# GLUE SKILLETS / SKILLET GLUE "LESS STRINGING"

Glue skillets are very easy to use and are great for bulk gluing, wreath making, floral work, group crafting and so much more. You can complete your projects quickly by dipping your materials; flower stems, pine cones, etc. into the heated skillet glue and place onto your project.

1. ADD SKILLET GLUE
2. TURN ON & ADJUST HEAT
3. DIP YOUR MATERIAL
4. PLACE ONTO PROJECT

## 805 4" DIAMETER SKILLET

- High temperature
- Simply plug in and glue
- Uses: Skillet glue

## 803 5" DIAMETER ADJUSTABLE TEMP SKILLET

- Adjustable temp from 220° F to 400° F
- Lighted on/off switch
- Uses: Skillet glue

## SS-2 STIR STICKS

- Made of non-stick Teflon
- Perfect for stirring melted glue and assisting placing craft materials onto projects

## SKILLET GLUE

- For use with SUREBONDER's glue skillets (803 & 805)
- High strength for superior bonding with **less stringing**
- Perfect for making floral arrangements
- Available in retail or bulk packaging

This product was designed with less packaging for environmental sustainability.

# COOL SHOT™

CORDLESS

BATTERY OPERATED

The Cool Shot™ hot glue and glue gun system is designed to work at a super low temperature and yet still provide the best bond. The glue gun operates at a very low temperature and the glue is formulated to start melting at that low temperature, making it one of the safest options to work with. This system is ideal for school projects, small crafts or working with delicate materials such as specialty papers, lace, foil and more.

FOR A SAFER BOND!™

## COOL SHOT™ MINI SIZE GLUE GUN & KIT
