SHARKBITE

THE MARK OF QUALITY

Lead-Free/Safety*

All SharkBite fittings are made of Lead Free DZR Brass and exceed ASSE 1061 Section 1V, 4.1 Materials-Dezincification (DZR)-ISO 6509 standards.

**Reference Page 26 for additional information.*

Versatile

The ultimate range of push-to-connect plumbing fittings—the SharkBite Connection System has really taken hold with its ability to join Copper, CPVC, PEX or PE-RT pipe in any combination.

Proven and Guaranteed

In 1999, SharkBite became the first push-to-connect fitting to be release into the market. Manufacturing 100% of the components to our fittings and never outsourcing production to a 3rd party, we own the entire manufacturing process. All products are stamped with a manufacturing date and as of 2015, \$75M has been invested towards improvement and additions to our products. With over 1.5M successful SharkBite connections made each week, SharkBite continues to be the market leader in “push-to-connect” products.

No Tools

No glue, solder, clamps or unions required when using SharkBite fittings, providing a quick and easy application that saves installers time, labor, and money.

Flexibility

SharkBite fittings can be rotated even after assembly allowing for easier installation in tight places.

Range

With the largest range of fittings in the industry, SharkBite SKU selection carries sizes ranging from 1/4”-2”.

Certifications

- Approved to be used underground and behind walls without access panels
- Fittings are certified to 200 °F (93 °C) max and 200 PSI max
- Design certified to ANSI/NSF-61 and ASSE 1061 product standard for use in potable water and hydronic heating water distribution

SHARKBITE

PUSH-TO-CONNECT PRODUCTS

The ultimate range of push-to-connect plumbing fittings—the SharkBite® Connection System has really taken hold with its ability to join Copper, CPVC, PEX or PE-RT pipe in any combination—with no solder, clamps, unions or glue. From residential service & repair to commercial new construction, SharkBite plumbing solutions provide a quick and easy application that saves installers time, labor and money, and the freedom to move on to the next project.

SharkBite continues to develop a hallmark of push-to-connect plumbing solutions for professional contractors and DIYers alike, and also features an extensive range of PEX Pipe in a wide range of colors and sizes to suit specific applications for use with both hot and cold water.

Use for new installation and repair of potable water distribution systems. See Certifications on back cover.

PRODUCT DESCRIPTION	PART NUMBER
THE SHARKBITE® CONNECTION SYSTEM	
CORE FITTINGS	
COUPLINGS	
1/4" (3/8" OD) X 1/4" (3/8" OD)	U004LF
3/8" (1/2" OD) X 3/8" (1/2" OD)	U006LF
1/2" X 1/2"	U008LF
3/4" X 3/4"	U016LF
1" X 1"	U020LF
REDUCING COUPLINGS	
1/4" (3/8" OD) X 1/2" Reducing Lead Free	U050LF
3/8" (1/2" OD) X 1/2" Reducing Lead Free	U009LF
3/4" X 1/2" Reducing	U058LF
1" X 3/4" Reducing	U060LF

SLIP FITTINGS

SharkBite Slip Couplings and Tees are ideal for repairing and tapping into existing rigid pipe lines. The Slip feature ensures the pipe is fully engaged into the fitting when the pipe is in a fixed position. Slip end is only suitable for use with Copper and CPVC pipe.

SLIP COUPLINGS (SLIP END ONLY SUITABLE FOR COPPER AND CPVC)

Slip Couplings are the most efficient way to repair a burst pipe or leak. Slip fittings simply repair by doing the job that two couplings and extra pipe used to do. Only one end of the coupling has a stop, allowing the opposite end to slide freely over the end of a pipe. The fittings can then be released with a disconnect tool and slid back onto the other end of the pipe for a successful connection and leak repair.

1/2" X 1/2"	U3008LF
3/4" X 3/4"	U3016LF
1" X 1"	U3020LF

SLIP TEES (SLIP END ONLY SUITABLE FOR COPPER AND CPVC)

Slip Tees are a great solution for tapping into existing pipe where additional supply lines are needed. Easily add an ice maker or dishwasher line using in conjunction with SharkBite Straight and Angle Stops.

