

VETO PRO PAC®
TOOL BAGS THAT WORK

VETOPROPAC.COM

TOOL BAGS THAT WORK.

TOUGH. DURABLE. FUNCTIONAL.

VETO PRO PAC professional-grade, industrial-strength tool bags are designed by tradesmen for tradesmen. By keeping your tools accessible, organized and protected, you're not wasting time searching for tools. You are keeping the focus where it should be—on the work. And that leads to a GOOD day on the job.

Get a VETO, Get it Done.

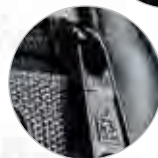

// ERGONOMIC DESIGN

Comfortable, over-molded rubber grip and folding, hinged handle

// RUGGED CONSTRUCTION

Industrial strength double nylon stitching, PVC-impregnated 1800 denier body fabric, and oversized zippers

// MAXIMIZED STORAGE CAPACITY

Patented, sturdy center panel design for balanced weight distribution and vertical, tiered tool pockets for easy identification and access

// MARINE-GRADE RIVETS

Built to stand up to the rigors of professional use

// DURABLE WATERPROOF BASE

3mm thick polypropylene offers wear protection and vertical stability

"Veto's Tech Pac is second to none in quality and protection! That's why I own two of them. They allow me especially safe transport of tools while climbing ladders and fewer trips because of their very large capacity. Fewer trips up ladders means a safer job site, and a job done more quickly and efficiently with no compromises. That's better for me and better for my clients! I'll never be without a Tech Pac again."

*—Matt Mulnix
Bergen Plumbing,
Heating, Cooling, Inc.
Waterloo, Iowa*

The Veto Pro Pac Tech Series offers technicians a better way to organize their tools and increase work efficiency.

Whether you're working on a small job that requires just a few tools, or a large job that's got you walking long distances or lugging all your tools up a ladder, this system of bags is designed to work together to solve any jobsite challenges technicians might face.

TECH-PAC LT

27 TIERED TOOL POCKETS // **4** STORAGE PLATFORMS

H: 19" x **L:** 14" x **W:** 8.5"

The TECH-PAC LT offers a stable, non-tipping platform that features tool storage on the front inside bay, and laptop, tablet and office supplies' storage on the back inside bay. Perfect for service technicians who require tools and technology but need to walk long distances, climb ladders or stairs during their workday.

TECH-LC

53 TIERED POCKETS // **6** ZIPPERED POCKETS

H: 19" x **L:** 13.5" x **W:** 9.5"

This weatherproof, medium-sized service technician's tool bag organizes, stores and protects hand tools, meters, a cordless drill and accessories, making service time quicker and efficient.

TECH-XL

80 TIERED POCKETS // **14** NEOPRENE POCKETS

H: 20.75" x **L:** 16.5" x **W:** 9.5"

Built for work and built to last, this is the service technician's version of the award-winning VETO PRO PAC XL tool bag. The TECH-XL features 80 pockets and plenty of space for hand tools, parts boxes, meters, a cordless impact drill and more.

"I have had many tool bags during the past 22 years, but the Tech LC bag is by far the best tool bag I have ever owned. It takes a beating, and I love the vertical tool storage. I always recommend this tool bag to guys in my trade"

*—Walter Cunningham
HVAC Building
Maintenance Tech
Florida*

"The taller Tech-MCT with full tape clip holder, outside pockets, neoprene pockets, etc. is ideal for HVAC Techs. This bag is obviously well thought out and designed great and it's a compact bag with the ability to hold many many tools. I am able to carry everything I need to respond to and service HVAC equipment. Also, it's able to store 12 inch pump pliers or long screwdrivers. I am definitely a satisfied customer."

*—Emin Yakubov
HVAC Technician
Brooklyn, NY*

TESTO PRODUCTS IN THE TECH MCT:

The TECH OT-MC is a compact "open-top" tool bag with an internal plastic "box", housing a repositionable "insert" box that allows you to customize your storage space options. The TECH OT-MC also features multiple vertical tool pockets for quick & easy access.

SCOT'S VETO BAGS: MC, CT-XL, TP3, TP4, MB, TECH PAC, TECH PAC LT, OT-LG, TECH LG, AND TECH MCT.

"I grew up on a farm, so I was always working with my hands and making repairs with whatever we had available. I liked taking things apart to see how they worked. I decided to go into the HVAC field because it allowed me to solve problems and work with my hands. The prospect of having a different scenery everyday was an added bonus."

