## PVC Fittings

DWV Fittings - Prices Effective February 1, 2023

Sewer Fittings - Prices Effective February 1, 2023

Electrical Fittings - Prices Effective October 27, 2021

Westlake Pipe & Fittings injection molded and fabricated fittings are recognized for the highest quality standards in the industry. Westlake Pipe & Fittings offers fittings with triple certification listing.

**Please Note:**

- Parts listed with a single asterisk are injection molded fittings.
- Parts listed with a † are fittings that are assembled from molded components.
- Parts with no asterisk are fabricated fittings.

**Gasketed CIOD Pressure Fittings DR18 (C-Series)** **C** C1 - C3

**Gasketed CIOD Pressure Fittings DR25 (C-Series)** **C** C4 - C6

**Solvent Weld DWV Fittings (D-Series)** **D** D2 - D14

**Rigid PVC Conduit Fittings & Accessories (E-Series)** **E** E1 - E6

**ENT Fittings (E-Series)** **E** E7 - E10

**Gasketed Sewer Fittings SDR 35 (G-Series)** **G** G1 - G12

**Gasketed Sewer Fittings SDR 26/PS 115 (H-Series)** **H** H1 - H12

## Pipe & Fittings

### Policy and Terms

#### Claims Policy

Discrepancy claims must be reported within two business days of receipt of order.

#### Freight Policy

Freight is prepaid for orders totaling \$2,000 net or greater. Some items are special order and may not qualify for prepaid freight. Prepaid freight applies to a single shipment to one destination within the continental United States.

#### Minimum Order Policy

A minimum order of \$100 net is required.

#### Non-Stock Product Policy

Non-stock product is considered special order and is non-cancelable and non-returnable.

#### Standard Payment Terms

Payment terms are 2% 30 net 45 days.

#### Return Goods Policy

All returns must be approved by Westlake Pipe & Fittings and accompanied by a return goods authorization number also issued by Westlake Pipe & Fittings. A minimum restocking fee of 25% will apply to all returned goods. The shipper is responsible for return freight.

## C.I.O.D. Gasketed Pressure Fittings (C-Series)

DR 18 (Class 150)

Fabricated in Sizes 10" – 36"

### Applications

C.I.O.D. DR 18 PVC Gasketed Pressure fittings are thermoformed, glued and fiberglass reinforced. This eliminates the threat of rust or corrosion, providing better flow and cleaner water quality. C900 PVC pressure fittings can be used in both higher pressure water systems and low pressure sewer force main systems.

Westlake Pipe & Fittings offers a standard bell OD to facilitate joint restraint installation, while allowing all fittings to have fiberglass reinforced plastic where required. Bends of 45 degrees or less, are manufactured of one-piece construction where possible. This provides a lightweight, compact fitting, which can be easily handled in the field.

Westlake Pipe & Fittings C900 PVC fittings are designed to be used with engineered joint restraints or concrete thrust blocking. C900 PVC fittings are a tough alternative to cast iron fittings offering the added benefit of corrosion resistance.

### Certification

Our Pressure C.I.O.D. Gasketed Sewer fittings conform to AWWA C900.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

- Fabricated from DR18 Class 150 pipe for pressure applications
- Conforms to AWWA C900
- Additional Sizes Available Upon Request

## C.I.O.D. Gasketed Pressure Fittings (C-Series)

DR 25 (Class 100)  
Fabricated in Sizes 10" – 36"

### Applications

C.I.O.D. DR 25 PVC Gasketed Pressure fittings are thermoformed, glued and fiberglass reinforced. This eliminates the threat of rust or corrosion, providing better flow and cleaner water quality. C900 PVC pressure fittings can be used in both higher pressure water systems and low pressure sewer force main systems.

Westlake Pipe & Fittings offers a standard bell OD to facilitate joint restraint installation, while allowing all fittings to have fiberglass reinforced plastic where required. Bends of 45 degrees or less, are manufactured of one-piece construction where possible. This provides a lightweight, compact fitting, which can be easily handled in the field.

Westlake Pipe & Fittings C900 PVC fittings are designed to be used with engineered joint restraints or concrete thrust blocking. C900 PVC fittings are a tough alternative to cast iron fittings offering the added benefit of corrosion resistance.