1/2" X 1/2" X 1/2"	U3362LF
3/4" X 3/4" X 3/4"	U3370LF

FEMALE CENTRE SLIP TEES (SLIP END ONLY SUITABLE FOR COPPER AND CPVC)

1/2" X 1/2" X 1/2" FNPT Female Center Lead Free	U3482LF
3/4" X 3/4" X 3/4" FNPT Female Center	U3486LF

SERVICE SLIP TEE ADAPTER (SLIP END ONLY SUITABLE FOR COPPER AND CPVC)

1/2" X 1/2" X 1/2" CTS Tail Adapter Service Line Tee (CTS end inserts into any 1/2" SB fitting)	U4482LF
---	---------

HOW TO INSTALL SHARKBITE PUSH-TO-CONNECT PRODUCTS

CUT:
Cut the pipe square removing rough edges and debris. Mark the pipe to the correct insertion depth.

PUSH:
Push pipe and fitting together up to the depth mark.

DONE.

*Using the disconnect clip, fittings can be easily changed, removed and reused.

KITS	
WATER HEATER INSTALLATION KITS (KITS INCLUDE 2 SHARKBITE CONNECTOR FITTINGS AND A DISCONNECT CLIP)	
1/2" X 3/4" FNPT	22604LF
3/4" X 3/4" FNPT	22441LF
CONTRACTOR KITS (KIT INCLUDES ORANGE TOOLBOX)	
These SharkBite Kits include a variety of push-to-connect fittings, disconnect tongs and clips, and a sturdy case for storage and transport.	
Contractor Kit: 2 each (U008LF, U016LF, U058LF, U072LF, U088LF, U120LF, U134LF, U248LF, U256LF) and 1 each (U362LF, U370LF, U514LF, U518LF, U710, U711, U713 and U702)	22486LF
Contractor Tool Box Only	U3001A
FAUCET KIT	
Faucet kits come with 2 faucet connectors, 2 straight or angle stops and 2 coils of 5' 1/4" PEX Pipe.	
Faucet Kit in Retail Bag	25087
TOILET KIT	
Toilet kits come with 1 toilet connector, 1 straight or angle stop and 1 coil of 5' 1/4" PEX Pipe.	
Toilet Kit in Retail Bag	25088
ICE MAKER CONNECTION KIT	
Ice Maker Kit in Retail Bag	25024
ICE MAKER OUTLET BOX KIT	
1/2" SB X 1/8" Compression Ice Maker Outlet Box	25096
1/2" SB X 1/8" Compression Ice Maker Outlet Box With Water Hammer Arrestor	25097
WASHING MACHINE OUTLET BOX KIT	
1/2" SB X 3/4" MHT Washing Machine Outlet Box	25098
1/2" SB X 3/4" MHT Washing Machine Outlet Box With Water Hammer Arrestor	25099

ADDITIONAL PRODUCTS	
MANIFOLDS WITH PUSH-TO-CONNECT BRANCHES	
Manifolds are traditionally used in PEX systems, but this SharkBite manifold will allow easy incorporation into Copper or CPVC systems. Use SharkBite push-to-connect fittings to install these manifolds anywhere in a plumbing system. All manifolds have a 1" trunk with 3/4" tube inlets and outlets and 1/2" push-to-connect ports (2" on center).	
3 Port - Open 1" trunk, 3/4" X 3/4", 3 - 1/2" branches 2" on center	22995LF
3 Port - Closed 1" trunk, 3/4" X Spun Closed, 3 - 1/2" branches 2" on center	22996LF
4 Port - Open 1" trunk, 3/4" X 3/4", 4 - 1/2" branches 2" on center	22997LF
4 Port - Closed 1" trunk, 3/4" X Spun Closed, 4 - 1/2" branches 2" on center	22998LF
WATER HAMMER ARRESTORS	
Proves maintenance free, continuous protection against water hammer. The arrestor can be positioned vertically or horizontally and installed in seconds using SharkBite connectors.	
1/2" Residential	22630LF
1/2" Commercial	22631LF
3/4" Residential	22632LF
1" Commercial	22633LF

FLEXIBLE CONNECTORS

The SharkBite Flexible Connectors are used in residential and commercial applications to easily connect pipe in any combination. The connectors are EPDM knitted with braided stainless steel. The SharkBite fitting allows the installer to connect to Copper, CPVC and PEX Pipe eliminating the need for an additional transition fitting.

