

TAYLOR

INDOOR/OUTDOOR

DECORATIVE 8.5" THERMOMETER

MOUNTING INSTRUCTIONS:

1. Select a location on a wall that is out of direct sunlight
2. Depending on surface material, you may need to pre-drill a hole to install mounting screw. Installation should be made using a 1 1/2" #8 screw (not included). Drive a screw into surface leaving approximately 1/2" protruding.
3. Line up hanger over protruding screw head and slide down until the unit is firmly in place.

EXPOSURE:

Do not mount in direct sunlight, near a heat source, or near a large body of water as these situations could affect the proper air temperature reading.

Mount securely and protected from the wind to prevent against any damage from being knocked off the mounting screw and falling to the ground.

Ultraviolet light from sunlight can prematurely weather the product.
