

QUICK RING

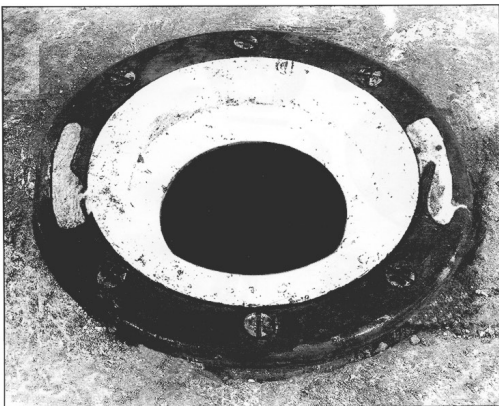

Replaces ANY Closet Ring!

Unique screw tabs attach to wood or concrete.
Plastisol coat provides corrosion protection.
Slotted for 1/4" or 5/16" closet bolt.
Old closet ring does not need to be present.
Replaces any and all closet rings.

INSTALLATION INSTRUCTIONS

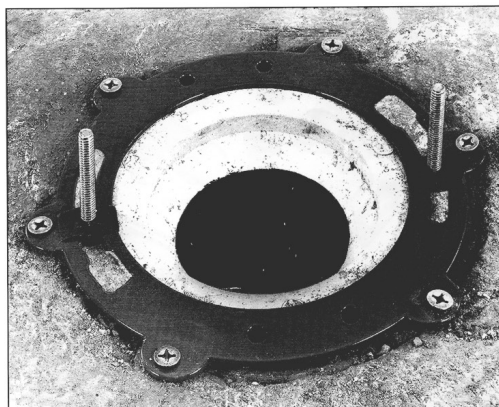

FOR SOLVENT WELDED STEEL/PLASTIC COMBO AND PLASTIC CLOSET RINGS

Remove portion of broken ring, if remaining portion cannot be removed, Quick Ring will mount on top.

Apply a bead of butyl rubber caulk to the underside of the Quick Ring that will mount on top of the old ring.

Set Quick Ring on top of remaining portion of old ring. Note location of old toilet bolt slots. The length of the bolt slots in the Quick Ring allows for some centering of toilet. Secure the Quick Ring to wood or concrete sub floor with screws or anchors.

FOR CAST IRON RINGS

The Quick Ring can be mounted directly on top of an old cast iron closet ring. Drill holes in any remaining portion of cast iron ring that corresponds with holes in Quick Ring. Before securing the Quick Ring with screws, apply a bead of butyl rubber caulk to its underside. Large gaps or spaces around or underneath the closet ring, can be filled with any quicksetting type grouts, cements, etc.

PLEASE NOTE:

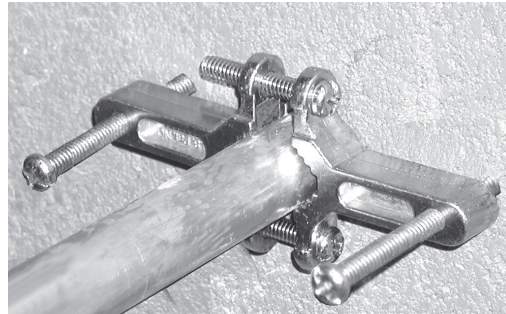

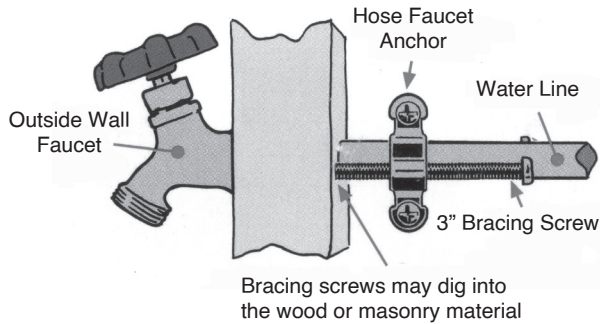

When setting the toilet use the proper wax bowl ring with plastic flange.

Handicap Commercial Grid Style Lavatory Drain

Highest Quality

- Stainless steel strainer
- Stainless steel body
- 1-1/4" x 9" Stainless steel tailpiece
- Stainless steel locknut
- Rubber gasket with overflow