BRAIDED FLEXIBLE WATER HEATER CONNECTORS	
The SharkBite Water Heater Connectors are used in residential and commercial applications to connect the hot and cold supply lines to the water heater. The connectors are available in 12", 15", 18" and 24" lengths (with and without ball valve).	
1/2" X 3/4" FIP, 12" Stainless Steel Braided Water Heater Connector	U3068FLEX12LF
1/2" X 3/4" FIP, 15" Stainless Steel Braided Water Heater Connector	U3068FLEX15LF

STOPS & FIXTURE SUPPLY FITTINGS

Connecting supply lines to fixtures and appliances using these new SharkBite products brings the speed and convenience of push-to-connect connections to the final phase of your plumbing jobs. Regular and chrome plated fittings are now available, including the newest 1/2" X 1/4" (3/8" OD) SharkBite stop valves. Stops in 1/2" X 3/8" or 1/4" compression sizes are also available. With these new SharkBite push-to-connect fittings, stop valves and the 5' lengths or 50' coils of 1/4" (3/8" OD) PEX Pipe, it's easy to make risers the exact length needed for connecting fixtures and appliances. No more problems with flexible lines that are too long or too short.

ANGLE STOPS

PRESSURE REGULATING VALVES

The innovative, labor reducing EB25 and the EB45 pressure reducing regulators are available with double union and direct SharkBite connectors. The EB25 is set at 45 psi and features a twist cap with a numerical pressure indicator for easy one-man adjustment. The EB45 is factory set at 45 or 60 psi and is adjustable to 10-70 psi.

THERMOSTATIC MIXING VALVES

Direct or double union SharkBite push-to-connect connectors provide a simplified, time and labor saving installation. Heatguard® valves deliver water at a safe 120°F (49°C) or lower from all outlets, while allowing the thermostat to be set at a germ-killing 140°F (60°C) or higher which aids in preventing the growth of legionella bacteria in the water heater. The higher tank temperature means hot water demands can be satisfied longer. Every valve is tested for performance and includes a unique adjuster tool that minimizes tampering with the valve setting. Rugged, simple construction incorporates a precise engineered polymer piston and the latest in thermostatic technology.

SHARKBITE® PEX BARB FITTINGS

PEX BARB CORE FITTINGS

The SharkBite PEX/Barb Connection System is the best option for connecting PEX Pipe in water distribution systems when lower material cost is desired. Robustly constructed with Lead Free DZR brass, the SharkBite Barb fittings are corrosion resistant. With a wide range of fittings, manifolds, valves, clamp rings, crimp rings, ball valves and tools available, the SharkBite PEX/Barb Connection System is perfect for your next plumbing project.

MADE IN THE USA

SharkBite® PEX Pipe is a cost effective piping solution approved for use in both hot and cold plumbing installations. Meeting the highest chlorine resistance standards and utilizing the most energy efficient manufacturing processes, our PEX Pipe is proudly produced in Alabama. We own our manufacturing process from start to finish, so every piece of SharkBite PEX Pipe is guaranteed from concept to delivery.

PEX Pipe was introduced to North America in 1984 based on European market success, and was tested extensively for durability and material performance. All USA-installed PEX Pipe must meet the qualification requirements as specified in the ASTM PEX Standards. SharkBite PEX Pipe can bend up to six times the outside diameter of the pipe—which is the maximum bend radius recommended by PEX Pipe manufacturers.

SharkBite PEX Pipe can be used in a variety of applications including:

- Fire suppression systems (residential fire sprinklers)
- Municipal water service pipe for use in underground applications
- Radiant heating systems for suspended floor systems or in slab construction
- Snow and ice melt systems for sidewalks, driveways, entrances, and ramps
- Turf conditioning for greenhouses, golf courses, and sports fields
- Water reuse and reclamation systems

Discover the flexibility of SharkBite PEX Pipe.