### Certification

Fittings conform to AWWA C900.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

- Fabricated from DR25 Class 100 pipe for pressure applications
- Conforms to AWWA C900
- Additional Sizes Available Upon Request

## Solvent Weld DWV Fittings (D-Series)

Injection Molded in Sizes 1 1/2" – 12"  
Fabricated in Sizes 10" – 24"

### Applications

The most complex installations require the most advanced fittings. Injection molded DWV fittings from Westlake Pipe & Fittings eliminate typical problems resulting from installing a DWV system with inconsistent, inaccurate, or non-certified fittings. When installing or specifying DWV you can count on a 45° bend being exactly that, a 45° bend. Literally from every angle, Westlake Pipe & Fittings understands the importance of accuracy and consistency on the job site and provides you with a perfect fit from roof to grade.

Our DWV fittings make installation of the system quicker, easier and less costly. Productivity gains are significant when our DWV fittings are specified and installed. Combine with our fabricated fittings to ensure a trouble-free installation.

### Certification

Westlake Pipe & Fittings PVC Solvent Weld DWV Molded Fittings are third party tested and listed by NSF, UPC, and CSA to meet specifications defined in ASTM D2665, F1866, and CSA B181.2, where applicable. Fabricated fittings conform to ASTM F1866.

1 1/2" – 12" molded fittings are NSF certified to ASTM D2665.

**Note:** Please contact Westlake Pipe & Fittings Technical Services regarding certifications for specific fittings.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

DWV systems may be air tested at no more than 5 psi. To ensure safe testing, apply proper pressure regulation, relief devices and procedures.

Third Party Tested

## Rigid PVC Conduit Fittings and Accessories (E-Series)

Injection Molded in Sizes 1/2" - 6"

Westlake Pipe & Fittings offers a complete line of rigid PVC conduit fittings. Westlake Pipe & Fittings non-metallic conduit and fittings are certified by the CSA and UL where applicable, for use in above and below ground applications.

Westlake Pipe & Fittings rigid PVC conduit systems are used in non-burial applications, encased in concrete, concealed in walls and direct burial applications:

- Utilities
- Cable, data and communication lines
- Institutional, commercial, industrial buildings
- Residential applications, including service entrances
- Street and highway underground feeds
- Transportation systems - subways, bridges, tunnels, airports
- Water and wastewater treatment plants
- Marinas
- Mines and mills

## Gasketed Sewer Fittings SDR 35 (G-Series)

Injection Molded in Sizes 4" – 12"  
Fabricated in Sizes 15" – 36"

Gasketed SDR 35 fittings feature a one-piece integral bell and an extended pre-alignment entrance that aids in proper alignment of pipe and fittings. In addition to scientifically formulated resins, square pipe stops resist pipe push-through while extra heavy support is provided under the pipe stop at branch intersections for added strength. Where available, reducing branches on injection molded 8", 10", and 12" tees, wyes, and tee-wyes shall be minimum DR18 wall thickness in the reducing branch body and reducing branch hub area below the gasket race.

### Applications

Gasketed Sewer fittings are intended for non-pressure drainage of sewage and surface water.

### Certification

Westlake Pipe & Fittings Gasketed Sewer fittings are third party tested and listed by NSF, UPC and CSA to meet specifications defined in ASTM D3034, ASTM F1336 and CSA B182.2, where applicable.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

Third Party Tested

## Heavy Wall Gasketed Sewer Fittings SDR 26/PS 115 (H-Series)

Injection Molded in Sizes 4" – 12"  
Fabricated in Sizes 15" – 36"

With a 34.5% thicker wall than SDR 35 and high impact retention ring, Westlake Pipe & Fittings PVC Heavy Wall Gasketed Sewer fittings are manufactured to last. The distinctive green gasket is also heavy duty and engineered to make assembly fast and easy. Just push the pipe in until it hits the square stop for a solid, positive seal.

SDR 26/PS 115 Heavy Wall Gasketed Sewer fittings also feature distinctive green high impact gasket retention rings for easy identification in the field. The deep lead into the gasket reduces the possibility of gasket damage or rolling. In addition, the shock absorbing ring inhibits fittings from breaking under impact.

### Applications

Heavy Wall Gasketed Sewer fittings can be used where extra heavy wall (SDR 26) is specified by your local jurisdiction. SDR 26/PS 115 fittings are intended for non-pressure drainage of sewage and surface water.

