Smart Cat®

Clay Clumping Power
Just Got Better!

CLUMPING POWER JUST GOT BETTER!

SmartCat® Lightweight Clumping Litter is up to half the weight of traditional clay litters. This high quality clumping + grass formula litter creates a rock hard clump that you have to see to believe. Not only is the clumping unbeatable, this litter is also lightweight. Our technology stops odors on contact, and SmartCat® Lightweight Clumping Litter is 99% dust free. Your cat will thank you for choosing SmartCat® Litter.

"No Smell 🐾 Can't Tell"

Your home shouldn't "tell" on your cats. Our litter eliminates odors because it absorbs liquids and clumps so quickly that odors don't have a chance to release into the air.

Lightweight

SmartCat® Lightweight Clumping Litter is up to 50% lighter than traditional clay litters.

Clumps

Our lightweight clumping litter makes rock hard clumps great for odor control, easy scooping and less waste.

99% Dust Free

You shouldn't have to inhale dust whenever you pour or scoop litter. Your litter box and surrounding area will be cleaner and healthier.

CLAY LITTERS**

LITTER SMART TIPS

At transition use 50/50 mix of new litter with existing litter for one week. After that, use new litter exclusively.

Place litter box(es) in a quiet area with easy access.
Use 1 litter box per cat plus 1 additional box.

Locate boxes where cats will not have to travel far, with at least one box on each floor.

For best results, litter depth should be kept at 3-4 inches after scooping.

TOXOPLASMOSIS & PREGNANCY:

Pregnant women should not clean litter boxes. Toxoplasma gondii is a parasite found in numerous foods, such as raw meat, and it may be present in dirty cat litter. If you own a cat and are concerned about toxoplasmosis, talk to your health care provider.