Benefits of SharkBite® PEX

Health/Safety

No glue, solder, or solvents required for the connection process, which keeps potentially dangerous chemicals out of plumbing systems. Additionally, SharkBite PEX Pipe eliminates the need for open flames in the house that could be a potential fire hazard. There is no risk of copper traces in water from breakdown of pipe that has been linked to heart disease and Alzheimer's.

Versatile

SharkBite PEX Pipe can be installed in dry or wet conditions. SharkBite PEX Pipe can lend itself to many applications due to its physical properties of flexibility, reliability and installation ease such as hydronic heating, fire protection, etc.

Chlorine Resistance

SharkBite PEX Pipe is tested to the highest level of chlorine resistance standards, testing at 100% chlorine at 140°F.

Proven and Guaranteed

SharkBite PEX Pipe has been around for more than 35 years with over 12 Billion feet of tubing installed worldwide.

Freeze Resistant

SharkBite PEX Pipe is freeze resistant as the pipe can expand and contract as water freezes and thaws within the pipe.

Flexibility

Able to bend pipe around corners which removes the need for 45° or 90° elbows in certain situations. SharkBite's new coiling process increases the flexibility of our coiled pipe even more.

Cost Effective

SharkBite PEX Pipe is substantially more cost effective than Copper pipe—SharkBite PEX Pipe costs a third of the price of Copper. SharkBite PEX Pipe is a fixed cost as prices don't fluctuate daily like Copper pipe.

PRODUCT DESCRIPTION	PART NUMBER	PART NUMBER	PART NUMBER
SHARKBITE® PEX PIPE			

SharkBite PEX Pipe is a cross-linked polyethylene pipe for a wide range of residential and commercial plumbing applications. Manufactured without an oxygen barrier for potable water systems and with an oxygen barrier for radiant floor and hydronic heating applications. A repeating SharkBite imprint pattern provides a visual aid to determine if the pipe has been inserted all the way into the SharkBite Push-to-Connect Fitting. This feature only works if the pipe is cut between the SharkBite imprint pattern.

APPROVALS: The SharkBite pipe with and without oxygen barrier is approved for use in all model codes in the US and Canada for use in hydronic and potable water systems and is certified to the following standards: ASTM F876, ASTM F877, CSA B137.5 and AWWA C904.

PRODUCT DESCRIPTION	PART NUMBER
SPECIAL APPLICATION PEX PIPE	
RECLAIMED WATER PEX PIPE (FOR USE WITH GRAY WATER, RAINWATER HARVESTING AND RECLAIMED WATER SYSTEMS ONLY. AVAILABLE IN 100 AND 300 FOOT PURPLE COILS RANGING IN SIZE FROM 1/2" – 1".)	
SharkBite Reclaimed Water PEX is cross-linked polyethylene pipe for gray water, rainwater harvesting and reclaimed water systems only. Manufactured with a purple color background, the pipe meets color code requirements of national and state code bodies to clearly identify reclaimed water lines. SharkBite Reclaimed Water PEX is manufactured and is available in 1/2" to 1".	
1/2" 100' Coil Purple Pipe	U860P100
1/2" 300' Coil Purple Pipe	U860P300
3/4" 100' Coil Purple Pipe	U870P100
3/4" 300' Coil Purple Pipe	U870P300
1" 100' Coil Purple Pipe	U880P100
1" 300' Coil Purple Pipe	U880P300
OXYGEN BARRIER PEX PIPE (COILS AVAILABLE IN 100, 300, 500 AND 1000 FOOT COILS RANGING IN SIZE FROM 3/8" – 1".)	
Use for underfloor radiant and hydronic heating applications. The oxygen diffusion barrier is applied to the exterior and limits oxygen permeation through the pipe wall in hydronic heating applications. This prevents corrosion of ferrous metal parts in the heating system.	
3/8" 100' Coil PEX Pipe Orange Color w/ Black Text	U8550100
3/8" 300' Coil PEX Pipe Orange Color w/ Black Text	U8550300
3/8" 500' Coil PEX Pipe Orange Color w/ Black Text	U8550500
1/2" 100' Coil PEX Pipe Orange Color w/ Black Text	U8600100
1/2" 300' Coil PEX Pipe Orange Color w/ Black Text	U8600300
1/2" 500' Coil PEX Pipe Orange Color w/ Black Text	U8600500
1/2" 1000' Coil PEX Pipe Orange Color w/ Black Text	U86001000
5/8" 300' Coil PEX Pipe Orange Color w/ Black Text	U8650300
3/4" 100' Coil PEX Pipe Orange Color w/ Black Text	U8700100
3/4" 300' Coil PEX Pipe Orange Color w/ Black Text	U8700300
3/4" 500' Coil PEX Pipe Orange Color w/ Black Text	U8700500
3/4" 1000' Coil PEX Pipe Orange Color w/ Black Text	U87001000
1" 100' Coil PEX Pipe Orange Color w/ Black Text	U8800100
1" 300' Coil PEX Pipe Orange Color w/ Black Text	U8800300
1" 500' Coil PEX Pipe Orange Color w/ Black Text	U8800500
OXYGEN BARRIER PEX PIPE (STRAIGHT LENGTHS AVAILABLE IN 20 FOOT STICKS RANGING IN SIZE FROM 1/2" – 1".)	
Use for radiant floor and hydronic heating applications. The oxygen diffusion barrier is applied to the exterior and limits oxygen permeation through the pipe wall in hydronic heating applications. This prevents corrosion of ferrous metal parts in the heating system.	
1/2" 20' Length O2 barrier PEX Pipe Orange Color	U860020
3/4" 20' Length O2 barrier PEX Pipe Orange Color	U870020
1" 20' Length O2 barrier PEX Pipe Orange Color	U880020

