Smart Cat®

With clumping action that has
never been seen before!

*Easy Carry,
Easy Scoop,
Easy Cleanup*

MADE IN USA

"No Smell 🐾 Can't Tell"

SmartCat All Natural Litter has no added perfumes or fragrances that could be offensive to cats. Our litter clumps on contact by immediately absorbing urine. This quick clumping action traps the odor-causing bacteria, and odors disappear. Clumps will continue to harden and dry until all liquid is absorbed. SmartCat All Natural Litter works great on fecal odors as well. Your litter box will stay clean and odor free.

Out Clumps Clay, Every Day!™

SmartCat All Natural Litter clumps on contact and will continue to harden until all urine is absorbed. Clumps can easily be scooped within minutes of cat's elimination. Keeping your litter box clean has never been easier!

Breathe Clean 99% Dust Free

SmartCat All Natural Litter is virtually dust free. With no dusty residue, the chance of litter related respiratory issues is greatly reduced. SmartCat All Natural Litter also has a creamy sand-like look and texture that most cats accept easily. This makes transitioning from your old litter to SmartCat All Natural Litter quick and simple.

Lightweight

SmartCat All Natural Litter is 1/2 the weight of most traditional clay litters. This means that 20lbs of SmartCat Litter will go as far as 40lbs of clay litters. You will love how light it is.

100% Grass

Our product is made from 100% grasses grown in the USA. SmartCat All Natural Litter is clay free, fragrance free, biodegradable and renewable.

- ✓ Lightweight
- ✓ Lasts longer
- ✓ Strong performance
- ✓ Save money

Out Clumps Clay
EVERY DAY™

LITTER SMART TIPS

At transition use 50/50 mix of new litter with existing litter for one week. After that, use new litter exclusively.

Place litter box(es) in a quiet area with easy access.
Use 1 litter box per cat plus 1 additional box.

Locate boxes where cats will not have to travel far, with at least one box on each floor.

For best results, litter depth should be kept at 3-4 inches after scooping.

TOXOPLASMOSIS & PREGNANCY:

Pregnant women should not clean litter boxes. Toxoplasma gondii is a parasite found in numerous foods, such as raw meat, and it may be present in dirty cat litter. If you own a cat and are concerned about toxoplasmosis, talk to your health care provider.

1/2 The Weight Of Traditional Clay Litter