### Certifications

Heavy Wall Gasketed Sewer fittings are third party tested and listed by NSF to meet specifications defined in ASTM D3034 and F1336 and CSA to meet specifications defined in CSA B182.2, where applicable.

4" - 12" SDR 26 molded, certified to CSA B182.2 (CSA) ASTM D3034/ F1336 (NSF).

15" SDR 26 fabricated, certified to CSA B182.2 (Intertek), manufactured as per ASTM D3034/F1136.

18" and over, PS 115 fabricated, manufactured as per ASTM F679/ F1336.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

\* Denotes Molded Fitting • Items in Bold feature Heavy Duty Branches (SDR 18)  
 † Denotes Assembled from Molded Components  
 • Specifications: ASTM D3034, F1336, CSA B182.2, F679

• 4"-12" Third party tested and listed by CSA and NSF  
 • Additional Sizes Available Upon Request  
 • Non-Stock items are non-cancelable, non-returnable

## Profile Fittings (K- Series)

Fabricated in Sizes 8" – 36"

### Applications

PVC Profile fittings are for use with Ultra Rib, KOR FLO, Ultra Corr, and many other types of PVC and poly ribbed pipe. They are constructed from smooth wall SDR 35 pipe. Adapters are available to connect to sewer or other types of pipe.

### Features

- Gaskets are supplied with every fitting purchased.
- Water tight joints - virtually no risk of infiltration or leakage.
- Smooth Interior walls of our PVC Profile fittings allow for high flow rate

### Certifications

Profile fittings conform to ASTM F794.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

## C.I.O.D. Gasketed Non-Pressure (N-Series)

Fittings DR 25

Fabricated in Sizes 4" – 36"

### Applications

C.I.O.D. DR 25 Gasketed Non-Pressure fittings are for sewer and drain applications. C.I.O.D. Non-Pressure fittings are not fiberglass reinforced and they are most commonly installed in either areas of high water tables or extremely deep burials. Bends of 45 degrees or less, are manufactured of one-piece construction. This provides a lightweight, compact fitting, which can be easily handled in the field.

### Certifications

Our Non-pressure C.I.O.D. Gasketed Sewer fittings conform to portions of AWWA C900.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

# Solvent Weld Sewer Fittings SDR 35 (P-Series/S-Series)

Injection Molded in Sizes 3" – 12"  
Fabricated in Sizes 10" – 36"

## Applications

Westlake Pipe & Fittings has the broadest product offering of Solvent Weld Sewer fittings in the industry. They conform to all municipal, federal, and military requirements. They are tested for joint tightness, internal stress and dimensional stability. The P Series and S Series are engineered for the harsh environment of construction, shipping, handling and installation.

Listed below are some of the uses of Solvent Weld Sewer fittings:

- Onsite Disposal
- Closed loop septic fields
- Open system septic fields
- Engineered systems
- Laterals to Municipal Sewers (sanitary & storm)
- Surface Drainage
- Foundation Drains
- Radon Gas Venting
- Yard Drainage
- Downspouts
- Pool Drainage
- Area Drainage
- Landscape Drainage

## Certifications

Westlake Pipe & Fittings Solvent Weld Sewer fittings are third party tested and listed by NSF, UPC, and CSA to meet specifications defined in ASTM D3034 and CSA B182.2.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

## I.P.S. Gasketed Drainage (T-Series)

Injection Molded in Sizes 4" – 8"  
Fabricated in Sizes 10" – 24"

Westlake Pipe & Fittings is one of the only manufacturers to supply 4" – 8" Gasketed Drainage fittings in molded components. These Gasketed Drainage fittings feature distinctive blue rings and gaskets for easy field identification.

### Applications

Gasketed Drainage fittings are intended for non-pressure drainage of sewage and surface water where IPS pipe is specified.

### Certifications

Westlake Pipe & Fittings Gasketed Drainage fittings are made to accept ASTM D2241 pipe or ASTM D2665 DWV pipe.

**Attention:** Westlake Pipe & Fittings are not to be used with compressed air or gases. Westlake Pipe & Fittings does not recommend that piping systems that include its products be tested with compressed air or gases.

\* Denotes Molded Fitting

• Molded fittings are third party tested and listed by NSF at 200 PSI

† Denotes Assembled from Molded Components

• Specifications: ASTM D2241, D3139

• Made for SDR 26 and ASTM D2665 pipe

• Additional Sizes Available Upon Request