HOW TO INSTALL SHARKBITE PEX BARB PRODUCTS

CUT:
Cut the pipe square removing rough edges and debris.

SET:
Slide the ring over the pipe and insert the fitting. Make sure the ring is 1/8" - 1/4" from the edge of the pipe.

PRESS:
Apply pressure to secure the ring over the pipe and fitting.

DONE.

LIMITED WARRANTY

SharkBite® And Cash Acme® Products

WHAT DOES THIS WARRANTY COVER?

Subject to conditions outlined in this statement, RWC (in the USA, Reliance Worldwide Corporation® and in Canada, Reliance Worldwide Corporation (Canada) Inc.) warrants to owners of real property in the United States and Canada that SharkBite® and Cash Acme® products, when used and installed in accordance with the requirements set forth below, to be free from defects in material and workmanship for the applicable Warranty Period. This Limited Warranty is in effect for installations made after July 1, 2015 and is applicable to product installed in the country it was purchased.

Proof of purchase is required to validate the warranty period; if proof of purchase is not available, the warranty period shall default to the date of manufacture for each product.

WHAT ARE THE CONDITIONS OF THIS WARRANTY?

1. All products must be installed in accordance with all then applicable codes, good plumbing practice, in accordance with any local, state, provincial or federal requirements, and installed in a potable water or radiant heating application unless a non-potable water service is specifically allowed for in the pertinent product literature.
2. The installing contractor must use construction techniques compliant with then applicable codes to install the range of products and use the product(s) within the design parameters specified in any installation guidelines and technical notes for the applicable system. This shall include field pressure testing prior to concealing with concrete or by other means. Failure to install RWC products according to manufacturer's installation instruction will void all applicable warranties and may result in severe water damage.
3. Products must not be installed in a system that may operate at temperatures or at pressures that exceed the printed rating on the product, packaging or installation instructions.
4. Without limiting the foregoing, this Limited Warranty does not apply if the product failure or resulting damage is caused by: (a) evidence of tampering, mishandling, neglect, accidental damage, freeze damage (it is expressly understood that failure as a result of any freezing fluids within the pipes does not constitute a defect in material or workmanship and shall not be covered by this warranty) or unauthorized modifications or repairs that cause damage to RWC warranted products; (b) exposure to harmful, unauthorized, or unanticipated chemicals or substances or corrosive water conditions; (c) exposure to ultraviolet light; (d) faulty installation including failure to follow proper burial instructions; (e) damage from faulty operating conditions; (f) components not manufactured or sold by RWC; and (g) acts of nature such as earthquakes, fire, flood or lightning.
5. Although RWC provides a plumbing system to facilitate a complete installation, other manufacturers pipe and/or fittings may be installed in any given installation provided manufacturing of the pipe and/or fittings demonstrates compliance with the applicable ASTM/CSA standards, and the product has been certified by a recognized third-party testing agency. The RWC product in the given installation will continue to be covered under this Limited Warranty although limits on Warranty Period may apply. RWC will be responsible only for proven defects in material or workmanship in RWC products. Problems in products manufactured by another company should be reported to that manufacturer. RWC does not warrant the integrity or workmanship of the contractor/installer.

