and Muni-Ball® pipe plugs have been the contractor's choice for more than 60 years. Used in residential DWV systems and sanitary/storm sewers, Cherne® pneumatic pipe plugs do it all! Larger sizes are available with our patented Rupture Disc Technology, which prevents over-inflation. This eliminates plug damage due to over-inflation and enhances user safety.

THE GLOBAL LEADER IN PIPE PLUG & TESTING

Cherne Industries recently completed an historic move into a newly constructed, 130,000-square-foot facility located in Shakopee, MN. Situated 25 miles southwest of downtown Minneapolis, this state-of-the-art facility features integrated robotic manufacturing with a new R&D lab for product testing, and extensive customer training facilities. The move to Shakopee also taps into a wide cross-section of skilled technical personnel. The new building fortifies Cherne's capabilities as a world-class, industry-leading solution for our end users.

test with the best

FEATURED PRODUCTS

Cherne® Single-Size Test-Ball® Plugs (Plumbing)

Designed to test DWV systems, Cherne Test-Ball® plugs can be used in any type of pipe.

- Made of natural rubber for excellent expansion and memory.
- Seals both round and out-of-round pipe.
- Zinc-plated steel chain and ring handle acts as an anchor to prevent plug from sliding down a line.
- Fits easily through test tees, sanitary tees, floor drains, and other "tight" situations.
- Broader expansion range than mechanical plugs.

Cherne® Multi-Size Test-Ball® Plugs (Plumbing)

The multi-size yellow-top Test-Ball(R) plugs have the same great features as the original and are ideal for multiple pipe sizes.

- One size fits multiple pipe diameters, doing the job of 2+ single-size plugs.
- Use to block flow (water DWV test) or as a back plug for sewer air testing.
- Seals both round and out-of-round pipe.
- Zinc-plated steel chain and ring handle acts as an anchor to prevent plug from sliding down a line.

Cherne® MS2® Long Test-Ball® Plugs

Multi-size design for use in various pipe diameters.

- Designed for waste stack testing from floor drain to sewer pipe.
- Long enough to seal wye vertical riser and sewer run.
- Multi-stage deflation eliminates backslash.
- Works in multiple pipe diameters.
- Pressure relief valve to safeguard against over-inflation.
- Nylon strap and safety handle prevents plug from sliding down a line.
- Includes 5' extension hose.

PNEUMATIC PIPE PLUGS

#262010 shown

Cherne® Single-Size Original Muni-Ball® Plugs

Muni-Ball® plugs offer a full bypass allowing both testing and monitoring of pipe systems. Ideal for installation and repair of residential, commercial, or municipal infrastructure including sanitary and storm sewer systems.

- Works in all types of pipe.
- Easily converts to an air test plug with use of a conversion kit.
- Durable natural rubber construction seals the roughest of surfaces.
- 8", 10", 12" and 15"-16" plugs include two port plug for easy use in sewer air tests.
- Threaded aluminum bypass.

PNEUMATIC PIPE PLUGS

Cherne® Single-Size Test-Ball® Plugs (Underground)

Cherne's single and multi-size test-ball® plugs are our most economical pneumatic plugs for blocking flow to do maintenance in sanitary and storm sewer systems.

- Designed to block sewer flow or for use as a back plug for sewer air testing.
- Natural rubber material for excellent expansion and memory.
- Seals both round and out-of-round pipe.
- Removable inflation valve can be replaced if damaged or replaced with quick disconnect fitting.
- Features an eye-bolt for use with a poly-lift line.

PNEUMATIC PIPE PLUGS

Cherne® Multi-Size High Pressure Plugs

Cherne's multi-size high pressure plugs are ideal for use in force mains, water mains, industrial lines, or sealing the host pipe up to 150 psi back pressure.

- Multi size use (6 plugs will cover pipe sizes from 4" to 32")
- Unlike single sized products, Cherne's new HP plug has the rubber and metal bonded eliminating fears of separation or rolling off resulting from high backpressures
- Aramid fiber construction
- Optimized design using steel, aramid and natural rubber to ensure longevity and robust construction
- High pressure plugs are designed to be pressurized with water for maximum safety
- Removable and field repairable hardware. Safety/Over-inflation device
- Made in USA

Product No.	Size	Description	Ctn. Qty.	Back Pressure P.S.I.

