INDOOR/OUTDOOR 5.25" DIAL THERMOMETER

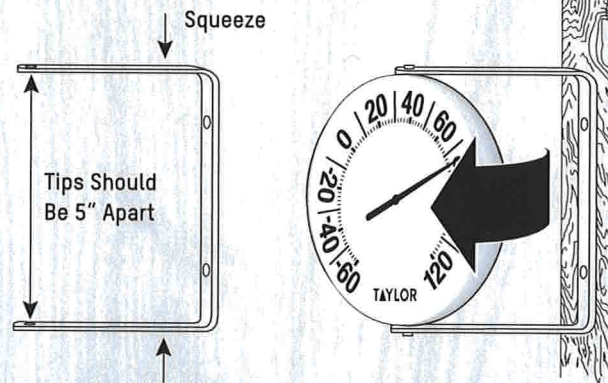

- ■ ■ ■
- Large, easy-to-read graphics
- Mounting bracket and hardware included
- Weather resistant and rust-proof

EXPOSURE: 

Do not mount in direct sunlight, near a heat source, or near a large body of water as these situations could affect the proper air temperature reading. Ultraviolet light from sunlight can prematurely weather the product.

MOUNTING INSTRUCTIONS:

Pull blister tab to open package. Using the two nails provided, fasten the bracket on outside window frame or wherever mounting is desired. Slip thermometer into bracket holes and adjust thermometer to the best angle for easy viewing. Bracket should be tight at top and bottom. If not, remove thermometer and squeeze bracket ends inward slightly. Reinstall thermometer as described above.
