# Jobsite Backpack

★★★★★ 4.3 (6) Write a review

The Milwaukee Jobsite Backpack was designed with the professional tradesmen in mind and built with durable 1680 denier material and an impact and water resistant molded base. The Jobsite Backpack features a padded, breathable load bearing harness for ultimate comfort and jobsite performance, as well as a laptop pocket for the protected storage of laptops and tablets. A fold-down front pocket allows for easy storage of large items such as fish tapes, drills and extension cords, while exterior daisy chains allow for additional clip-on storage. This combination of extreme durability and functionality confirms Milwaukee's commitment to providing innovative, durable **Read More**

**A&P mechanic great set up!**

Review 1

I looked for a long time for a system that could get the tools I need to the job site on foot, in a truck, or up stairs... The way I have it set up it weights 47 pounds.. I can lock it and check it onto planes during travel.. I have 166 tools inside of it.. not thrown around.. organized.. full set of sockets in a shadowed case, full set of wrenches in a wrench roll.. I truly recommend this backpack for flight line use... Only two things I would say would make this perfect... slightly bigger, not much, just a little... and web system on the outside so you could add pouches and additional storage.. Thank you for this product!!

Vote 1

 Pros: Easy To Acces, Flat Bottom, Lockable, Storage, Strong And Durable

 Cons: Cant Add To, Could Be A Little Bigger

Purchased As Gift: No

Yes, I recommend this product.

**great bag with some mods**

Review 1

saw and pick up bag at Home Dpt. added a 2" reflective tape to the bottom of plastic tub of the bag. Gezz Milk how hard was that to put that on the bag. it deep enough to hold a 17" laptop BUT it will not be protected from bumps. Solution. pad the bottom with bubble wrap or sheets of foam. the front compartment holds various do da like chargers, cables, cellphone. smart phone, solar charger, external power packs all in the individual pockets. also some tools like 12-1 tools, multi-tools, cable crimping tools, plugs, cat 6 cable, coax cable, flashlight. drill/driver. multimeter. my 17" laptop, ipad, mac air.

### Perfect for Jobsite or Office

I love this backpack! I used to be an electrician apprentice which is when I became a huge Milwaukee Tool fan. Knowing this, somebody purchased this for me as a gift. As a software developer today, I may never need something nearly as tough as this bag to lug my laptop around in but I think this is a great alternative to the more popular Swiss backpacks. As mentioned in other reviews, the bottom could use some padding if you carry a laptop and it doesn't fit in the pocket in the back compartment. All of the slots, pockets, and multiple compartments is great. Another note is that the side pockets hold disposable water bottles and soda cans/bottles OK, but they are non-elastic so things tend to slip out and will not fit or hold a Nalgene similar hard water bottles/thermoses very well.

⊕ Pros: External pouch/pocket is unique, Good balance of pockets and empty space, Nice straps/belt, Solid base allows bag to stand vertically

⊖ Cons: Side pockets too small/non-elastic, The bottom of the bag lacks padding (laptop)  
Purchased As Gift: Yes

✔ Yes, I recommend this product.

### Great for electricians, not so much for HVAC techs

I received this backpack as an early Father's Day gift and I was super excited about getting it until I started loading it with tools and discovered that there is nowhere to store my 1/4" impact driver and hammer drill and that the only tools that fit properly are my screwdrivers and my wire strippers. Everything else loosely flops about and falls out of the pouches or falls so deep into the pouches that I have to use needle nose pliers to retrieve them. There is also nowhere to store my gauges or really anything that is useful and necessary for my line of work. This bag would be perfect for an electrician or someone who uses lots and lots of screwdrivers at work, but is ultimately useless to a HVAC tech. I gave it 3 stars. 5 stars for an electrician, 0 stars for HVAC techs or anyone that needs anything except screwdrivers for their job. The dedicated laptop pouch is also pointless for anyone except maybe a student.

✘ No, I do not recommend this product.

### AWESOME BACKPACK

its a great bag with a very solid design made if great material,only downside it is not weather proof. if it rains and your backpack gets wet thats so many extra pounds of unneeded weight to be dragging around, if milwaukee were smart they would add a pull-up cover like the do for backpacks used to carry gaming consoles, just a suggestion

⊕ Pros: Durable, Easy On Your Back, Heavy duty, High Quality, Very Spacious

⊖ Cons: No Weather Cover, Not Water Proof, Over Priced  
Purchased As Gift: No

✔ Yes, I recommend this product.

### What a beautifully designed backpack!

What a beautifully designed backpack! Milwaukee designers outdid themselves on this one. Every inch of space is useful. Also, the padded straps and back area is a nice touch. Recommended!

⊕ Pros: Good Design, Nice colors, Padded Strap And Back, Various Size Pockets  
Purchased As Gift: No

✔ Yes, I recommend this product.