—Scot Deckard

Owner, Premiere Mechanical
Fort Wayne, Indiana

**I HAVE BEEN IN THE HEATING AND COOLING
INDUSTRY FOR ALMOST 20 YEARS.**

"I went to school at University of Northwestern Ohio (UNOH) and graduated in 1998, and I have been in the heating and cooling industry since I started college in 1996. I've done new home duct work, replacements, and service. I spent several years working in property management which gave me the opportunity to work on a variety of commercial units."

"When I started my HVAC company I did everything myself. Since then I merged my company with another company to create a larger firm and allows me to focus more on the service end. Service appeals to me because I enjoy diagnosing and solving problems."

"New technology has changed the HVAC industry and requires a new skill set and technical skills. The demand for energy efficient products to combat high energy costs and home automation products is increasing. I like to be on the cutting edge of new technology and new products. I feel it's my duty to educate my customers and present them with all the options to meet their needs."

Veto Pro Pac's Tech Series Tool Pouches offer technicians and contractors multiple options to set up for smaller jobs.

The range includes meter bags, tool pouches and a small cargo pac that store meters, diagnostic, repair and hand tools as well as small tools and parts.

MB

"I have been in the construction trades of plumbing and HVAC for over 17 years and it is one of the most rewarding careers that I can imagine. I have the privilege of helping people with some of their greatest needs and solving their problems. It is an industry that carries with it a great deal of responsibility, and I believe that it really earns us the trust of our valued clients."

"A large part of giving the kind of quality service that Bergen Plumbing prides itself on is being organized and efficient. Jim, a local electrician that I work with always says, 'Fight the job not the van!' and the difference for me is Veto. These are all qualities that we are passing on daily to the next generation of technicians in our industries. I also occasionally do finish carpentry, flooring and tile work which all require quality tools well-maintained and protected."

The list of items project managers and jobsite managers need at their disposal is a lengthy one. Laptop or tablet, camera, safety glasses, calculator... And, need the tools? The VETO PRO PAC Laptop Series is designed to accommodate any situation with proper technology and tool storage, creating a mobile office built for jobsite durability.

The VETO PRO PAC Laptop Series bags are designed for technicians who carry a wide variety of tools and use technology (either a laptop or tablet) as well as managers who visit jobsites and need a mobile office with some space for diagnostic tools.

*Field Foreman, Fire Alarm Division
Sullivan and McLaughlin
Boston, Massachusetts*

I AM A 2ND GENERATION ELECTRICIAN.

"I started electrical at a very young age working with my father and going to Shawsheen Tech in the electrical program. After high school, I went right out into the field. I got my journeymen license at 20 and my master electrician's license at 21. By then I was running large construction jobs as a foreman for Suburban Electric. I continued on running electrical jobs for a few years more, in the process I got my builder's license."

"I then received an offer from SimplexGrinnell to be a programming and service tech working with fire alarm systems. I worked for Simplex for 5 years and received my NICET level 4 in fire alarm systems. Sullivan and McLaughlin then asked me to be a key part in their fire alarm division start-up (and, by the way, they are now the largest electrical contractor in Massachusetts). I jumped at the opportunity and have been with Sullivan for more than 10 years, and I am currently the Field Foreman for the fire alarm division."

The original VETO PRO PAC contractor series of closed top bags includes solutions for carpenters, electricians and technicians.

Whether you need a small service bag for troubleshooting, diagnostics or job specific setups, or you are working on a major construction project that requires your entire arsenal, you will find options for any work environment or challenge.

MC

20 TIERED POCKETS // 2 STORAGE BAYS

H: 12.5" x L: 10" x W: 8"

The MC is an all-purpose tool bag perfect for job specific setups, offering 10" of vertical storage zipped up. With 15 vertical tool pockets on the front inside and 3 large meter and drill pockets on the back inside, the MC allows technicians and contractors the ability to set up multiple job specific bags that can also feed out of our LC, XL and XXL bags. Grab and go!

LC

51 TIERED POCKETS // **6** ZIPPERED POCKETS

H: 19" x **L:** 13.5" x **W:** 9.5"

This medium-sized tool bag is designed for technicians and tradesmen. It has the versatility to organize, store and protect a variety of hand tools, meters, and more.

XL

61 TIERED POCKETS // **6** ZIPPERED POCKETS

H: 20.25" x **L:** 16.5" x **W:** 9.5"

This award-winning tool bag is built for any trade but especially popular with electricians, as it holds more than 100 tools. As with all our bags, it is made with tough 1800 denier body fabric and an over-molded rubber, ergonomic grip.