HOW DO YOU GET SERVICE?

In order to be eligible for service under this Limited Warranty you must return the defective product within thirty (30) days after detection of alleged failure or defect occurring within applicable warranty period (with shipping charges prepaid) to the original place of purchase. You also must include the model number of the product, the original date of purchase, proof of purchase and the nature of the problem. Products returned without shipping charges prepaid will be refused. For questions or inquiries to the Manufacturer, in the U.S. call 1-877-700-4242 and in Canada 1-888-820-0120.

WHAT WILL RWC DO?

If, after inspection, we find that a product covered by this limited warranty has failed due to a defect in material or workmanship during the specified warranty period, we will repair or replace, at our sole option, free of charge, the defective product during normal working hours and through a place of business as determined by RWC. This shall constitute the sole and exclusive remedy for any defective product.

WHAT DOES THIS LIMITED WARRANTY NOT COVER?

RWC shall not be responsible for any incidental, indirect, contingent, special or consequential damages, including without limitation, lost profits or the cost of repairing or replacing other property which is damaged if these warranted products do not work properly, other costs resulting from labor charges, delays, vandalism, negligence, fouling caused by foreign material, damage from adverse water conditions, adverse chemical environments, or any other circumstances over which RWC has no control. This limitation applies even if RWC could have foreseen or has been advised of the possibility of these damages. This Limited Warranty shall be invalidated by any abuse, misuse, misapplication or improper installation of the product.

HOW DOES STATE/PROVINCIAL LAW APPLY?

Some States/Provinces do not allow limitations on how long an implied warranty lasts, and some States/Provinces do not allow the exclusion or limitation of incidental or consequential damages. Therefore, the above limitations may not apply to you. This Limited Warranty gives you the specific legal rights, and you may have other rights that vary from State/Province to State/Province. You should consult applicable State/Provincial laws to determine your rights.

SO FAR AS IS CONSISTENT WITH APPLICABLE STATE/PROVINCIAL/FEDERAL LAW, THE EXPRESS WARRANTY SET FORTH HEREIN IS THE ONLY WARRANTY GIVEN BY RWC WITH RESPECT TO THE SharkBite® AND CASH ACME® PRODUCTS AND RWC MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, AND HEREBY SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

HOW LONG DOES THE LIMITED WARRANTY COVERAGE LAST?