WARNING: This product is only designed for use in water and wastewater applications. If it comes into contact with oil, gas, petroleum, or certain other chemicals, it may rupture, resulting in bodily injury, death, and/or property damage. If there is any question about whether the product is appropriate for your intended application, call Cherne at (800) 843-7584 before using.

PNEUMATIC PIPE PLUGS

Cherne® I-Series® Plugs

Cherne's I-Series plugs were designed to meet the needs of both the US and International markets in terms of size and expansion range. Our I-Series plugs have full body cording for added durability.

- Super expansion ranges.
- Small deflated diameters. Plugs through 24"-60" size easily fit through a 24" manhole frame. 48"-72" and 54"-96" plugs fit through 36" openings.
- Bypass opening ranges from 3/4" to 8" diameters.
- Flexible bypass hoses - plugs can bend 90 degrees.
- Protective sleeves available for 12"-24" and plugs 15"-32" and larger.
- Aluminum end plates - minimize corrosion.
- 3/4" eyebolts for improved holding strength.
- Field replaceable rupture disc protect against over inflation.

FEATURED PRODUCTS

Point Repair Carriers

Features

- **New expanded multi-size line** covers pipe sizes from 4"-36" diameters and lengths up to 15' (Custom lengths available).
- **Maximum pipe Contact** guides to ensure proper placement of the repair medium to minimize waste of materials and increase productivity.
- **1/4" NPT Inflation Port** with male quick disconnect for ease of connection.
- Durable, flexible natural **corded rubber**.
- **Bypass design** allows sewage bypass during repair – no need to shut down the line.
- The **flexible design** allows all units to be folded in half for transport.
- **Redesigned integrated caster wheel assembly** optimized for ease of movement along the pipe.

Mechanical Pipe Plugs

Cherne® mechanical test plugs can be used in a wide variety of applications including DWV and stack testing. With a variety of end-of-pipe and in-pipe options available, it's easy to find the right mechanical test plug for the job.

MECHANICAL PIPE PLUGS

Cherne® Gripper® Mechanical Plugs

- Ideal for plumbing system tests.
- Easy to install with extra-large wing nut.
- Inside-of-Pipe Gripper Plug seals inside pipe as far as needed.
- Made with glass-reinforced ABS plastic and natural rubber O-Ring.
- End-of-pipe seals only at the end of a pipe, preventing plug from falling into stack.

Cherne® Clean-Out Gripper® Plugs

- Patented threaded O-ring ensures airtight seal.
- Stainless steel hardware prevents corrosion.
- Black color blends well with cast-iron pipe.
- NPT-sized, including hard-to-find 3-1/2".
- Guaranteed to seal most damaged threads.
- Made with glass-reinforced ABS plastic and natural rubber O-ring.

Cherne® Monitor Well™ Locking Plugs

- Designed to seal monitor wells.
- Sized to seal Schedule 40 piping.
- 2" and 4" sizes can also seal schedule 5 plastic and stainless steel pipe.
- Yellow chromate-coated locking latch accepts Cherne's solid brass padlock or No. 2 Master® padlock.
- Meets all EPA requirements for locking plugs.
- Made with chemical-/petroleum-resistant Estaloc® plastic top/bottom plates and Nitrile sealing O-ring.
- Comes with stainless steel carriage bolt.

Product No.	Size	Description	Ctn. Qty.	Back Pressure P.S.I.	Feet of Head

MECHANICAL PIPE PLUGS

Cherne® Iron Grip™ Plugs

- The sturdy design is perfect for a variety of low-pressure, water/air testing or blocking applications.
- Large wing nut design allows for easy, tool-free installation and superior sealing.
- Can be used as either a temporary or permanent plug.
- Cast iron construction is both economical yet rugged.
- Bypass allows for easy pressure relief.
- Now available in most popular sizes.