Individually Boxed

PART NUMBER	DESCRIPTION
1177-TP	With Tailpiece

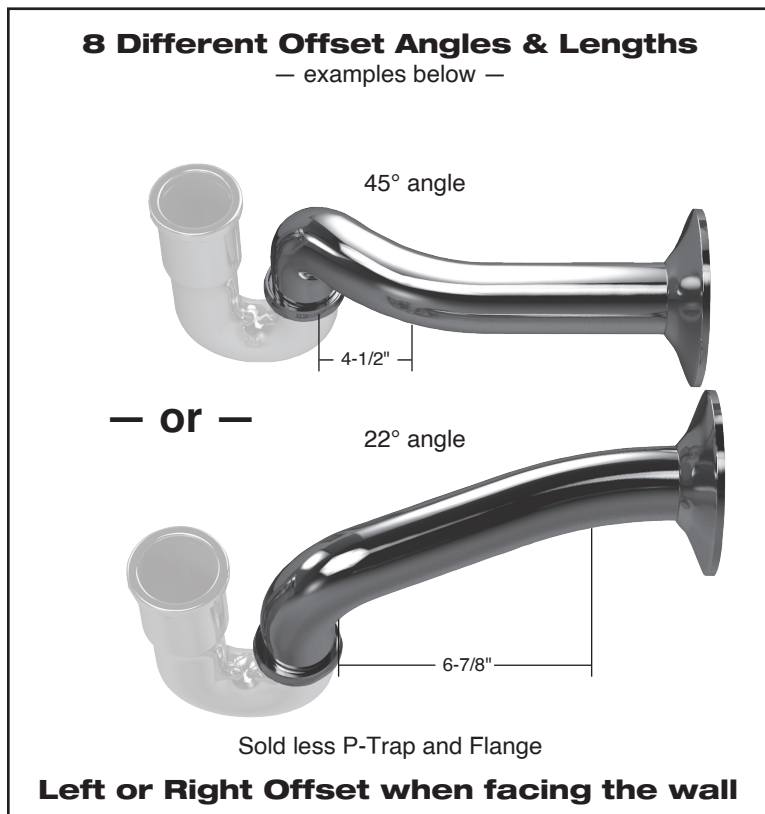

1 1/2" "Freedom Arm" Offset Chrome Plated Brass Tubular Wall Bend

The **PASCO** "Freedom Arm" offers the plumber a simple solution to an age-old plumbing remodeling puzzle.

As a plumber replaces an old sink with a new sink, the new configuration of the sink drain opening, trap and wall bend may not align with the existing waste tee in the wall. The common and past practices of breaking into the wall to move the waste tee, or even soldering unsightly pieces of copper together to achieve the proper degree of offset for the wall bend, are now just that... PAST.

The 8 different offset designs of the "Freedom Arm" will, for the most part, eliminate the frustrating and time consuming practices mentioned above. The "Freedom Arm" was designed by a plumber for the plumber.

The eight models of the "Freedom Arm" cover left or right offsets (as the plumber faces the wall), 22 or 45 degrees of offset and either a short or long version of the straight run of the wall bend, which allows for the difference in the distance between sink trap and the wall.

Features:

- 17 Gauge CP Bass
- Supplied with CP Brass SJ Nut and Square Cut Rubber Washer
- Sold without P-Trap and Flange
- Individually Bagged with ID Card Indicating Offset and Degree of Offset
- Professionally Designed for a Professionally Finished Installation

8 Sizes & Offsets
— listed on the following page —

1 1/2" 17 Gauge Left or Right Offset CP Brass Wall Bends

Measurements are from p-trap outlet to wall, when facing the wall.

2045	Hook-Up Kit
2056-25	25' Poly Tubing ONLY

Copper Tubing

KIT CONTAINS

- 1. 1/4" x 25' Copper Tubing
- 1. Self piercing needle valve
- 1. 1/4" Compression union
- 1. 1/4" Compression male
- 1. 1/4" 90° Compression elbow

Copper Tubing

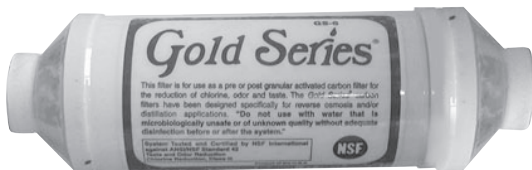

PART NUMBER	SIZE
2049	Copper Hook-Up Kit ONLY
2059-25	25' Copper Tubing ONLY

Granulated Carbon Filter

Filters contain granulated carbon for taste and odor removal from municipal drinking water.

SPECIFICATIONS:

- Container - Polypropylene
- Media- Activated Carbon
- Filter/Screen - Polyester Felt
- Micron Size - 20
- Flow Rate - 1 GPM @ 60 PSI
- Life Span - 3-6 months
- Effective Filterings - 2000 gal.
- Temp Rating - 120° F
- Pressure Rating - 125 PSI

PART NUMBER	SIZE
2060	Use 1/4" Compression Fittings
2060-38	Use 3/8" Compression Fittings

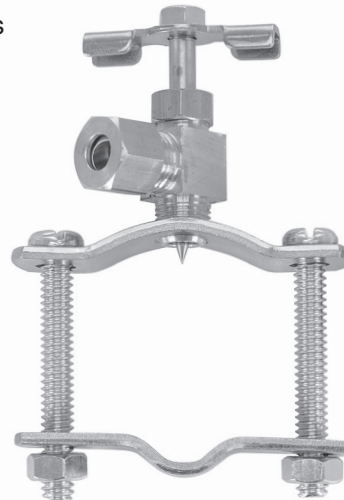

Self-Piercing Needle Valve

For 1/4" To 1" Copper Tube

KIT CONTAINS:

- 1. Needle valve
- 1. Saddle clamp
- 2. Nuts
- 2. Bolts

PART NUMBER
2162

Compliant: Lead Leaching AB 100

Low Lead AB 1953