CATEGORY	SUBCATEGORY	WARRANTY PERIOD (FROM COMMENCEMENT DATE)	COMMENTS
SharkBite Universal Brass Push-To-Connect Fittings And SharkBite 2XL Large Diameter Push-To-Connect Fittings	Fittings	Twenty-Five (25) Years	Shall be used with: Copper–ASTM B 88 hard drawn Copper tube K, L, and M PEX–ASTM f876/CSA b137.5 CPVC–ASTM D2846 or CSA B137.6 PE-RT–ASTM F2769
	Fittings	Five (5) Years	Shall be used with: HDPE SDR-9 ASTM D2737
SharkBite PEX Pipe	–	Twenty-Five (25) Years	Shall be used with: ASSE 1061, ASTM F1807, ASTM F2098, OR ASTM F2159 FITTINGS
SharkBite Barb Fittings	Brass PEX Barb Fittings/ Copper Manifold	Five (5) Years	Shall be used on: PEX – ASTM F876/CSA B137.5 Copper Crimp Rings – ASTM F1807 Stainless Steel Clamp Rings – ASTM F2098
	Poly PEX Barb Fittings	Five (5) Years	Shall be used on: PEX – ASTM F876/CSA B137.5 Copper Crimp Rings – ASTM F2159
	PEX Barb Tools	One (1) Year	From date of purchase.
Cash Acme® Products	Thermostatic Mixing Valves	Five (5) Years	Shall be installed per installation instructions.
	Other Cash Acme®	Two (2) Years	Shall be installed per installation instructions.
Valves with SharkBite Push-To-Connect Connections	Ball Valves, Supply Hoses, Supply Stops	Two (2) Years	Shall be installed per installation instructions.
Valves with SharkBite Push-To-Connect Connections Continued	Thermostatic Mixing Valves	Five (5) Years	Shall be installed per installation instructions.
	Other Cash Acme®	Two (2) Years	Shall be installed per installation instructions.
	SharkBite Connection	Twenty-Five (25) Years	Shall be used with: Copper - ASTM B 88 HARD DRAWN Copper Tube Type K, L, AND M PEX – ASTM F876/CSA B137.5 CPVC - ASTM D 2846 OR CSA B137.6 PE-RT - ASTM F2769
	SharkBite Connection	Five (5) Years	Shall be used with: HDPE SDR-9 ASTM D2737

SHARKBITE®

PUSH-TO-CONNECT FITTINGS

- The SharkBite push-to-connect range is made from Lead Free DZR Brass and all products were converted as of October 2012.
- The standard material versions of SharkBite push-to-connect fittings are no longer in production, but we do continue to offer a small range of 5/8" fittings in standard material, specifically intended for radiant heating applications. As a running change, these fittings will be converted to Lead Free in due course.
- Our SharkBite 2XL Large Diameter fittings have been Lead Free since their introduction in February 2011.

SHARKBITE PEX/BARB FITTINGS

- Our PEX/barb range is made from Lead Free DZR brass and all products were converted as of October 2012.
- We have also implemented an extended range of engineered polymer barb fittings.

**LEAD
FREE***

Lead Free
Sin Plomo
Sans Plomb

As of January 2014 a new Federal law came into effect that introduced a similar requirement across the whole country.

More information is available on our websites at:

www.cashacme.com

www.sharkbite.com

In this document, products are marked "Lead Free" or "Non-Potable" as applicable.

- "Lead Free" indicates that a product is suitable for use in an application that is anticipated or intended to deliver water for human consumption.
- "Non-Potable" designates that a product is only suitable for applications that are not anticipated or intended to deliver water for human consumption.

If a product is not marked "Lead Free" or "Non-Potable" it is either:

- Not designed to come into contact with water (e.g. tools, crimp rings, pipe hangers), or
- It is a replacement part or component for a valve or piece of Original Equipment, where it is necessary for the function of that valve or equipment to use the identical specification component with which it was originally designed and certified.

** A device is defined as Lead Free if its wetted surface has a weighted average lead content not exceeding 0.25%.*

CERTIFICATIONS

The SharkBite push-to-connect fittings have been design certified and listed to ASSE 1061/NSF 61. The SharkBite push-to-connect fittings are listed by IAPMO and are certified for potable and hydronic heating water distribution (Note: Glycol mixture for hydronics is acceptable up to and including 100%). The SharkBite push-to-connect fittings have been certified for underground applications and as a manufactured joint without access panels and they meet UPC, IPC and cUPC requirements. Any SharkBite fitting listed as Lead Free is compliant with NSF/ANSI 372. Please consult with local plumbing codes concerning specific applications.

The SharkBite pipe without oxygen barrier is approved for all model codes in the US and Canada for use in potable water systems and is certified to the following standards: ASTM F 876, ASTM F 877, CSA B137.5 and AWWA C904.

The SharkBite pipe with oxygen barrier is approved for use in all model codes in the US and Canada for use in hydronic and potable water systems and is certified to the following standards: ASTM F 876, ASTM F 877, CSA B137.5 and AWWA C904.

Note: The SharkBite push-to-connect fittings are not approved for use with chrome-plated pipe. SharkBite Polybutylene Couplings are designed to work with ASTM D3309 spec polybutylene, do not install onto damaged or decayed PB pipe.