Product No.	Description	Ctn. Qty.	Back Pressure P.S.I.	Feet of Head

Test Equipment, Drain Flushers, and Accessories

Everything from replacement chains and extension hoses to poly lift lines and gauges. Innovation and quality has made Cherne the contractor's choice since 1953, for Hand Pumps, Hose Assemblies, Drain Flushers, Test Gauges, and Manometers!

TEST EQUIPMENT, DRAIN FLUSHERS, AND ACCESSORIES

Cherne® Hi-Flow™ Air-Loc® Panel

- Panel includes gauges to monitor compressor pressure, plug pressure and test pressure.
- Stored in a sturdy case.
- Can be used with either 3/8" or 3/4" fill hose, accomplished by simply turning a valve.
- Designed to work with air compressors fitted with either crow's foot or standard quick disconnect fittings.

Product No.	Description
304718	Control Panel
026358	0-10 PSI Test Pressure Gauge – Retarded increments from 11-30 PSI
014828	0-60 PSI Ball Pressure Gauge
014848	0-160 PSI Compressor Gauge
0430480A	3-Way Valve
296643	Regulator

Cherne® Triple Hose

- The 3/8" diameter hose assembly is used to connect the Air-Loc Panel to the front plug.
- Triple hose is color-coded, making connections easy to understand.
- Hose features locking quick disconnects for safety and includes strain relief to protect hose from damage.
- Available with 3/4 blue test pressure hose for quick exhausting.

Product No.	Description
035268	25' Triple Hose
257038	50' Triple Hose
257188	400' Triple Hose
257108	25' Hi-Flow Triple Hose
257098	50' Hi-Flow Triple Hose

Cherne® 22' Interconnect Hose

- Used to attach the front and back air test plugs when conducting a leak location test.
- Includes a cable for attaching to the pipe plugs to take strain off the hose during the leak location process.

Product No.	Description
043338	22' Interconnect Hose

Cherne® Air-Loc® Line Acceptance Kit

- Used to perform low pressure air tests on newly installed sewer lines.
- Includes all items needed to conduct the test except an air compressor and two pipe plugs.

Product No.	Description
253398	Air-Loc® Line Acceptance Kit

Cherne® Smoke Blowers

Product No.	Description	Ctn. Qty.
303008	Smoke Fluid Smoke Blower Kit: Briggs & Stratton Engine	1
303550	Smoke Candle Smoke Blower Kit: Briggs & Stratton Engine	1

TEST EQUIPMENT, DRAIN FLUSHERS, AND ACCESSORIES

Cherne® Residential Smoke Blower

- Honda engine; 122CC, 3.5 HP, 4 Stroke, >700 CFM
- 5' heavy duty hose with 4" diameter
- Vibration damping – minimize excess movement
- Can be used indoors – exhaust is pumped through plumbing
- Long lasting, dense smoke

Product No.	Size	Description	UPC	Ctn. Qty.
303078		Plumbing Smoke Blower	675115034587	1

Cherne® Econ-O-Pump™ Test Pump

- Low cost version for the infrequent user.
- 0-140 PSI gauge.
- Traditional thumb lock.
- All metal construction.

Product No.	Size	Description	UPC	Ctn. Qty.
273888		Econ-O-Pump™ Test Pump	675115273887	1

Cherne® Air-Max® Test Pumps

- Gauge raised from base for protection.
- 0-100 PSI gauge.
- Durable steel barrel.
- Textured steel base prevents feet from slipping.
- Durable, no-kink hose.

Product No.	Size	Description	UPC	Ctn. Qty.
034588		Replacement Hose Assembly w/Thumb Lock	675115034587	1
273958		Air-Max® Test Pump	675115273955	1

Cherne® Air-Max® Pro HV Test Pumps

- Large barrel for maximum volume means fewer strokes to inflate plug.
- 0-60 PSI gauge for most accurate plug pressure readings.
- All-metal thumb lock for durability.
- Hose strain relief to transfer tension from hose to the barrel.
- Forged steel barrel for extra toughness.
- Large, three-point base for maximum stability.
- Rubber cover to protect gauge from damage.
- Solid wood handle for greater comfort and durability.
- Durable, no-kink hose.

