HOW TO MEASURE

**TIPS:** If you don't have a measuring tape, use a piece of string and hold it alongside a ruler. For the best fit, we recommend you measure without clothing on. If in between sizes, size up for growing child.

1 NECK

Measure with the tape placed around the base of the neck.

2 CHEST

Measure around the fullest part, place the tape close under the arms and ensure the tape is flat across the back.

3 SLEEVE

With arm straight next to the body, measure from the shoulder bone to the wrist bone.

#### 4 WAIST

Measure around your waist at the narrowest point.

#### 5 HIPS

Stand with heels together and measure around the fullest point of your hips.

#### 6 INSEAM

Measure the distance vertically, from top of inner thigh to floor, without wearing shoes.