"The LC is the perfect size bag for anyone in the trades. It is easy to carry in and out of tight spaces and customer's homes, and it provides superior protection for all of our tools."

—Jason Harris
Owner, Harris Electric
Owosso, Michigan

MY VETO BAGS: LC, XL, XXL-F, TECH-PAC, TP3, TP4, CP4, CT-XL, CT-LG, MC AND TECH MGT.

— Jason Harris

*Owner, Harris Electric LLC
Owosso, Michigan*

**TO TELL YOU THE TRUTH, I KIND OF FELL
INTO BECOMING AN ELECTRICIAN.**

“Growing up, my father was an electrician for a local contractor, and I would go with him on some jobs as a kid and hold the flashlight. After my first year of college, I needed a job, and my father, working for a contractor in the Lansing area, got me a job with his company. I kept going to college, and I also kept working as an electrician. My first couple years in the trade were a good mix of commercial and residential work.”

“My wife is from the Grand Rapids area, so I ended up relocating there. I got a job working for an electrical contractor that specialized mostly in service work. I found the work challenging; I enjoyed the travel part of the job; and, I felt good about solving problems. Although I can’t say that I had the goal of owning my own business, when we relocated back to my hometown in 2013, I decided to go out on my own and start Harris Electric LLC in November of 2014.”

XXL-F

47 TIERED POCKETS // **7** ZIPPERED POCKETS

H: 17" x **L:** 25.5" x **W:** 9.5"

This bag is the "soft side" version of the classic carpenter's wooden tool box. It stores longer tools like hand saws, framing squares, pry bars, framing hammers, etc., in an open bay on one side and smaller hand tool storage in vertical pockets on the other side. Offering ergonomic transportation on and off the jobsite. This bag holds it all!

The VETO PRO PAC contractor series of open top bags has the same sturdy construction and ergonomic features of the closed top contractor series but offers quick open top accessibility and tool storage convenience. The open top bags have more space to store larger tools like cordless drills, extension cords, caulk guns, pry bars, pipe wrenches and more.

OT-LC

OT-XL

OT-LC

36 TIERED POCKETS // **4** ZIPPERED POCKETS

H: 17" x **L:** 13.5" x **W:** 9.5"

This compact version of the OT-XL is an open-top tool bag that holds up to 75 tools and gear like cordless drills, extension cords, caulk guns and anything else that fits. A compact grab-and-go workhorse.

OT-XL

40 TIERED POCKETS // **4** ZIPPERED POCKETS

H: 17" x **L:** 16.5" x **W:** 9.5"

This is the open-top version of the award-winning VETO PRO PAC XL, featuring the same sturdy construction and ergonomic features, but offering internal vertical pockets and open spaces to store larger punch-list items. This is a setup, grab-and-go bag that offers quick open-top accessibility and tool storage convenience.

The Veto Pro Pac Cargo Tote Series offers tradesmen the FIRST series of professional grade wide mouth tote bags. These rugged totes provide versatile storage and carrying solutions for a wide variety of jobsite situations: A catch-all bag for raiding the van; a carry-all bag for end of day cleanup; and, a more efficient way to carry bulky tools back and forth to the jobsite.

Made to stand up to the rigors of daily use, these totes feature 1800 Denier Body Fabric, leather handle grips and our signature 3mm polypropylene waterproof base. Cargo Totes are ideal for hauling large tools and bulky items, and handy for outdoor activities, everyday home storage and secondary travel bags.

CT-LC

CT-XL

CT-LC

4 TIERED POCKETS // **2** ZIPPERED POCKETS

H: 14.5" x **L:** 13.5" x **W:** 9.5"

This bag offers bulk carrying capacity with a rugged tote design and Veto Pro Pac's classic polypropylene weatherproof bottom, which allows quick and easy carrying/storage of bulk items from the truck to the jobsite or anywhere in between. An optional shoulder strap is sold separately.

CT-XL

5 TIERED POCKETS // **2** ZIPPERED POCKETS

H: 16.5" x **L:** 17" x **W:** 9.5"

The CT-XL has 40% more cargo storage than the CT-LC; it offers the ultimate bulk storage and carrying capacity for larger tools and accessories such as hammer drills, extension cords, boots, sawzalls, air hoses or even your pet lab. An optional shoulder strap is sold separately.

"The Cargo Totes have taken on so many uses! At the end of the day, I throw all of the miscellaneous tools in, do a quick carry out and organize the back of the trailer, putting the tools in the proper bags ready for the next assignment!"