277048	Replacement O-rings (Pack of 10)	1

Cherne® Extension Hose With Gauge, 3/16" ID

- Recommended for use with plugs up to 15" in diameter.
- Ideal for plumbing applications
- Standard Schrader valve connections.
- 3/16" ID hose.
- 0-100 PSIG gauge.

Product No.	Description	Ctn. Qty.
274218	5' Hose With Gauge 3/16" ID	1
274228	10' Hose With Gauge 3/16" ID	1
274238	20' Hose With Gauge 3/16" ID	1
274248	30' Hose with Gauge 3/16" ID	1
274268	50' Hose with Gauge 3/16" ID	1
274298	100' Hose with Gauge 3/16" ID	1

TEST EQUIPMENT, DRAIN FLUSHERS, AND ACCESSORIES

Cherne® Hi-Flow Poly Lift Line with and without Gauge

- Greater Lifting Strength.
- Recommended for plugs 6" to 48".
- Retard gauge: helps prevent "peg-out" damage.
- Heavy-duty rubber gauge cover protects gauge.
- 3/8" heavy-duty ID hose for quick inflate/deflate.
- Quick-dump valve for easy deflation.
- Industrial quick disconnect.
- Designed for use with plugs with removable inflator valve.

Product No.	Description	Ctn. Qty.
380108	10' Hi-Flow Hose, w/o Gauge, 3/8" ID	1
380208	20' Hi-Flow Hose, w/o Gauge, 3/8" ID	1
380308	30' Hi-Flow Hose, w/o Gauge, 3/8" ID	1
380408	40' Hi-Flow Hose, w/o Gauge, 3/8" ID	1
380508	50' Hi-Flow Hose, w/o Gauge, 3/8" ID	1
048468	0-60 psi, 2.5" Dial, Plug Pressure Gauge With Retarded Increments To 160 Psi With Cover	1
053458	0-60 psi, 2.5" Dial, Plug Pressure Gauge With Retarded Increments To 160 Psi	1

Cherne® Super-Flow Hose with Gauge

- Designed for large diameter multi-size plugs - (24"-48" to 54"-96").
- 3/4" Heavy-duty hose for both durability and faster deflation.
- Retard gauge: Helps prevent gauge "peg-out".
- Heavy-duty rubber gauge cover protects gauge.
- Utilizes traditional "crow's foot" air compressor fittings.
- Quick dump valve for easy deflation.

Product No.	Description	Ctn. Qty.
341208	20' Super-Flow Hose, w/ Gauge, 3/4" ID	1
341308	30' Super-Flow Hose, w/ Gauge, 3/4" ID	1
341408	40' Super-Flow Hose, w/ Gauge, 3/4" ID	1

Cherne® Poly Lift Line - 3/16" ID

- Schrader valve connections.
- Poly rope designed for raising and lowering plug.
- Ideal for plugs 8" and up.
- 3/16" ID hose.
- Snap hook connects to plug eyebolt.

Product No.	Description	Ctn. Qty.
261076	10' Hose With Poly Lift Line, 3/16" ID	1
261084	20' Hose With Poly Lift Line, 3/16" ID	1
261106	30' Hose With Poly Lift Line, 3/16" ID	1
261114	40' Hose With Poly Lift Line, 3/16" ID	1

Category 21

Pans and Stands

Oatey® Aluminum and Plastic Water Heater Pans can be installed under gas or electric water heaters to protect from water damage. Pans are manufactured from prime aluminum or semi-flexible, tough and durable .0625" plastic polymer and are expertly worked to exact specifications under strict quality control. Available with 1" PVC, 1½" PVC or 1" CPVC drain fittings to allow for connection to indirect drain.

PANS AND STANDS

Oatey® Aluminum Water Heater Pan

- Manufactured from prime aluminum and are expertly worked to exact specifications under strict quality control.
- Recommended for gas or electric water heaters.
- Exposed edges have been rolled to protect the installer from injury.
